NEWS FROM PARIS suggests another default in Paris on the debt to the United States, and the news is probably accurate. Britain's cabinet discussed payment to the United States, but reached no decision.

Certain gentlemen think that the worst misfortune is to lose your rabbit's foot. Europe, which enjoyed the habit of drawing gold out of the United States, predicts that this country will suffer misfortune because it has lost its financial "rabbit's foot" of gold.

As a matter of fact, the country is only "off the gold basis," it still has its gold "rabbit's foot" tucked away in Washington and it's the biggest gold rabbit's foot on earth.

IN SPITE OF EUROPE'S FEARS and predictions, the dollar Friday refused to drop lower. It went up a little. Those that have been selling American dollars short would have stopped their foolishness could they have attended a luncheon given Friday by Mr. Berkowitz, manager of the American Weekly, to a dozen heads of important advertising firms in the United States. Mr. Berkowitz, in his address in showing advertisers that this country still has money to spend, presented facts, based on government re-

ports, that in 1932, AMERICANS SPENT IN RETAIL BUYING, \$31,000,000,000. That was buying in retail stores, not doctors' bills or family spending. The exports of the whole world amount to only \$12,500,000,000, little more than one-third of our retail business.

Americans have in their savings banks \$24,285,000,000. All the savings banks in the world, outside of this

MCCOY ENJOINED IN POWER CASE

Judge Dawkins Restrains Farmer From Interfering With Lines

A temporary injunction restraining John A. McCoy, farmer, of Richland parish, from interfering with power lines supplying current for the town of Alto was granted in federal court here Saturday by Judge Ben C. Dawkins. The case will be tried on October, when the Louisiana Power and Light company will seek to have the injunction made permanent.

The case was thrown into court on May 31, when the power company filed a suit for injunction against McCoy in federal court in Shreveport. Shortly after the suit had been filed McCoy was ordered to show, on June 10, why an injunction should not be issued restraining him from "molesting, interfering or otherwise 'meddling' with the service of the power company at Alto.

In the petition it was alleged that the power company maintains a line across McCoy's land and that in constructing the line, a service line to supply lights for McCoy's home was constructed. For several months, the suit alleged, McCoy had not paid his light bill and on May 20 his service was discontinued by the company.

On May 28, it was asserted, McCoy or his agents threw open a transformer switch where the line crosses his property, thereby cutting off the service to Alto. It was further alleged that when the company sent workmen to connect the switch McCoy threatened them and had continued to threaten anyone who attempted to throw on the switch.

Former LaSalle Coroner Burned to Death at Jena

JENA, La., June 10.—(AP)—Dr. Fred Hamilton, aged about 45, coroner of LaSalle parish for a number of years, was burned to death shortly after midnight this morning when a frame structure which he used as a combination office and living apartment was destroyed by fire of undetermined origin.

Dr. Hamilton was alone in the structure at the time. He was last seen alive about 10 p.m. His son, Louis Hamilton, 22, who lived with him, had gone to a dance. Mrs. Hamilton was in Lake Charles. She was en route to Jena today for the funeral which will be held at 2 p.m. tomorrow at Follock.

THREE CASES SLATED

Three cases are scheduled to go to trial before juries in district court here this week. J. L. Allgood will be tried Monday on a charge of attempted criminal assault, Roy Garrett will be tried Tuesday on a charge of breaking and entering and Mrs. Frank Manley will be tried Wednesday on a charge of murder in connection with the fatal shooting of Ted Reiser at the garage apartment on Plum street, last August 26.

MRS. PLEASANT'S SUIT IS INCREASED TO HALF MILLION

Amended Petition Filed In Action Against Huey P. Long

SLANDER IS CHARGED

Crawfish Accused of 'Trying to Strike Terror' to Plaintiff

BATON ROUGE, June 10.—(AP)—Mrs. Anne Ector Pleasant, wife of former Governor Ruffin G. Pleasant, today amended and supplemented her suit against Senator Huey P. Long for alleged character defamation to increase to \$500,000 the amount of damages asked, and further alleging oral abuse by the senator.

Mrs. Pleasant filed a supplemental and amended petition to her suit entered some time ago in East Baton Rouge district court for damages for allegedly having been slandered by Senator Long about a year ago in the office of Miss Alice L. Whittman, state supervisor of public accounts.

Mrs. Pleasant's original suit asked \$250,000 damages for allegedly having been called a "drunken, cursing woman" by Senator Long in presence of witnesses in Miss Grosjean's office and being seized and detained by R. L. Whittman, state bureau of identification superintendent, at Long's orders after she said Long had told Whittman to put her out of the state house.

Mrs. Pleasant charged in her amended petition that the senator's object was "evidently to try to strike terror to your petitioner as a tax opponent through the use of the hostile presence of several of his henchmen, the physical force of one of them, and the threat of violence of all of them, as evidenced by the fact that some persons who intended to speak against burdensome tax raises were bluffed into silence by administration thugs."

She cited as illustration of the alleged attempted intimidation the "way-laying and knocking into insensibility of one Joseph Boudreaux, who was energetically opposing the imposition of more burdensome taxation upon the insolvent, disheartened and oppressed people of the state."

Boudreaux, state administration political antagonist, suffered a fractured skull when slugged on the state house steps about the time Mrs. Pleasant filed her suit.

CAR SUBMERGED NEAR COLUMBIA

Sedan Found in Waters of Davis Lake; Owner Is Not Known

Submerged in Davis lake, about two miles north of Columbia on the Monroe-Columbia highway a 1932 model Willys-Overland sedan was found Saturday by several negroes who were fishing in the lake. A report was made to Sheriff J. W. King of Caldwell parish, who had the car pulled out and examined in an effort to determine to whom it belonged and how it came to be in the lake.

Finding of the car was reported here by J. W. King, Jr., son of Sheriff King, and M. J. Adams of Columbia, who visited police headquarters in Monroe. They expressed the opinion that the car had been purposely driven into the lake and that it probably had been used in a burglary or robbery shortly before it was submerged.

At the time the car was found the top was near the surface, but it was believed that at one time it was as much as five feet under water. The opinion was expressed that the car had been in the water four to six weeks, as it was badly water-blistered.

The car was said to have borne motor No. 699211 and serial No. 175. W. G. Banister, secretary to L. V. Tarver, superintendent of Monroe police, inspected the stolen car files for the purpose of determining whether or not the car had been stolen here, but found he did not have the car listed as missing.

Mr. King expressed the opinion that the car probably was driven here from the north, as it was equipped with a steam heater. This type of heater is rarely seen in this section. Comparatively few automobiles have been reported as missing.

Spanish Airmen Headed Across Atlantic Ocean

SEVILLE, Spain, June 10.—(AP)—Captain Mariano Barberan and Lieutenant Joaquin Collar apparently were well over the Atlantic tonight on their flight from Seville to Cuba.

The Spanish airmen, wearing white overalls and white coats, took off from Tablada airfield early this morning after receiving reports that they would encounter excellent flying weather.

They were escorted to the coast by several airplanes. Tonight no reports had been received from them, but this occasioned no anxiety as their route did not lie over heavily-traveled sea lanes.

BANK OFFICIALS OF 3 COUNTRIES TALK AT LONDON

Plans Go Ahead for Opening of World Economic Conference

LONDON, June 10.—(AP)—Negotiations between central bank officials of the United States, Great Britain and France on the stabilization of the dollar, the pound and the franc were under way here tonight as statements and financial experts of many nations prepared for the lifting of the curtain Monday on the world economic conference.

It was definitely learned that the three-cornered currency discussions were in progress when Clement May, governor of the Bank of France, and Charles Farnier, vice governor, arrived and joined George L. Harrison, governor of the federal reserve bank of New York, and Montagu Norman, governor of the Bank of England, in private talks.

While no official word was forthcoming as to the character of the three party conversations it was understood that means of de facto stabilization were discussed. Such a move would be aimed to prevent wide fluctuations in the currencies of the great powers, an objective which experts regard as essential to the success of the coming international meetings here.

This stabilization presumably would be accomplished by the establishment of a fund to buy and sell currencies of the United States, France and Great Britain.

Meanwhile tonight plans for the opening of the conference went forward in the headquarters offices of all the national groups whose representatives have already arrived at the British capital.

Conservation Commission Is Part Of State's Big Political Machine

Annual Outlay of Department Jumps Over a Million in Six Years

Three important state departments domiciled in the city of New Orleans are not maintained with direct taxes. They are the conservation commission, directed by Robert Maestri; the state banking department, of which J. S. Brock is the head, and the fire marshal's office, conducted by R. J. Gregory. Conservation fees of various kinds, supplemented with appropriations from the conservation tax and federal forestry contributions support the conservation department. The banks, finance companies and building and loan associations contribute the money necessary to maintain the state banking department. The fire marshal's office is supported with the surplus money must have come from some source of direct taxation. The ever-flexible general fund supplied the excess noted. Under the

SCHOOL PROGRAM TO BE FINISHED SOON—BURGESS

Letter From Ouachita Representative Discusses Finance TO SLASH SALARIES

ALEXANDRIA, June 10.—(AP)—Rapides parish legislators are confident the state's schools will operate full terms during the coming session.

George W. Lee and W. T. Bradford, of Rapides parish, said here after conferring with Governor O. K. Allen and members of the Louisiana tax reform commission, that the officials informed them necessary funds would be provided for the operation.

They said plans were being made to secure the money by effecting salary reductions in government departments and by consolidating various offices and boards.

The legislators said they were informed the state now has on hand \$230 per educable child, and that there will be available by October 1 \$11.50 per educable, or a total of approximately \$12,000,000.

"Did Governor Allen agree to the matters given out here in the interview with you and Representative Bradford relative to the public schools?" Representative Lee was asked today by a Daily Town Talk representative.

Lee replied: "I saw Governor Allen personally on Wednesday of this week between 3 and 4 p. m. in his office in the state house at Baton Rouge and he said to me: 'I do not intend to call any special session of the legislature, but I assure you that the funds will

RUSSELL ARGUES IN GAS TAX SUIT

Attorney Represents City of Monroe in State Supreme Court

Arguments in a case which will vitally affect all municipalities in Louisiana were made Wednesday before the supreme court at New Orleans. H. H. Russell, Monroe city attorney, stated Saturday. The case was one of those in which the state, through Alice Lee Grosjean, supervisor of public accounts, sued the city of Monroe for non-payment of the state tax on gasoline.

Mr. Russell presented the arguments before the court for the city, and the state was represented by Joe Dawkins of Monroe and Justin C. Daspit of Baton Rouge, attorneys for the supervisor of public accounts.

Shortly after the last gasoline levy was imposed the city took the position that it was not liable for payment of tax bought wholesale from another state by the city and shipped into Monroe for use by the city. A carload of gasoline, containing approximately 8,000 gallons, is shipped in about every five weeks and non-payment of the tax would mean a large saving to the city.

A number of suits have been filed by the state against the city, each being based on the non-payment of tax on a certain shipment. The first suit was singled out for a test case and it was this case which was argued Wednesday.

The city's contention is that it is not a corporation in the sense contemplated in the act creating the tax. If the supreme court should uphold this decision it would mean that in the future Monroe, as well as other municipalities, would be relieved of paying the tax, thus giving other cities the advantage of the test made by Monroe.

TWO FUGITIVES HELD IN TEXAS

Convicts Who Escaped From Kansas Penitentiary Are Captured

SAN ANGELO, Texas, June 10.—(AP)—Billie Woods and Clifford Dopson, who escaped with nine others from the Kansas state prison at Lansing on Memorial day, were arrested at a school house southwest of Junction today.

They were caught by J. A. Tilley and W. E. Kilburn, federal custom officers, who stopped their car and asked to see the bill of sale. Tilley then recognized Woods as one of the group which escaped in a daring break. Two women were with them.

The officers searched the car and found three loaded six-shooters and a shotgun. The automobile had been stolen from a man and woman the prisoners kidnapped in Missouri.

Woods, in the convicts' car with the women, claimed a shotgun and fired in an effort to regain possession of the car but failed and the machine was wrecked.

Tilley, who had put Dopson in the officers' car, arrived quickly, however, and again covered the four. All were taken to Junction.

The men said they were en route to Menard, 25 miles north of Junction.

"They'll not take me back to Kansas," Woods was quoted as saying.

BEVERLY HILLS, Cal., June 10.—The Baers are going strong. "Bugs" Baer is the champion humorist, and "Max" the champion boxer. JIMMIE MATTERN IS SEEN PASSING OVER RUKHLOVO

From His Next Landing Point Flier Will Hop Off for America

MOSCOW, June 10.—(AP)—When last heard from today Jimmie Mattern, American round-the-world aviator, was passing over Rukhlovo in eastern Siberia, about 725 miles short of Khabarovsk, his next landing point.

That was at 9:15 o'clock this morning Moscow time (1:15 a. m. eastern standard time). The chances were that by the time Moscow received news that Mattern had been sighted at Rukhlovo he already was in Khabarovsk, unless he had made an unscheduled stop, as communication with eastern Siberia is very slow.

From Khabarovsk the flier will hop off for the North American continent. There is no expectation here that he will be able to take the round-the-world speed record from Wiley Post and Harold Gatty, the men he started out to beat, but it is assumed that he will go ahead to set a time for a solo flight circling the globe.

Mattern's take off place today was Belye, Siberia, which he left at 1:30 a. m. Moscow time (5:30 p. m. Friday, eastern standard time). Forty minutes later he passed over Irkutsk, about fifty miles to the east.

Reports here indicated that weather conditions were fair all the way from Belye to Khabarovsk. The weather bureau said he might encounter some local rain but otherwise the weather would be favorable.

Morehead's Body Will Arrive in City Today

The body of Andrew Morehead, 24, who committed suicide in his cell in the county jail at Lexington, Miss., Tuesday, where he was held as a suspect in connection with the robbery of a bank at Tehula, Miss., is expected to arrive over a morning Illinois Central railroad train today.

It will be taken to the residence of Morehead's mother, Mrs. Kate Morehead, at 308 Austin avenue, West Monroe.

Plans contemplate the holding of the funeral at the residence at 3 p. m. today with interment in Riverview burial park, with Rev. Louis Hoffmann, pastor of the Methodist church in West Monroe, officiating.

Morehead leaves his widow and one small child, in addition to his mother and two sisters and one brother. These are Mrs. W. H. Fleming and Mrs. Fagin Steele, of West Monroe, and George Morehead, living in California.

Murder Is Charged in Sudden Death of Woman

VICKSBURG, Miss., June 10.—(AP)—An affidavit charging murder was filed here today against Dominick A. Bove, Jr., local merchant, in connection with the sudden death of his sister-in-law, Miss Billie E. Haring, which police said he was investigating.

Sheriff W. J. Hossley said the affidavit was filed at his request by District Attorney N. Vick Robbins and County Attorney J. J. O'Neill and that Bove was being held in Warren county jail.

Mrs. Bove, sister of Miss Haring, said the affidavit was "the most preposterous charge ever made against any human being."

Miss Haring, who lived with the Boves, died last Wednesday after returning from work at a hospital where she held a clerical position.

Vets' Compensation Cuts, Industry Bill Virtually Approved

BREAK COMES QUICKLY

Opposition to Reorganization Proposal Develops in Senate

WASHINGTON, June 10.—(AP)—Congress edged up almost to the front of adjournment tonight and then found the difficulties could not be surmounted.

Before the plans for a sine die adjournment were abandoned, however, a long day and night of work had brought virtual agreement on the two major disputes that remained to be settled—the veterans' compensation cuts and the industrial recovery bill.

The first was being ironed out in conference after an administration compromise had been accepted by the house. The second lacked only senate acquiescence to a conference agreement.

The break came suddenly and dramatically, during a speech by Senator Long, Democrat, Louisiana.

As a note was passed to him, he said he understood the senate would recess over the weekend.

Robinson arose and replied: "Yes, I am ready to move for a recess until Monday."

The senate had been in continuous session for 13 hours in an effort to clean up the legislative calendar and wind up the session tonight before the beginning of the economic conference in London Monday.

Crowded galleries had listened to

PRESIDENT PLANS BRIEF VACATION

Roosevelt Receives News in Silence of Congress' Action

WASHINGTON, June 10.—(AP)—Confidently counting on beginning his vacation from the strenuous presidential grind next Thursday, President Roosevelt received in silence tonight the news that congress had deferred adjournment of the extra session.

It was a quiet night at the White House as the president awaited the action of congressional leaders to wind up the session.

Informed shortly after 11 o'clock of the decision of the senate to recess until Monday, Mr. Roosevelt made no comment.

There was a prospect, however, that on tomorrow he would talk things over with the leaders of Capitol Hill to effect a quick completion of his emergency program.

With the final word from congress, Mr. Roosevelt retired to bed before midnight.

Ferriday Lumber Mill To Resume Operations

WISNER, June 10.—(Special)—According to an announcement by A. C. Kadel, resident manager of Fisher Lumber corporation's mills here, at Ferriday, the Ferriday mill will resume full time operation Monday, June 12.

The resumption of full time operation by this mill will give employment to approximately 250 men.

The Wisner mill started up full time Monday, June 5, which afforded employment for about 200 men.

State Taxation

Much valuable information for all Louisiana taxpayers is contained in the series of articles now being published by the World and News-Star dealing in detail with important state tax matters.

The articles are written by one long experienced in state fiscal affairs and tell in simple language how the state and its agencies collect and disburse the huge revenues derived from a greater variety of taxes, licenses, etc., than any other state levies.

By reading these articles, Louisiana citizens can become well informed in state tax matters. Watch for them on Sundays, Tuesdays and Thursdays in the World and News-Star.

SENATE BANKING COMMITTEE WILL CONTINUE PROBE

Neely Says Morgan Inquiry Has Shaken Faith in Existing Law

WASHINGTON, June 10.—(AP)—With reverberations from its investigation of J. P. Morgan and company still echoing, the senate banking committee today turned to preparation for inquiries into other private bankers, including Kuhn, Loeb and company, and Dillon, Read and company.

While congress sped action on legislative reforms growing out of the inquiry, Senator Neely, Democrat, West Virginia, told the senate that "35 months of tax dodging" by J. P. Morgan had "shaken the faith of millions in the justice of existing law."

The West Virginia senator said the sales of stock to selected Morgan clients was a "brazen attempt to bribe on a nation-wide scale."

The investigating committee met in executive session and decided to let a subcommittee determine whether the Kuhn, Loeb and Dillon, Read inquiries should be pursued at once or deferred until fall.

The subcommittee, which has been nominally in charge of the investigation, will confer with Ferdinand Pecora, committee counsel, and map out its future plans Tuesday.

Pecora has informed the committee he is ready to proceed at once and it will be up to the senators to decide whether they want to stay in Washington for hearings now or let them go over until fall.

In any event, Pecora is ready to keep his staff busy over the summer collecting additional evidence for presentation in the fall on investment trusts and stock market practices, and actions of the Chase National Bank.

As an outgrowth of the Morgan investigation, the banking committee voted not to hind its members to secrecy about transactions in executive session.

At virtually every executive session during the Morgan inquiry, members of the committee protested that "leaks" were disclosing everything it did behind closed doors.

A motion by Senator Glass, Democrat, Virginia, to remove the ban of secrecy was adopted unanimously.

STANLEY SEEKING BANK INFORMATION

District Attorney Asks for Data on Institutions' Condition

NEW ORLEANS, June 10.—(AP)—District Attorney Eugene Stanley today called upon the liquidators of the Canal Bank and Trust company, the Continental Bank and Trust company and the Iberian Bank and Trust company to furnish him with additional information concerning the condition of the banks on and prior to March 1, when they closed under the bank holiday.

The district attorney earlier this week opened an investigation of depositors charges alleging certain New Orleans banks had received deposits when officers knew the institutions were insolvent.

J. S. Brock, state bank commissioner, the liquidators of the three banks, and three assistants in the state banking department were questioned at the inquiry, which was recessed by the district attorney to permit him to make a careful study of records.

Mr. Stanley today specifically requested the liquidators to furnish him with the balances on deposit in the banks as of March 1 of all public funds, and information as to whether any are being considered as "frozen balances" of other depositors.

Trial of John Skiles Won't Be Held Monday

John Skiles, charged with murder in connection with the fatal shooting of Willie Butler, ward mine farmer, who suffered a stroke of paralysis while in the parish jail Friday, was reported Saturday to be getting along as well as could be expected. He did not lose consciousness, but his left side was said to be affected by the paralysis.

After the man had been taken to St. Francis sanitarium for treatment, Dr. C. L. Mengis, parish coroner, furnished the district attorney with a written statement in which he said Skiles would not be able to go to trial Monday on the murder trial, as scheduled. Witnesses in the case were informed it would not be necessary for them to appear.

BATON ROUGE, June 10.—(P)—Mrs. Anne Ector Pleasant, wife of former Governor Ruffin G. Pleasant, today amended and supplemented her suit against Senator Huey P. Spanish Airmen Headed Across Atlantic Ocean

SEVILLE, Spain, June 10.—(P)—Captain Mariano Barberan and Lieutenant Joaquin Collar apparently were well over the Atlantic tonight on their flight from Seville to Cuba.

The Spanish airmen, wearing white overalls and white coats, took off from Tablada airfield early this morning after receiving reports that they would encounter excellent flying weather.

They were escorted to the coast by several airplanes. Tonight no reports had been received from them, but this occasioned no anxiety as their route did not lie over heavily-traveled sea lanes.

BANK OFFICIALS OF 3 COUNTRIES TALK AT LONDON

Plans Go Ahead for Opening of World Economic Conference

LONDON, June 10.—(P)—Negotiations between central bank officials of the United States, Great Britain and France on the stabilization of the dollar, the pound and the franc were under way here tonight as statesmen and financial experts of many nations prepared for the lifting of the curtain Monday on the world economic conference.

It was definitely learned that the three-cornered currency discussions were in progress when Clement Moray, governor of the Bank of France, and Charles Farnier, vice governor, arrived and joined George L. Harrison, governor of the federal reserve bank of New York, and Montagu Norman, governor of the Bank of England, in private talks.

While no official word was forthcoming as to the character of the three party conversations it was understood that means of de facto stabilization were discussed. Such a move would be aimed to prevent wide fluctuations in the currencies of the great powers, an objective which experts regard as essential to the success of the coming international meetings here.

This stabilization presumably would be accomplished by the establishment of a fund to buy and sell currencies of the United States, France and Great Britain.

Meanwhile tonight plans for the opening of the conference went forward in the headquarters offices of all the national groups whose representatives have already arrived at the British capital.

Conservation Commission Is Part Of State's Big Political Machine

Annual Outlay of Department Jumps Over a Million in Six Years

Three important state departments domiciled in the city of New Orleans are not maintained with direct taxes. They are the conservation commission, directed by Robert Maestri; the state banking department, of which J. S. Brock is the head, and the fire marshal's office, conducted by R. J. Gregory. Conservation fees of various kinds, supplemented with appropriations from the conservation tax and federal forestry contributions support the conservation department. The banks, finance companies and building and loan associations contribute the money necessary to maintain the state banking department. The fire marshal's office is supported with the avails of a special levy on insurance companies.

All of these departments are ramified

Asks That 'Qualifications to Be a Senator' Be Investigated

PERJURY IS CHARGED
Committee Counsel Tells of Actions During Inquiry at Orleans

WASHINGTON, June 10.—(P)—Samuel T. Ansell, former counsel for the election of Senator Overton, of Louisiana, today filed a petition with the senate for an investigation of the "behavior" of Senator Huey Long and "his qualifications to be a senator."

Ansell charged that Long, who acted as counsel for Overton in the election probe, attempted to dominate and control the subcommittee making the inquiry last winter by "assertions of senatorial prerogatives, and truculence to the chairman."

He asserted Long "manipulated witnesses, suborned perjury, suppressed the truth and otherwise obstructed the investigation."

Ansell described Long's appearance at the hearing and his speech and manner, saying he "was abusive to the chairman and counsel," and that Long on several occasions "alluded, in excuse for such misconduct," to his immediately previous "indulgences."

"The petitioner," Ansell said, "is advised and believes that his (Long's) assuming to act as counsel for the said Overton was inconsistent with his status and prejudicial to his duty as a senator of the United States."

Ansell asserted also that Long had "packed" the hearing room and surrounded the subcommittee and its aides "with his armed, turbulent and intimidating henchmen."

Long recently attacked Ansell in a state speech and later claimed senatorial immunity when suit was filed by Ansell.

TWO FUGITIVES HELD IN TEXAS

Convicts Who Escaped From Kansas Penitentiary Are Captured

SAN ANGELO, Texas, June 10.—(P)—Billie Woods and Clifford Dopson, who escaped with nine others from the Kansas state prison at Lansing on Memorial day, were arrested at a school house southwest of Junction today.

They were caught by J. A. Tilley and W. E. Kilborn, federal customs officers, who stopped their car and asked to see the bill of sale. Tilley then recognized Woods as one of the group which escaped in a daring break.

The officers searched the car and found three loaded six-shooters and a shotgun. The automobile had been stolen from a man and woman the prisoners kidnapped in Missouri.

Woods, in the convicts' car with the women, obtained a shotgun and fired in an effort to regain possession of the car but failed and the machine was wrecked.

Tilley, who had put Dopson in the officers' car, arrived quickly, however, and again covered the four. All were taken to Junction.

The men said they were en route to Menard, 25 miles north of Junction. "They'll not take me back to Kansas," Woods was quoted as saying.

Solons Think State Institutions Will Operate Full Time

ALEXANDRIA, June 10.—(P)—Rapides parish legislators are confident the state's schools will operate full terms during the coming session.

George W. Lee and W. T. Bradford, of Rapides parish, said here after conferring with Governor O. K. Allen and members of the Louisiana tax reform commission, that the officials informed them necessary funds would be provided for the operation.

They said plans were being made to secure the money by effecting salary reductions in government departments and by consolidating various offices and boards.

The legislators said they were informed the state now has on hand \$230 per educable child, and that there will be available by October 1 \$11.50 per educable, or a total of approximately \$12,000,000.

"Did Governor Allen agree to the matters given out here in the interview with you and Representative Bradford relative to the public schools?" Representative Lee was asked today by a Daily Town Talk representative.

Lee replied: "I saw Governor Allen personally on Wednesday of this week between 3 and 4 p. m. in his office in the state house at Baton Rouge and he said to me, 'I do not intend to call any special session of the legislature, but I assure you that the funds will

RUSSELL ARGUES IN GAS TAX SUIT

Attorney Represents City of Monroe in State Supreme Court

Arguments in a case which will vitally affect all municipalities in Louisiana were made Wednesday before the supreme court at New Orleans, H. H. Russell, Monroe city attorney, stated Saturday. The case was one of those in which the state, through Alice Lee Grosjean, supervisor of public accounts, sued the city of Monroe for non-payment of the state tax on gasoline.

Mr. Russell presented the arguments before the court for the city, and the state was represented by Joe Dawkins of Monroe and Justin C. Dasip of Baton Rouge, attorney for the supervisor of public accounts.

Shortly after the last gasoline levy was imposed the city took the position that it was not liable for payment of tax bought wholesale from another state by the city and shipped into Monroe for use by the city. A carload of gasoline, containing approximately 8,000 gallons, is shipped in about every five weeks and non-payment of the tax would mean a large saving to the city.

A number of suits have been filed by the state against the city, each being based on the non-payment of tax on a certain shipment. The first suit was singled out for a test case and it was this case which was argued Wednesday.

The city's contention is that it is not a corporation in the sense contemplated in the act creating the tax. If the supreme court should uphold this decision it would mean that in the future Monroe, as well as other municipalities, would be relieved of paying the tax, thus giving other cities the advantage of the test made by Monroe.

Murder Is Charged in Sudden Death of Woman

VICKSBURG, Miss., June 10.—(P)—An affidavit charging murder was filed here today against Dominick A. Bove, Jr., local merchant, in connection with the sudden death of his sister-in-law, Miss Billie E. Haring, which police said they were investigating.

Sheriff W. J. Hossley said the affidavit was filed at his request by District Attorney N. Vick Robbins and County Attorney J. J. O'Neill and that Bove was being held in Warren county jail.

Mrs. Bove, sister of Miss Haring, said the affidavit was "the most preposterous charge ever made against any human being."

Miss Haring, who lived with the Boves, died last Wednesday after returning from work at a hospital where she held a clerical position.

BEVERLY HILLS, Cal., June 10.—The Baers are going strong. "Bugs" Baer is the champion humorist, and "Max" the champion boxer, deserves a lot of credit; he has from the start here conducted himself both in and out of the ring in a mighty commendable way, that has brought nothing but credit to his country.

JIMMIE MATTERN IS SEEN PASSING OVER RUKHLOVO

From His Next Landing Point Flier Will Hop Off for America

MOSCOW, June 10.—(P)—When last heard from today Jimmie Mattern, American round-the-world airman, was passing over Rukhlovo in eastern Siberia, about 725 miles short of Khabarovsk, his next landing point.

That was at 9:15 o'clock this morning Moscow time (1:15 a. m., eastern standard time). The chances were that by the time Moscow received news that Mattern had been sighted at Rukhlovo he already was in Khabarovsk, unless he had made an unscheduled stop, as communication with eastern Siberia is very slow.

From Khabarovsk the flier will hop off for the North American continent. There is no expectation here that he will be able to take the round-the-world speed record from Wiley Post and Harold Gatty, the men he started out to beat, but it is assumed that he will go ahead to set a time for a solo flight circling the globe.

Mattern's take off place today was Belye, Siberia, which he left at 1:50 a. m. Moscow time (5:50 p. m., Friday, eastern standard time). Forty minutes later he passed over Irkutsk, about fifty miles to the east.

Reports here indicated that weather conditions were fair all the way from Belye to Khabarovsk. The weather bureau said he might encounter some local rain but otherwise the weather would be favorable.

Morehead's Body Will Arrive in City Today

The body of Andrew Morehead, 24, who committed suicide in his cell in the county jail at Lexington, Miss., Tuesday, where he was held as a suspect in connection with the robbery of a bank at Tehula, Miss., is expected to arrive over a morning train today.

It will be taken to the residence of Morehead's mother, Mrs. Kate Morehead, at 308 Austin avenue, West Monroe.

Plans contemplate the holding of the funeral at the residence at 3 p. m. today with interment in Riverview Burial park, with Rev. Louis Hoffpauir, pastor of the Methodist church in West Monroe, officiating.

Morehead leaves his widow and one small child, in addition to his mother and two sisters and one brother. These are Mrs. W. H. Fleming and Mrs. Fagin Steele, of West Monroe, and George Morehead, living in California.

State Taxation

Much valuable information for all Louisiana taxpayers is contained in the series of articles now being published by the World and News-Star dealing in detail with important state tax matters.

Vets' Compensation Cuts, Industry Bill Virtually Approved

BREAK COMES QUICKLY

Opposition to Reorganization Proposal Develops in Senate

WASHINGTON, June 10.—(P)—Congress edged up almost to the front of adjournment tonight and then found the difficulties could not be surmounted.

Faced by an uprising in the senate against President Roosevelt's reorganization proposal and objections that blocked passage of the appropriations measure carrying funds to start the economic recovery program into full action, senate leaders adjourned that branch over the weekend.

Before the plans for a sine die adjournment were abandoned, however, a long day and night of work had brought virtual agreement on the two major disputes that remained to be settled—the veterans compensation cuts and the industrial recovery bill. The first was being ironed out in conference after an administration compromise had been accepted by the subcommittee. The second lacked only senate acquiescence to a conference agreement.

The break came suddenly and dramatically, during a speech by Senator Long, Democrat, Louisiana.

As a note was passed to him, he said he understood the senate would recess over the weekend.

Robinson arose and replied: "Yes, I am ready to move for a recess until Monday."

The senate had been in continuous session for 13 hours in an effort to clean up the legislative calendar and wind up the session tonight before the beginning of the economic conference in London Monday.

PRESIDENT PLANS BRIEF VACATION

Roosevelt Receives News in Silence of Congress' Action

WASHINGTON, June 10.—(P)—Confidently counting on beginning his vacation from the strenuous presidential grind next Thursday, President Roosevelt received in silence tonight the news that congress had deferred adjournment of the extra session.

It was a quiet night at the White House as the president awaited the action of congressional leaders to wind up the session.

Informed shortly after 11 o'clock of the decision of the senate to recess until Monday, Mr. Roosevelt made no comment.

There was a prospect, however, that on tomorrow he would talk things over with the leaders of Capitol Hill to effect a quick completion of his emergency program.

With the final word from congress, Mr. Roosevelt retired to bed before midnight.

Ferriday Lumber Mill To Resume Operations

WISNER, June 10.—(Special)—According to an announcement by C. G. Kadel, resident manager of Fisher Lumber corporation's sawmills here and at Ferriday, the Ferriday mill will resume full time operation Monday, June 12.

The resumption of full time operation by this mill will give employment to approximately 250 men.

The Wisner mill started up full time Monday, June 5, which afforded employment for about 200 men.

SENATE BANKING COMMITTEE WILL CONTINUE PROBE

Neely Says Morgan Inquiry Has Shaken Faith in Existing Law

WASHINGTON, June 10.—(P)—With reverberations from its investigation of J. P. Morgan and company still echoing, the senate banking committee today turned to preparation for inquiries into other private bankers, including Kuhn, Loeb and company and Dillon, Read and company.

While congress sped action on legislative reforms growing out of the inquiry, Senator Neely, Democrat, West Virginia, told the senate that "36 months of tax dodging" by J. P. Morgan had "shaken the faith of millions in the justice of existing law."

The West Virginia senator said the sales of stock to selected Morgan clients was a "brazen attempt to bribe on a nation-wide scale."

The subcommittee, which has been nominally in charge of the investigation, will confer with Ferdinand Pecora, committee counsel, and map out its future plans Tuesday.

Pecora has informed the committee he is ready to proceed at once and it will be up to the senators to decide whether they want to stay in Washington for hearings now or let them go over until fall.

In any event, Pecora is ready to keep his staff busy over the summer collecting additional evidence for presentation in the fall on investment trusts and stock market practices, and operations of the Chase National bank.

As an outgrowth of the Morgan investigation, the banking committee voted not to bind its members to secrecy about transactions in executive session.

At virtually every executive session during the Morgan inquiry, members of the committee protested that "leaks" were disclosing everything it did behind closed doors.

A motion by Senator Glass, Democrat, Virginia, to remove the ban of secrecy was adopted unanimously.

STANLEY SEEKING BANK INFORMATION

District Attorney Asks for Data on Institutions' Condition

NEW ORLEANS, June 10.—(P)—District Attorney Eugene Stanley today called upon the liquidators of the Canal Bank and Trust company, the Continental Bank and Trust company and the Hibernia Bank and Trust company to furnish him with additional information concerning the condition of the banks on and prior to March 1, when they closed under the bank holiday.

The district attorney earlier this week opened an investigation of depositors charges alleging certain New Orleans banks had received deposits when officers knew the institutions were insolvent.

J. S. Brock, state bank commissioner, the liquidators of the three banks, and three assistants in the state banking department were questioned at the inquiry, which was recessed by the district attorney to permit him to make a careful study of records.

Mr. Stanley today specifically requested the liquidators to furnish him with the balances on deposit in the banks as of March 1 of all public funds, and information as to whether any are being considered as "frozen balances" of other depositors.

After the man had been taken to St. Francis sanitarium for treatment, Dr. C. L. Mengis, parish coroner, furnished the district attorney with a written statement in which he said Skiles would not be able to go to trial Monday on the murder trial, as scheduled. Witnesses in the case were informed it would not be necessary for them to appear.

STRAHAN RETURNS FROM TEXAS TRIP

Quachita Parish Agent Discusses Growing of Tomatoes

On his return here from a trip to Tyler, Tex., E. R. Strahan, agricultural agent, stated that farmers of Smith county were being paid from 2.75 to 3.35 cents a pound for green-wrap tomatoes. Mr. Strahan, 15 other agents and 50 Louisiana farmers went to Tyler for the purpose of studying soil conservation and improvement work by federal and state research workers.

The study of the tomato situation was incidental, Mr. Strahan said, but because of the interest being shown by a few farmers of Quachita parish in growing tomatoes he made a few observations he thinks may be of interest to local farmers.

Commenting upon the situation, Mr. Strahan said:

"For several years the farmers around Tyler have been growing considerable acreages of tomatoes for carload shipments to distant markets. Elbert Gentry, county agent, has given full cooperation in furnishing information for economical production, varieties best suited to the land, fertilizers and cultural methods.

"Over-production, with consequently poorer markets for the last two years, resulted in a 50 per cent reduction in acreage and the shortage of finances for crop production prevented the use of a normal amount of commercial fertilizer. These factors caused a reduction of at least 50 per cent as compared to last year, but let between 300 and 400 cars for shipment this year. At present prices farmers are well pleased and prospects are favorable for satisfactory profits.

"Shipments started a week later than usual this year on account of unfavorable weather conditions, the first being loaded June 7. Shipments started almost the same time in North Louisiana and the quality of the Texas tomatoes was no better than that of those usually grown in Louisiana, and higher yields per acre, with less fertilizer, are usually produced by the few North Louisiana growers.

LOVELY LOUISIANA AMBASSADOR

Lovely ambassador from the Pelican state to the court of the rhododendron king and queen, Miss Ruth Viallon will represent the state of Louisiana at the sixth annual rhododendron festival, to be held in Asheville, N. C., June 14, 15 and 16. Miss Viallon is the daughter of Mr. and Mrs. George L. Viallon of New Orleans. The Louisiana beauty was chosen one of the most beautiful girls attending H. Sophie Newcomb Memorial college of Tulane university at New Orleans this year. She will be officially appointed as state sponsor for Louisiana at the Asheville floral fête by Gov. O. K. Allen of Louisiana. At Asheville she will play a principal role in all of the colorful events of the festival program and at the rhododendron ball June 15 at Colver Park inn, she will be presented to the rhododendron monarchs.

MANY TEACHERS ATTEND SCHOOL

Home Economics Instructors Take Special Work at Louisiana Tech

TECH STATION, La., June 10.—(Special)—Nearly 70 home economics teachers of 25 parishes attended the first instructional school for teachers of home economics held at Louisiana Tech this week. The three-day program, which was a new venture in the field of home economics study, was regarded as being highly successful.

Instruction was in charge of Miss Clyde Mobley, state supervisor of home economics, and Miss Lela Tom-

linson, assistant state supervisor of home economics.

Special problem studies and committee work were interspersed with social recourses of Louisiana Tech home economics graduates attending the conference.

The school of instruction at Tech was the first of a series to be held in Louisiana. Other short courses for home economics teachers, similar to the school held here, are scheduled as follows: Louisiana State Normal college, June 12, 13, 14; Louisiana State university, June 19, 20, 21, and Northwestern Louisiana institute, July 12, 13, 14.

Some of the topics considered in these short courses are child development, home projects, as are related to home making, the teaching and organizing of adult home makers, and the revision of units now in the course of study.

In addition to several Louisiana Tech home economics students, the following women, nearly all of whom are home economics teachers in Louisiana schools, attended the meetings here:

Pauline Alexander, Houston; Mrs. Adeline Allard, Rosepine; Mrs. J. M. Baker, Crowley; Sara Bress, Newville high school, Monroe; Myra Cheate, Kentwood; Anna Mae Cotton, Bayville; Ida Mae Dowling, Jonesboro; Margaret Focht, Morgan City; Julia Fincher, Hico; Nina Gill, Delhi; Leola Greer, Gilbert; Ruth Russell, Olla-Standard; Clarice Harris, Logansport; Pauline Hathaway, Vivian; Bert Hearn, Simsbury; Maurine Hedgpeth, Dubach; Ethel Hogan, Ogden; Irene Monier, Heflin.

JULIUS ASSAILS BROTHER HUEY

Shreveport Lawyer Attacks Senator Huey in Signed Statement

SHREVEPORT, La., June 10.—(Special)—Julius Long, a local attorney and brother of U. S. Senator Huey P. Long, today issued the following signed statement:

"Huey's game is to claim credit for everything done, no matter how little he may have had to do with it, if it will aid him in his unscrupulous effort to secure every possible power and public notoriety. No one on earth can know this better than I do. Yes, I notice he uses the senate floor and the Morgan investigation to belaud Collier's recent article about him. The wonder is that he did not charge that Morgan had written the article and shown it to the president before it was sent to Collier's. Such a charge would give his henchmen all the lead they want for propaganda, and many would accept a question or charge to that effect as proven. Any time Morgan or any other of his kind wants to use Huey all they have to do is pay his price. Collier's heretofore published two articles in Huey's favor. I wonder if he charges Morgan had those written. It is not out of the range of possibility that Huey is acting in the interest of Morgan, at the same time in his own interest, in this attack. The people can hardly imagine just how cunning and unscrupulous Huey is. He knows that when he injects himself that he necessarily dampens the ardor of all self-respecting men who are after Morgan, thus tending to make himself the leader of this movement. He gets to be in what he said about Mayor Walmsley and the New Orleans ring, he will go in with them when he gets his price. I wonder whom he will charge with responsibility for the strong article about him in the July number of the Real America published in Chicago. All the things stated about him in both those articles are substantially true. My family is making every effort to save itself from destruction on account of the immoral and unscrupulous life Huey is leading."

"Here's the condition: Louisiana boiling with rebellion, the air soupy with accusations and vilification. They are ready to do anything they are told, providing Huey tells them. After all, it is up to him to save himself; he is the objective of the attacks, not the Democratic party. The party will survive Huey just as it has survived other leaders and bosses. His captains know that Huey must, too. Therefore, as all the glory, all the authority, all the emoluments of name and fame have been Huey's, so now is all the responsibility.

"He is suffering all the woes of absentee-lordism, the victim of the inaction, the scandal-mongering, the jealousies, the resentments and even the sabotage of his tenantry. He is not afraid of much of the voters as he is of treachery in his own crew. Washington is far from New Orleans and Baton Rouge. Even through Huey's amazing conceit, arrogance and blatant egotism, suspicion of double-crossing, of calculated conceit, deception and infidelity are seeping."

"Mr. Davenport's portrait of Senator Long is as follows: 'To see him for the first time is something of a shock. You would expect a picture of power, the intensity of a zealot, the burning eye of fanaticism, the uncompromising paw of the crushing autocrat, the lean asceticism of a prophet, the austerity of a despot. But nothing like this. He's pudgy. His cheeks are blotched, flabby. His uncertain nose is red, betokening either bad circulation or entirely too much. His face is weak, willful and there is no discipline in it. But his eyes, soft protruding robin's eyes, are nevertheless bright. His and-then eyes that roll upward as he talks.'

"The most serious charges against Huey just now have to do with finances, banking and state debts. As summed up by Mr. Davenport, 'Huey isn't taking convincing steps to refute these accusations which day by day gain more believers. He hasn't sued Edgar Campbell in the courts, and surely no courts could be more friendly to Huey. And the Kingfish isn't taking legal steps against Mr. Wimberly, the young lawyer who is carpeting the country with his Un-American pamphlets. What's the matter with Huey?'

"The gentle John M. Parker, once governor, once candidate for vice president, a man of such integrity and honor that not even his enemies can impute selfish motives to his opposition, is beseeching the United States to expel Long and his colleague, Senator Davenport. The women of the state are demanding that the United States resume its inquiry.

"Mr. Parker's charges are not those of a political aspirant; he seeks nothing but an even break for Louisiana, a complete investigation of conditions in a state that Huey has made his private skating rink. A nasty spot for Huey Long, who is seeking ever these days in spite of his dauntless words. When he backed out of his invitation to General Ansell to sue him for slander, taking advantage of senatorial immunity when the general filed libel proceedings, Huey lost considerable respect at the time, where they still believe his boasts of fearlessness.

"Mr. Parker is well acquainted with Huey, having sued the boss of Louisiana for criminal libel and having won. 'Huey Long,' says Mr. Parker to the United States senate, 'is personally dishonest, corrupt and immoral. He has created and maintained

in Louisiana a system of corruption and debauchery unparalleled in the history of the state, not even excepting the so-called Louisiana lottery. He has operated a system of so-called racketeering. He has made elections a farce. He has gained control of the legislature and no relief can be obtained from that source. He has boasted publicly that he controlled its members like a deck of cards, bought them like loads of potatoes. He escaped trial after impeachment by bribery and other corrupt methods. He has declared openly that he controlled our state courts. Relief from the courts under existing conditions is impossible. The only hope for relief is through the senate of the United States.'

"The latest attack on the Kingfish was published this week by Collier's as the result of an investigation made in Louisiana by its associate editor, Walter Davenport. 'Huey Long is not loved in Louisiana,' says Mr. Davenport, 'even by those subordinates who have followed him to personal fortune. At this moment, hundreds of his vassals are poised to leap the most. They are convinced that he is founding Huey's grin at his daring, his boldness, his contempt for precedent, convention and opposition; but they have profited by his own lessons in selfishness, his disregard for others and his blinding egotism. Where not long ago he was hailed as the Kingfish, he is referred to today—even within his own cabinet—as the Crawfish, the Tin Can Napoleon, the Catfish Caesar, the Mud Pie Mussolini.'

"Here's the condition: Louisiana boiling with rebellion, the air soupy with accusations and vilification. They are ready to do anything they are told, providing Huey tells them. After all, it is up to him to save himself; he is the objective of the attacks, not the Democratic party. The party will survive Huey just as it has survived other leaders and bosses. His captains know that Huey must, too. Therefore, as all the glory, all the authority, all the emoluments of name and fame have been Huey's, so now is all the responsibility.

"Mr. Parker is well acquainted with Huey, having sued the boss of Louisiana for criminal libel and having won. 'Huey Long,' says Mr. Parker to the United States senate, 'is personally dishonest, corrupt and immoral. He has created and maintained

in Louisiana a system of corruption and debauchery unparalleled in the history of the state, not even excepting the so-called Louisiana lottery. He has operated a system of so-called racketeering. He has made elections a farce. He has gained control of the legislature and no relief can be obtained from that source. He has boasted publicly that he controlled its members like a deck of cards, bought them like loads of potatoes. He escaped trial after impeachment by bribery and other corrupt methods. He has declared openly that he controlled our state courts. Relief from the courts under existing conditions is impossible. The only hope for relief is through the senate of the United States.'

"The latest attack on the Kingfish was published this week by Collier's as the result of an investigation made in Louisiana by its associate editor, Walter Davenport. 'Huey Long is not loved in Louisiana,' says Mr. Davenport, 'even by those subordinates who have followed him to personal fortune. At this moment, hundreds of his vassals are poised to leap the most. They are convinced that he is founding Huey's grin at his daring, his boldness, his contempt for precedent, convention and opposition; but they have profited by his own lessons in selfishness, his disregard for others and his blinding egotism. Where not long ago he was hailed as the Kingfish, he is referred to today—even within his own cabinet—as the Crawfish, the Tin Can Napoleon, the Catfish Caesar, the Mud Pie Mussolini.'

"Here's the condition: Louisiana boiling with rebellion, the air soupy with accusations and vilification. They are ready to do anything they are told, providing Huey tells them. After all, it is up to him to save himself; he is the objective of the attacks, not the Democratic party. The party will survive Huey just as it has survived other leaders and bosses. His captains know that Huey must, too. Therefore, as all the glory, all the authority, all the emoluments of name and fame have been Huey's, so now is all the responsibility.

"He is suffering all the woes of absentee-lordism, the victim of the inaction, the scandal-mongering, the jealousies, the resentments and even the sabotage of his tenantry. He is not afraid of much of the voters as he is of treachery in his own crew. Washington is far from New Orleans and Baton Rouge. Even through Huey's amazing conceit, arrogance and blatant egotism, suspicion of double-crossing, of calculated conceit, deception and infidelity are seeping."

"Mr. Davenport's portrait of Senator Long is as follows: 'To see him for the first time is something of a shock. You would expect a picture of power, the intensity of a zealot, the burning eye of fanaticism, the uncompromising paw of the crushing autocrat, the lean asceticism of a prophet, the austerity of a despot. But nothing like this. He's pudgy. His cheeks are blotched, flabby. His uncertain nose is red, betokening either bad circulation or entirely too much. His face is weak, willful and there is no discipline in it. But his eyes, soft protruding robin's eyes, are nevertheless bright. His and-then eyes that roll upward as he talks.'

"The most serious charges against Huey just now have to do with finances, banking and state debts. As summed up by Mr. Davenport, 'Huey isn't taking convincing steps to refute these accusations which day by day gain more believers. He hasn't sued Edgar Campbell in the courts, and surely no courts could be more friendly to Huey. And the Kingfish isn't taking legal steps against Mr. Wimberly, the young lawyer who is carpeting the country with his Un-American pamphlets. What's the matter with Huey?'

"The gentle John M. Parker, once governor, once candidate for vice president, a man of such integrity and honor that not even his enemies can impute selfish motives to his opposition, is beseeching the United States to expel Long and his colleague, Senator Davenport. The women of the state are demanding that the United States resume its inquiry.

"Mr. Parker's charges are not those of a political aspirant; he seeks nothing but an even break for Louisiana, a complete investigation of conditions in a state that Huey has made his private skating rink. A nasty spot for Huey Long, who is seeking ever these days in spite of his dauntless words. When he backed out of his invitation to General Ansell to sue him for slander, taking advantage of senatorial immunity when the general filed libel proceedings, Huey lost considerable respect at the time, where they still believe his boasts of fearlessness.

STRAHAN RETURNS FROM TEXAS TRIP

Quachita Parish Agent Discusses Growing of Tomatoes

On his return here from a trip to Tyler, Tex., E. R. Strahan, agricultural agent, stated that farmers of Smith county were being paid from 2.75 to 3.35 cents a pound for green-wrap tomatoes. Mr. Strahan, 15 other agents and 50 Louisiana farmers went to Tyler for the purpose of studying soil conservation and improvement work by federal and state research workers.

The study of the tomato situation was incidental, Mr. Strahan said, but because of the interest being shown by a few farmers of Quachita parish in growing tomatoes he made a few observations he thinks may be of interest to local farmers.

Commenting upon the situation, Mr. Strahan said: "For several years the farmers around Tyler have been growing considerable acreages of tomatoes for carload shipments to distant markets. Elbert Gentry, county agent, has given full cooperation in furnishing information for economical production, varieties best suited to the land, fertilizers and cultural methods.

"Over-production, with consequently poorer markets for the last two years, resulted in a 50 per cent reduction in acreage and the shortage of finances for crop production prevented the use of a normal amount of commercial fertilizer. These factors caused a reduction of at least 50 per cent as compared to last year, but left between 300 and 400 cars for shipment this year. At present prices farmers are well pleased and prospects are favorable for satisfactory profits.

"Shipments started a week later than usual this year on account of unfavorable weather conditions, the first being loaded June 7. Shipments started almost the same time in North Louisiana and the quality of the Texas tomatoes was no better than that of those usually grown in Louisiana, and higher yields per acre, with less fertilizer, are usually produced by the few North Louisiana growers.

LOVELY LOUISIANA AMBASSADOR

Lovely ambassador from the Pelican state to the court of the rhododendron king and queen, Miss Ruth Viallon will represent the state of Louisiana at the sixth annual rhododendron festival, to be held in Asheville, N. C., June 14, 15 and 16. Miss Viallon is the daughter of Mr. and Mrs. George L. Viallon of New Orleans. The Louisiana beauty was chosen as one of the most beautiful girls attending H. Sophie Newcomb Memorial college of Tulane university at New Orleans this year. She will be officially appointed as state sponsor for Louisiana at the Asheville floral festival by Gov. O. K. Allen of Louisiana. At Asheville she will play a principal role in all of the colorful events of the festival program and at the rhododendron ball June 15 at Grove Park inn, she will be presented to the rhododendron monarchs.

MANY TEACHERS ATTEND SCHOOL

Home Economics Instructors Take Special Work at Louisiana Tech

TECH STATION, La., June 10.—(Special)—Nearly 70 home economics teachers of 25 parishes attended the first instructional school for teachers of home economics held at Louisiana Tech this week. The three-day program, which was a new venture in the field of home economics study, was regarded as being highly successful.

Instruction was in charge of Miss Clyde Mobley, state supervisor of home economics, and Miss Lela Tom-

linson, assistant state supervisor of home economics. Special problem studies and committee work were interspersed with social reunions of Louisiana Tech home economics graduates attending the conference.

The school of instruction at Tech was the first of a series to be held in Louisiana. Other short courses for home economics teachers, similar to the school held here, are scheduled as follows: Louisiana State Normal college, June 12, 13, 14; Louisiana State university, June 19, 20, 21, and Southwestern Louisiana institute, July 12, 13, 14.

Some of the topics considered in these short courses are child development, home projects, are as related to home making, the teaching and organizing of adult home makers, and the revision of units now in the course of study.

In addition to several Louisiana Tech home economics students, the following women, nearly all of whom are home economics teachers in Louisiana schools, attended the meetings here:

Pauline Alexander, Houston; Mrs. Adeline Allard, Rosepine; Mrs. J. M. Baker, Crowley; Sara Bress, Neville high school, Monroe; Myra Chestwood, Kentwood; Anna Mae Cotton, Rayville; Iva Mae Dowling, Jonesboro; Margaret Fenet, Morgan City; Julia Fincher, Hico; Nina Gill, Delhi; Leola Greer, Gilbert; Ruth Harrell, Olla-Standard; Clarice Harris, Logansport; Pauline Hathaway, Vivian; Bert Hearn, Simsboro; Maurine Hedghepp, Dubach; Alline Hogan, Ogden; Irene Moncrief, Heflin.

JULIUS ASSAILS BROTHER HUEY

Shreveport Lawyer Attacks Senator Long in Signed Statement

SHREVEPORT, La., June 10.—(Special)—Julius Long, a local attorney and brother of U. S. Senator Huey P. Long, today issued the following signed statement:

"Huey's game is to claim credit for everything done, no matter how little he may have had to do with it, if it will aid him in his unscrupulous effort to secure every possible power and public notoriety. No one on earth can know this better than I do. Yes, I notice he uses the senate floor and the Morgan investigation to belaud Collier's recent article about him. The wonder is that he did not charge that Morgan had written the article and shown it to Collier's. Such a charge would give his henchmen all the lead they want for propaganda, and many would accept a question or charge to that effect as proven. Any time Morgan or any other of his kind wants to use Huey all they have to do is pay his price. Collier's heretofore published two articles in Huey's favor. I wonder if he charges Morgan had those written. It is not out of the range of possibility that Huey is acting in the interest of Morgan, at the same time in his own interest, in this attack. The people can hardly imagine just how cunning and unscrupulous Huey is. He knows that when he injects himself that he necessarily dampens the ardor of all self-respecting men who are after Morgan, thus tending to make himself the leader of this movement he had nothing to do in starting. If he gets to be leader he will do just as he did in what he said about Mayor Walmsley and the New Orleans ring, he will go in with them when he gets his price. I wonder whom he will charge with responsibility for the strong article about him in the July number of the Real America published in Chicago. All the things stated about him in both those articles are substantially true. My family is making every effort to can save itself from destruction on account of the immoral and unscrupulous life Huey is leading."

This house also is handling pianos and other lines of Philip Werlein, Ltd., in an effort to close up the business of this firm in this city.

CULP'S HANDLES VICTOR OUTFITS

Culp's Music House, 124 South Grand street, is carrying a complete line of R. C. A. Victor radio outfits and supplies, Conn and Buescher band instruments, and, as the latest addition, Grunow refrigerators. This house also is handling pianos and other lines of Philip Werlein, Ltd., in an effort to close up the business of this firm in this city.

Culp's Music House is specially pleased with the securing of the franchise in Monroe for the Grunow refrigerator. This is said to be the only household refrigerator in the world that operates on an exclusive vacuum principle that does away with dangerous, explosive pressures. Car-nore, used in the Grunow vacuum, no-pressure system is not new. For years it has been used in large commercial installations such as the Chicago stadium, capitol in Washington, and in fine passenger ships where efficiency of operation with safety to human lives, are prime requisites.

W. M. Culp, head of the local firm, expects to do an extensive business in the sale of this unusually high grade refrigerator, which he states is making a sensation wherever sold.

Claiborne Farmers Make Money on Tomato Crop

HOMER, June 10.—(Special)—With the tomato season just started, the farmers of Claiborne parish have already realized \$4,400 from their crop, which is a new shipping project for this parish. This included 11 cars with 20,000 pounds to the car, which totaled 220,000 pounds and which sold at a minimum of two cents per pound.

Farmers are harvesting their tomato crop rapidly for fear of a decline in prices. The crop has been purchased by Newton Wallace, of Jacksonville, Fla.

New Attacks on Huey Long Shake Throne in Louisiana

Newspaper and magazines throughout the country are directing fresh attacks on Senator Huey Long, aimed primarily at a resumption of the United States senate inquiry, and alleging among other things (in the words of the petition to the senate) that Huey is "the greatest menace to American decency and civilization, that he knows neither truth, honesty nor decency."

The latest attack on the Kingfish was published this week by Collier's for Louisiana by its associate editor, Walter Davenport. "Huey Long is not a politician," says Mr. Davenport, "even by those standards who have followed him to personal fortune. At this moment, hundreds of his vassals are poised to leap the moment they are convinced that he is fondering. They grin at his daring, his boldness, his contempt for precedent, convention and opposition; but they have profited by his own lessons in selfishness, his disregard for others and his blinding egotism. Where not long ago he was hailed as the Kingfish, he is referred to today—even within his own organization—as the Crawfish, the Tin Can Napoleon, the Catfish Caesar, the Mud Pie Mus-solini."

"Here's the condition: Louisiana boiling with rebellion, the air soupy with accusations and vilification. They are ready to do anything they are told, providing Huey tells them. After all, it is up to him to save himself; he is the objective of the attacks, not the Democratic party. The party will survive Huey just as it has survived other leaders and bosses. His captains know that. Huey must, too. Therefore, as all the glory, all the authority, all the emoluments of name and fame have been Huey's, so now is all the responsibility."

"He is suffering all the woes of absentee-landlordism, the victim of the inaction, the scandal-mongering, the jealousies, the resentments and even the sabotage of his tenantry. He is not afraid so much of the voters as he is of treachery in his own crew. Washington is far from New Orleans and Baton Rouge. Even through Huey's amazing conceit, arrogance and blatant egotism, suspicion of double-crossing, of calculated conceit, deception and infidelity are seeping."

Mr. Davenport's portrait of Senator Long is as follows: "To see him for the first time is something of a shock. You would expect a picture of power, the intensity of a zealot, the burning eye of fanaticism, the uncompromising paw of the crushing autocrat, the lean asceticism of a prophet, the austerity of a despot. But nothing like this. He's pudgy. His cheeks are blotched, frosky. His uncertain nose is red, betokening either bad circulation or entirely too much. His face is weak, willful and there is no discipline in it. But his eyes, soft, probing, roving, are nevertheless bold. Hit-and-run eyes that roll upward as he talks."

The most serious charges against Huey just now have to do with finances, banking and state debts. As summed up by Mr. Davenport, "Huey isn't taking convincing steps to refute these accusations which day by day gain more believers. He hasn't sued Editor Campbell in the courts, and surely no courts could be more friendly to Huey and the Kingfish isn't taking legal steps against Mr. Wimberly, the young lawyer who is carpeting the country with his Un-masking pamphlets. What's the matter? Has Huey something to hide?"

"The gentle John M. Parker, once governor, once candidate for vice president, a man of such integrity and honor that not even his enemies can impute selfish motives to his opposition, is beseeching the United States to expel Long and his colleague, Senator Overton. The women of the state are demanding that the United States resume its inquiry."

"Mr. Parker's charges are not those of a political aspirant; he seeks nothing but an even break for Louisiana, a complete investigation of conditions in a state that Huey has made his private skating rink. A nasty spot for Huey Long, who is seeking cover these days in spite of his doughty words. When he backed out of his invitation to General Ansell to sue him for slander, taking advantage of senatorial immunity when the general filed libel proceedings, Huey lost considerable respect at home, where they still believe his boasts of fearlessness."

"Mr. Parker is well acquainted with Huey, having sued the boss of Louisiana for criminal libel and having won. 'Huey Long,' says Mr. Parker to the United States senate, 'is personally dishonest, corrupt and immoral. He has created and maintained

CHURCH FINISHES PLANS FOR MEET

West Monroe Baptists to Hear Dr. Dodd During Revival

The First Baptist church in West Monroe is completing plans for the holding of a revival which is to be initiated on Sunday, June 18, and the pastor, Rev. E. E. Huntsberry, stated Saturday that every department is responding well to the plans of organization. One of the features is a religious census that has been completed and results have been tabulated.

L. M. Lee has been named chairman of the personal workers' group and five teams have been named. Team No. 1, comprising adult men, is to be led by W. A. Burt; team No. 2, adult women, is to be in charge of Mrs. J. F. Jones; team No. 3, composed of young men and women, is to be in charge of John S. Ramond; team No. 4, of intermediate age, is to be in charge of Mrs. J. R. Crye; team No. 5, which is to consist of those

of junior age, is to be headed by Mrs. W. S. Heard. On one night, Dr. M. E. Dodd, noted pastor of the First Baptist church of Shreveport, is to be present and will conduct the service. He is an orator of unusual ability and his presence will, it is believed, be sufficient to assure a record sized assemblage. He is also president of the Southern Baptist convention.

ATHLETE'S FOOT HEALED IN WEEK

"For sometime, ever since I played football, I have been troubled with 'athlete's foot' and have tried many of the popular remedies, also two special prescriptions without success. At my mother's suggestion I finally used Resinol Ointment and it healed the trouble in about a week. Now I use Resinol about once a month and have never had a trace of 'athlete's foot' since I began this treatment." (Signed)—John Ross, 811-3rd Ave., N. St. Petersburg, Florida. FARM BILL DATA MAY BE OBTAINED

Information on Measure May Be Had at Strahan's Office

Farmers of Ouachita parish who are interested in obtaining a detailed copy of the recently enacted emergency farm measure will be able to obtain booklets explaining the act by calling at the office of E. R. Strahan, agricultural agent. Mr. Strahan has received a number of the booklets from Riley J. Wilson, congressman from this district, for distribution among farmers.

A brief summary of the act is given as follows: "The interest rate on mortgages held by federal land banks, made through national farm loan associations, is reduced to a maximum of 1-2 per cent for five years and provision is made for postponing payments on the principal for that time."

by others than land banks may obtain relief through obtaining new loans from the land banks to pay off existing mortgages or, where the holders of these mortgages consent, they may be traded to the land banks for bonds on which the interest is guaranteed by the United States. Borrowers then obtain the benefit of a lower interest rate and any reduction in principal accomplished in the exchange.

"Relief for those facing loss of their farms through debt and those who have lost them through foreclosures since July 1, 1931, is afforded in a new class of loans to be made by the farm loan commissioner. These are to be in amounts up to \$5,000, with interest at five per cent and repayment in 13 years, with no payment on the principal for years. First and second mortgages on farms and farm property may be given as security and the loan, plus any prior lien, may be made up to 75 per cent of all property pledged.

"Applicants for these loans should write to the agent of the farm loan commissioner in care of the federal land bank in the district in which the property is situated. Applications for first-mortgage loans should be made to the federal land bank in the district."

Travelers Association Elects Its Officers

LAKE CHARLES, La., June 10.—(P)—The Louisiana Travelers association at the closing session of its annual meeting today elected Marcy Labryd, of New Orleans, president, and selected Baton Rouge as the 1934 convention city.

Frank R. Burton, Jr., of Alexandria, was reelected first vice-president; Meyer Baginsky, of New Orleans, was chosen second vice-president, and L. H. Deever, of New Orleans, was reelected third vice-president, while George Novich, of Lake Charles, was named fourth vice-president, and Gabe Levy, of Baton Rouge, fifth vice-president.

Walter Arroyo, of New Orleans, was reelected secretary and treasurer. Stanley Reid, of Monroe, retiring president, became chairman of the executive board.

Alexandria was unsuccessful in its bid for the next convention, while Lafayette withdrew as a contestant.

GROTTO MEMBERS ATTEND MEETING

Local Delegation Is Present at Elaborate Ceremony in Caddo

A good sized delegation of members of the Tefis Grotto of Monroe left early Saturday morning for Shreveport, where they participated in an elaborate ceremonial. Grotto members from three states were participants in the various events, which will continue through today. They were those from Fort Smith and Little Rock, Ark., from Paris and Beaumont, Tex., and from other cities and towns of Louisiana, besides Shreveport and Monroe.

Upon arrival, the grotto members were met and conducted from the Shreveport city limits to the River-side tourist camp where at noon a basket lunch was served.

Registration was at the Washington-Yeouree hotel at 1 p. m. Saturday, and entertainment was provided for visiting women.

At 3:30 p. m. Saturday, a long parade was formed in front of the municipal auditorium and marched to the Scottish Rite cathedral where the first part of the ceremonial was conducted at 5 p. m. The second part of the ceremonial was held at 6:30 p. m. in the city hall auditorium where the "working crews" got busy. A big ball was held last night, and today is to be devoted to sightseeing.

NEW REFRIGERATING SYSTEM FOR PALACE

The Palace store has just installed, at a considerable expense, a cooling system for the seven fitting rooms where women customers can try on garments with the least possible discomfort even on the hottest of days. It has been installed by the York Ice Machine corporation, the world's largest manufacturers of commercial refrigeration. By its use, rooms on the second floor will be maintained at a temperature fully 20 degrees cooler than the outside temperature.

The equipment consists of one automatic refrigeration machine of approximately two tons capacity, one refrigerated air circulation unit, piped in insulated air ducts to each of the seven fitting rooms.

The refrigerant is commonly known as "Freon F-12 gas," and was developed by chemists in Germany. It is non-explosive, odorless and completely harmless, and is the most expensive mechanical refrigerant in use.

In commenting on this new system, Sig Masur, president of The Palace, stated: "We have always maintained as our motto, style, quality and value. Now we are adding the word 'comfort' to the list."

Second Lieut. John L. Schneider of the Louisiana State university R. O. T. C. and life guard at the Monroe municipal natatorium will leave this morning for Camp Beauregard at Alexandria. Schneider, who resides at 401 K street, was notified from headquarters of the 87th division at New Orleans to appear at camp for two weeks' instruction.

Schneider expects to resume his duties at the natatorium by June 24.

Dr. James Q. Graves left Saturday night over the Missouri Pacific for Milwaukee, Wis. to attend the meeting of the American Medical association. He and Dr. Wm. H. Seeman of New Orleans are members of the house of delegates to the American Medical association from Louisiana. Dr. Graves will visit Mayo clinic before returning to Monroe.

A German-style smoker is to be conducted after the review of the local Maccabee tent No. 54 on Monday night, it is announced by M. J. Bulger, state manager, of New Orleans. The chairman of the smoker is to be Henry Kinneman, Sr., and all "sir knights" who attend are promised a surprise.

At the meeting, Hugh Bracey will make a complete report of the recent state convention held in Houma.

The first cotton bloom thus far reported in Ouachita parish this season, was produced on McGuire ranch No. 2, in ward 3. Tom Bamberg is the tenant farmer on the place. It was taken to the Ouachita National bank, where it was placed on display.

The Vacation Bible school at the First Presbyterian church, which has completed a week's work, will continue through the present week, it was announced Saturday. The school will be brought to a conclusion with a program at 9 o'clock Friday morning, followed by a picnic at Bernstein park.

The school, conducted by 12 teachers, has had an average attendance of 53 students during the past week, it was said. Among the topics taught were Bible stories, memory passages, missionary heroes, and handicraft projects.

The June meeting of the Ouachita Parish Tuberculosis and Public Health association will be held in the rooms of the organization in the old Central Savings Bank building at 10 a. m. Tuesday.

Dr. P. M. Gayle is spending the week-end in New Orleans, where he went on a business trip.

A. B. Clarkson, of the Louisiana Power and Light company's staff, sustained an infection to the foot and has been compelled to use a cane and crutch for the past several days.

Early Saturday night closing went into effect last night with the approval of the public generally. Stores in downtown Monroe, with few exceptions, closed an hour earlier than is usual on Saturday nights. This plan is to be followed through Labor day.

Both the senior and junior boards of the Chamber of Commerce are to meet this week for their monthly sessions. The senior board is to meet Wednesday at 4 p. m., and the junior board on Thursday at the same hour.

Community night was observed Friday at the Barkdull Faulk school where a diversified program for young and old was given in charge of the municipal recreation department. Community singing and square dances were included in the night's program.

COTTON FINISHES TEN POINTS DOWN

Weakness Abroad and Demand Cause Staple to Drop at Orleans

WASHINGTON, June 10.—(P)—Weakness abroad and failure of domestic markets to reflect a more general or aggressive demand on the strength of federal plans for acreage reduction caused cotton to finish 10 to 13 points down from the early highs at New Orleans.

Opening sessions had carried the July contract to 9.27 cents a pound against a prospective average price of 9.13 for the week but the close slid off to 9.17. The average price of middling 7-8 inch for the week was 9.06 cents compared with 9.09 a week ago and 4.86 last year.

Liverpool reported demand for actual cotton very dull with the market influenced by continuous continental liquidation, the uncertainty of financial developments and better weather reports for the American crop.

The trade seemed to be at a loss to explain the apathy toward plans Washington is reported to have for cotton. One prominent operator said such information on the tickers would have brought in a big flurry of buying two weeks. Another predicted that unless material acreage was taken out of production and the dollar, closely "managed" nothing could stop lower prices for cotton except extremely unfavorable weather or complete success of the world economic and monetary conference.

Meantime, numerous firms were advising that profits be taken on all strong spots and that futures be sold as hedges against actual cotton at present prices.

Some were of the opinion that the whole cotton situation hinges on what is to be done about acreage and suggested that current confusion of reports may have been responsible in large part for inactivity at the week-end.

It appears to be the consensus of opinion the cotton acreage conference that the government will:

1. Use at least one-half of the \$100,000,000 appropriated in the industrial recovery act for retiring the surplus of basic crops in leasing cotton acreage.

2. Attempt to retire at least 10,000,000 acres of cotton by various plans.

3. Pay an average of probably \$5 an acre rental on cotton lands.

4. Offer farmers 2,500,000 bales of government-controlled cotton at six cents a pound. It would be shared among those who reduced their acreage 30 per cent. The options to net holders any profits accruing from price advances. Losses would be absorbed by the government and made up later from a processors' tax in event prices sank below six cents.

Classified Sale to Be Held by Furniture Firm

A "Classified Clearance Sale" is the name of a novel sales plan used by Monroe Furniture company in promoting a sale of floor-sample and one-only suites and odd pieces of furniture this week at that store.

The plan of the event is to classify the various kinds of furniture, listing each kind under a numbered heading in the manner of classified advertising.

The classified idea has been carried out in the store arrangement also, with the first floor being arranged in departments.

A page of "classified advertisements" appears elsewhere in this paper.

HAMMER ATTACK IS BEING PROBED

Young Bride of Two Weeks Is Beaten While Sick at Home

LAUREL, Miss., June 10.—(P)—Sheriff's officers today were investigating a hammer attack yesterday on Mrs. Clifton Garner, young bride of two weeks, who was beaten about the head while in bed sick at her home in the Tucker's Crossing community of Jones county.

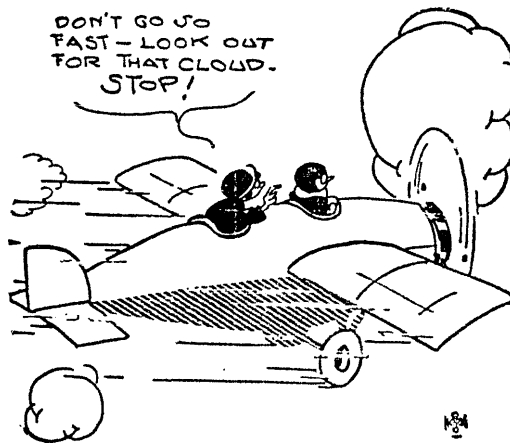

The officers, centering their attention on alleged threats made against

the woman's life, went to Bay Springs, in Jasper county, in the investigation.

Mrs. Garner was alone in the home of her husband's parents, Mr. and Mrs. A. M. Garner, with whom the couple resided, when she was attacked. Other members of the family were outside the house, officers were told, and when they returned found her sitting on the side of the bed, with a deep gash in her right temple.

She was brought to the state hospital here, where her condition was reported as critical. Physicians said her skull was fractured.

Some were of the opinion that the whole cotton situation hinges on what is to be done about acreage and suggested that current confusion of reports may have been responsible in large part for inactivity at the week-end.

It appears to be the consensus of opinion the cotton acreage conference that the government will:

1. Use at least one-half of the \$100,000,000 appropriated in the industrial recovery act for retiring the surplus of basic crops in leasing cotton acreage.
2. Attempt to retire at least 10,000,000 acres of cotton by various plans.
3. Pay an average of probably \$8 an acre rental on cotton lands.
4. Offer farmers 2,500,000 bales of government-controlled cotton at six cents a pound. It would be shared among those who reduced their acreage 30 per cent. The options to net holders any profits accruing from price advances. Losses would be absorbed by the government and made up later from a processors' tax in event prices sank below six cents.

Classified Sale to Be Held by Furniture Firm

A "Classified Clearance Sale" is the name of a novel sales plan used by Monroe Furniture company in promoting a sale of floor-sample and one-only suites and odd pieces of furniture this week at that store.

The plan of the event is to classify the various kinds of furniture, listing each kind under a numbered heading in the manner of classified advertising.

The classified idea has been carried out in the store arrangement also, with the first floor being arranged in departments.

A page of "classified advertisements" appears elsewhere in this paper.

HAMMER ATTACK IS BEING PROBED

Young Bride of Two Weeks Is Beaten While Sick at Home

LAUREL, Miss., June 10.—(AP)—Sheriff's officers today were investigating a hammer attack yesterday on Mrs. Clifton Garner, young bride of two weeks, who was beaten about the head while in bed sick at her home in the Tucker's Crossing community of Jones county.

The officers, centering their attention on alleged threats made against

the woman's life, went to Bay Springs, in Jasper county, in the investigation.

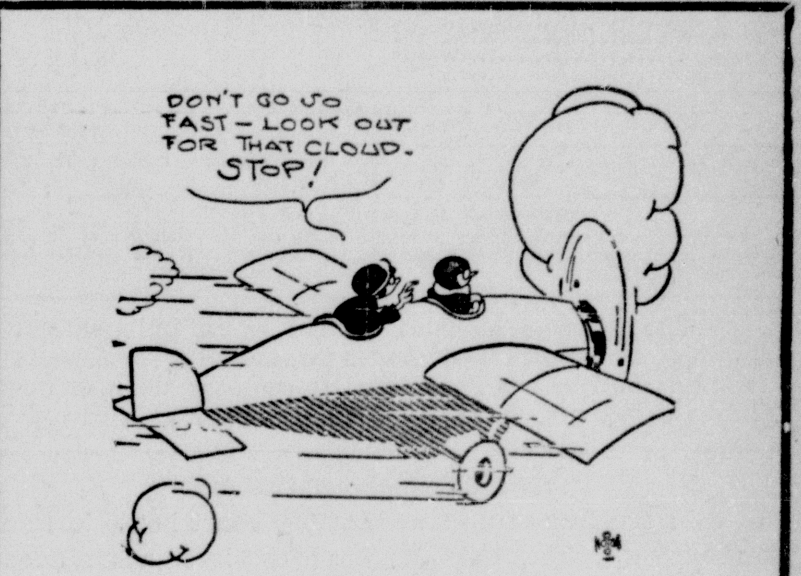

Mrs. Garner was alone in the home of her husband's parents, Mr. and Mrs. A. M. Garner, with whom the couple resided, when she was attacked. Other members of the family were outside the house, officers were told, and when they returned found her sitting on the side of the bed, with a deep gash in her right temple.

She was brought to the state hospital here, where her condition was reported as critical. Physicians said her skull was fractured.

Men and Mountains

Over the door of a new \$3,000,000 court house in Buncombe county, North Carolina, has been placed a significant inscription: "Men to match our mountains." Of course a legend like that on a Louisiana public building would be a misnomer. The only parallel to such an inscription would have to be a different figure. Perhaps some day some one will conceive a structure which will bear the appeal: "Men to match the great heroes of the past who have made Louisiana great."

The trouble with inscriptions and with sayings and of admonitions of elevating character, is that most persons pay little or no attention to them; they regard them not at all, or indifferently, and say, "Uh, huh!" and go on about the business of doing the necessary routine of life.

"Men to match our mountains" inscribed over the door of a public building situated among lofty natural eminences should be an inspiration to everyone who reads it or hears about it. The very nature of the statement is such that every person who approaches that doorway should lift his eyes to that motto and breathe a little prayer that he may be one of the "men to match the mountains." Wouldn't it be a great thing if the men of Louisiana were impelled by precept and admonition to emulate the heroes who have in the past done valiant service for this state? Wouldn't it be great if we had today some of those men to be leaders—men like them?

There is something exalting and stimulating about the figure of a mountain as suggesting sturdiness, integrity, loftiness of purpose and high ideals.

"Shucks!" ejaculates a peddler of parched peanuts. "How could I ever be a man to match a mountain?"

"Easy enough," we might reply but that would not be true. It is not easy for anybody to be big enough in soul and character to match the grandeur of a mountain. But, easy or hard, it can be done just as well by a peddler as by a president of a bank, by a head of a great industrial establishment as by a president of the United States.

The person is grand—as grand as a mountain—who fills his life honorably, conscientiously, industriously, and to the best of his ability, whether that person is a scrub woman or a statesman with world-wide influence. It isn't the job that counts; it's the way you fill your job. It isn't the place you occupy in life that matters; it's the way you occupy the place.

There are cooks who have earned—and without doubt obtained—their crowns of life; and the same with some nurse girls, hucksters and lawn cutters—along with the world's most noted personages. Do your full duty wherever you are and you are great. Play the part assigned you, whatever it is, with all your heart, with all your might. Put the best you have in you into it and you are magnificent.

And there is one thing about being great, even in such small things as peeling potatoes and running errands: Greatness begets greatness. Each little step in greatness leads automatically to another step. Nevertheless, there is one thing about those steps that is likely to be overlooked. They are slippery. A person may climb laboriously step by step. Up he goes, a little at a time. Then he becomes careless about what he does. His foot slips. In an instant he is at the bottom. There he must remain, or begin all over again the long tedious climb.

A farmer who is above slipping an ancient egg into the dozen of "strictly fresh" eggs, is great in that particular. Most persons sigh to be great; yet every day they have the opportunity—and one great deed leads to another and a greater.

"Men to match our mountains" is a motto that every person in the United States could well adopt as his own, apply to himself, and strive daily to attain—no matter what his station in life.

GUARANTEED BANK DEPOSITS

News that congress is acting to guarantee bank deposits of moderate size is pretty certain to be received with rejoicing.

With such a provision written into law, the return of confidence to the ordinary man should be greatly accelerated. He would know that his bank account was safe. Knowing that, he would not be assailed by the impulse to board cash in his own home or in a safety deposit box; furthermore, he would be much more willing to spend his money in a normal manner, assured that the bottom was not going to drop out from under him without notice.

That such a law would represent an abrupt departure from traditional banking practices goes without saying. But one who surveys the banks' record during the last few years is likely to conclude that the more sharply some of those traditional practices can be modified the better off we shall

More Truth Than Poetry

By JAMES A. MONTAGUE

WARNING

When your job makes you nervous and fretful,
And your most needful duties you shirk,
When you're peevish and cross and forgetful
Of the fact that you must live by work,
When you think of the wind in the willows
Always humming a low wistful tune,
Or the sea with its lace-laden billows,
The trouble's not you, it is June.

Your mind's on a journey out yonder
Where the pines stand alight in the sun,
And you think of swell places to wander
With a dog, and of course, with a gun.
You look at the grime of the city
And you simply will not be resigned,
For you're full to the brim with self-pity
While you stick at the old daily grind.

But yet, if your freedom were granted,
And you wandered the open at last,
It never would be as enchanted
As it was in the days of the past.
And even the while you were packing
The thrill would not quite be the same;
You'd discover that something was lacking
Though you never could call it by name.

The cataracts still would be falling
And mantling the borders with spray,
The orioles still would be calling
Defiance to hawk and to jay,
But once there was something within you
Which Nature can never restore;
You still may have courage and sinew,
But you are not a boy any more.

Absurdities of Our Problems

By BRUCE CATTON

One of the most encouraging things about the world's present difficulty is the fact that all of its major problems are in the highest degree irrational. They need only to be stated to have their inherent absurdity made obvious; and the more they are stated and examined, the more likely it becomes that mankind will recognize their absurdity and do away with them.

There never was a time when natural forces operated to make nations neighborly as strongly as they do now. World-wide communication is an accomplished fact. Distances have shrunk to mere fractions of their old length. The increasing complications of world finance and trade have made all countries inter-dependent. A new network of treaties has been set up to preserve the peace. Events have compelled the dumbest men to realize that war costs more than it can possibly be worth.

Yet in the face of all of these facts, one of our very greatest problems is the problem of keeping the peace. The world is drifting toward war in spite of the fact that it has more reasons for staying at peace than it ever had before.

It is the same in the economic field. We have developed the art of production to the point where poverty need no longer exist. We can make more of everything than we can possibly need. The masses of mankind can enjoy more luxuries than the wealthy could have a few generations ago.

Yet, poverty is increasing and we suffer from a shortage of nearly everything; and as Edward A. Filene, the Boston merchant, has pointed out, poverty has increased most rapidly in those nations whose ability to produce wealth has been most augmented.

Similarly, world trade today ought to thrive as never before. The facilities for it were never so great; the need of the various nations for the things produced by their neighbors was never so great; the financial arrangements whereby the flow of goods is made easy were never so well developed. But world trade dwindles, year by year, and most nations have been busy cutting it down still further by means of tariffs, import restrictions, quota laws and the like.

These problems, when examined carefully, simply don't make sense. Is it too much to expect that we shall presently find a way to start moving with the tide instead of against it?

So They Say

Although an occasional "damn" passes unnoticed, any systematic swearing on the part of a woman is always ugly and, in moments of stress, vulgar. People who always preface every sentence with "My God!" are worse; they're tiresome.—Alice-Leone Moats, writer on etiquette.

You judge a country not by what it is in times of prosperity, but by what it is in hard times.—Paul Claudel, French diplomat.

Nobody ever lost anything by helping a growing boy.—Judge John V. Brennan, Detroit.

Howe About Everything

By E. W. HOWE

I shall not further advertise it by giving title, publisher or author, but send out warning that lately another mischievous book has appeared.

Every reader must have noted that certain men in history are charged with being specially capable Lady Killers. Their victims in a few cases numbered hundreds; in many scores or dozens.

This author selects sixteen of the more notable of the Lady Killers, and attempts to prove that in every case the men were more victims than conquerors. There is a well-known line that Byron once wrote and found himself famous; a better known line announces he awoke another morning and found himself infamous. Women largely assisted in giving Byron this last reputation, and it has outlasted the first.

My observation has been that both parties to a love affair are about equally guilty and equally suffer. In every fight there is a cauliflower ear for both participants; Blue Beard, Byron, Casonova, Cellini, no one, goes about beating up either men or women without punishment.

Everyone must be frequently amazed at the reckless statements men make when "arguing" their side of a question.

One of the most common and amazing of such statements is that no attempt has ever been made to enforce the prohibitory law; that the law has never had a chance. Every prohibitionist makes this claim daily.

Yet official records show that three and a half billion dollars in money alone have been spent in special efforts to enforce the law, in addition to the loss of more than eighteen billions in revenue formerly collected from the sale of liquor. There are so many special prohibition agents sneaking about even now after the law has been practically nullified, that two squads recently met, and mistaking the other for rum fiends, killed and wounded several.

I do not know what has got into the people, unless it is that devilry which once got into a famous lot of swine, and caused the crazy animals to rush to a high precipice, and jump off.

When I first began seriously considering the serious facts of life, that I might reasonably understand and apply them, I recall being shocked on encountering a statement that all men are liars; a little later I read that all men are also scoundrels. Surely, I thought, a few scoundrels discovered that it is best to tell the truth; to be honest. But, alas, such statements do not shock me, or anyone, now.

I hear of an old woman who for thirty years has been a burden on sons, daughters and any other kin. She has nothing, does nothing, has never done anything of consequence, and is an object of charity, but what do you suppose her specialty is?

Curiously enough, it is constant weeping because her already heavily-burdened relatives do not give her wealth with which to do good. In her idleness she hears the groans of the world, and wishes to bring more joy into it.

Don't laugh too much at this foolish old woman; all of us wish fame as philanthropists, the fame to be acquired with money collected from others.

It is the universal passion.

The politicians, the Red Cross workers, the Salvation Army Soldiers, the Y. M. C. A. men, do not spend their own money in doing good; their idea is to collect from the people, use most of it for personal expenses and get credit for doing Great Good with the remainder.

The sprightly Sidney Smith is quoted as saying it is the duty of every man to show his wife Paris; but far more women wish to do missionary work than care to visit Paris; and far more men long to engage in politics than long to show their wives the Art and Apaches of the French.

As impressive reading as may be found in our American books concerns the firing on Fort Sumter, which started the Civil war. The battle lasted four days, and the exchange of shots from big guns between Northerners in the fort and Southerners on shore was tremendously noisy, impressive and smoky, yet not a man on either side was injured during the entire exhibition.

However, when the Yankees surrendered and retired from the fort, the Southerners, being brave men themselves, wished to honor the gallantry of their defeated foes (I have long observed that opposing fighters usually commend the bravery of each other).

So the Southerners attempted to fire a salute in honor of their foes, a big gun burst, and four gallant fellows were wounded.

Had the participants on both sides been engaged in their usual callings, I should not be laughing at them more than seventy years later.

When I go on the streets during the present depression, the people seem sufficiently sensible and efficient, but when I read of the doings of statesmen at Washington and state capitals, I bow my head and burst into tears. Surely I am right in saying our greatest blunders, our greatest cruelties, have been in war and statesmanship.

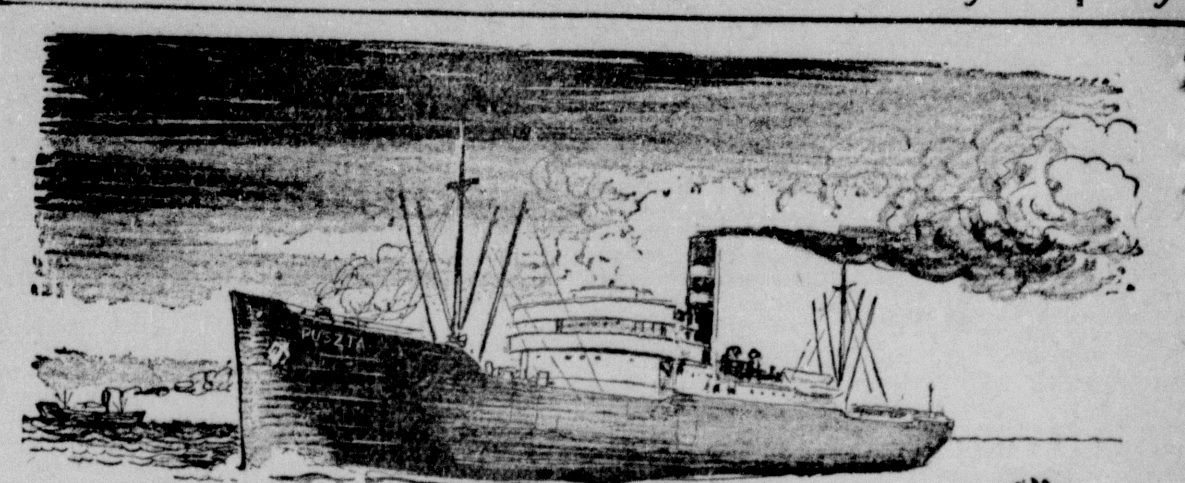

Many are saying impressively no one understands Bernard Shaw.

The truth is, Shaw is easily understood; he is a lucky dog who has blundered into the discovery that it is easier and more profitable to tell the truth than to be a hypocrite and liar.

I have read a summary of Shaw's speech in New York, and of most he has written. He charges Americans with no folly we have not charged against ourselves; books and magazines have for years been full of the

SCHOOL PROGRAM TO BE FINISHED SOON--BURGESS

(Continued from First Page)

Representative Lee added that the school program will be completed in a short time, and it is his intention to submit the program to the members of the legislature and the governor at the earliest possible date, which will be some time before September.

"As I advised you, the program contemplates increasing the state aid from \$5,000,000 to \$10,000,000, but before giving the parishes their proportion of this \$4,000,000 fund, it will be necessary for the police juries of the various parishes to lower the school maintenance millage, to an amount equal to the additional amount they will receive from this fund.

"Your school superintendent is thoroughly familiar with the details of this plan, and should you want more information, I suggest that you discuss the matter with him.

"It is our opinion that the \$4,000,000 that we are proposing to add to the state aid for schools, will be available through the reduction of expenses in the various state departments, and special taxes which were voted in the 1932 regular session of the legislature.

"We are at this time checking the various departments with the view of getting expenses down to a minimum, and we are also checking very closely the revenues that are coming into the state for the year.

"In addition to the school program we are working on consolidation of various state departments and when we have completed the investigations we are making, we believe there will be an additional \$4,000,000 relief to

the ad valorem taxpayers in this state.

"We are also working on a more equitable distribution of our tax burden. This, however, is an enormous task and will have to be brought about through two sources. First, the state treasury from the special taxes levied on the taxpayers; that is, the taxing of property and wealth that is at this time escaping taxation altogether. Second, by the valuation of a sufficient number of different classes of property to determine the number of taxpayers dollars per hundred of actual value that each class of property is now paying. In making these appraisals it is not our intention to increase taxes at all, but only to equalize the burden.

"It is my opinion that when this phase of the work is completed, there will be a general satisfaction of the taxpayers of our state. Because no good citizen taxpayer could object to paying his just proportion of the cost of government, especially if he felt that the cost of government had been lowered to a minimum.

MAN BEATS STAG TO DEATH

How a man beat a wild stag to death with his fists has just been reported from Cologne, Germany. It is the first case of an unarmed person winning a battle for life with one of the infuriated beasts. The man received only slight injuries about the hands and body. He was riding a motorcycle near Adenauer, in the Elbe district, when the savage stag raced after his machine and charged him.

The cyclist was knocked to the ground, but scrambled to his feet in time to ward off another attack. In the long wrestle that followed he gripped the stag with his hands and beat it with his bare fists until it fell unconscious. It died within a few moments.

A lion won't attack anything that looks formidable and will often desert a lioness in a fight.

CONGRESS GIVES UP PLAN TO QUIT

(Continued from First Page)

The long drawn out debate through the night hours, expecting the hectic and dramatic adjournment scene around midnight.

First warning of trouble came from Senator LaFollette, Republican, Wisconsin, who comparatively early in the evening announced he would not permit consideration of the all important \$3,450,000 deficiency appropriation bill unless he was satisfied with the conference action on the veterans and industrial measures.

The president's special message on reorganizing some of the government departments added further trouble, and its withdrawal was considered for a while by confused leaders in an effort to get the long sought agreement to quit.

The house was voting on a motion by Republican leaders who were trying to force an adjournment for the night at the time the agreement was reached in the senate.

HOUSE ACCEPTS PRESIDENT'S COMPROMISE

WASHINGTON, June 10.—(P)—The stubborn struggle over reduction in veterans' compensation apparently ended in the house tonight with acceptance of the compromise offered by President Roosevelt.

The vote was 243 to 154. The senate had yet to act on the compromise but there were predictions of quick acceptance by that branch to facilitate adjournment.

Both the administration and house members gave way in order to reach an agreement but leaders spent an anxious day lest a coalition of Republicans and rebellious Democrats should overturn the result and keep congress in session indefinitely.

Two test votes on procedure were necessary before the final ballot soothed the nerves of house chiefs. Administration forces won both the preliminary trials.

The chamber only a little before had echoed to the appeals of members as Republicans and Democrats alike assailed the administration of the economy act which gave the president power to slash the funds spent in veterans relief by over \$400,000,000.

Leaders and members of the committee which had negotiated the compromise with the chief executive urged its acceptance. Word spread during the debate that President Roosevelt would veto the independent offices supply bill, which contained the concessions, if the house approved an amendment adopted previously by the senate.

This would have limited the reductions in compensation to 25 per cent in the case of World War veterans injured in the service and would have applied also to Spanish-American war veterans. Sponsored by Senator Connally, Democrat, Texas, it contained other provisions firmly opposed by the president.

A week of conferring and a visit to the White House shaped the language which limited the slashes in World War veterans pay, if service connected, to 25 per cent. The administration, however, won its contention that it should be allowed to investigate cases where the disability was presumed to be service connected and to drop them if it were found there was no relation to the period spent in the army, navy or marine corps.

Only this morning Mr. Roosevelt called the house group to ask that language written into the proposal be changed. They agreed.

A focal point of attack in the house

debate today was the charge that Spanish-American war veterans were not included in the compromise.

INDUSTRY BILL MOVES TO PASSAGE

WASHINGTON, June 10.—(P)—The administration's industrial revival-public works bill moved to the brink of final congressional approval tonight after nine hours of continuous labor in conference had produced a complete agreement on the manifold modifications made by the senate in the house text.

House action on final acceptance of the agreement was to come first. Senate approval would conclude congress' long work on the momentous measure.

The costless conferees first accepted the senate tax program to finance the \$3,300,000,000 public works bond issue, under which income tax increases provided by the house were eliminated. Then they pushed to an agreement removing administration objections to the Borah anti-monopoly amendment and placed limitations on the LaFollette income tax return publicity provision.

The Clark amendment, which would have made all outstanding federal, state and local securities taxable, including those now tax-exempt, was stricken out on grounds of unconstitutionality.

The amendment by Senator Borah, Republican, Idaho, would have prohibited industries from agreeing upon codes of fair competition that involved combinations in restraint of trade, price-fixing or other monopolistic practices. This was modified by removal of the trade restraint and price fixing bans.

Administration leaders upheld the change on the ground that the original amendment placed too severe limitations on the trade practice agreements, in favor of which the anti-trust laws are to be suspended for two years.

The amendment of Senator LaFollette, Republican, Wisconsin, for full publicity of income tax returns was changed to permit the president to determine the extent of the publication in rules and regulations.

The senate's tax program calls for: One-tenth of one per cent tax on the net worth of corporations, the value to be fixed by the corporations themselves, but with an added 5 per cent levy if earnings on such valuations exceed 12 1/2 per cent.

A flat 5 per cent tax on corporation dividends deducted at the source.

An increase of one-half a cent in the one cent gasoline tax.

Administrative changes to prohibit private bankers from deducting from their income any losses on stocks and bonds held for as long as two years; to prevent members of partnerships from deducting from income their share in partnership losses, and prohibiting individuals and corporations carrying over into the succeeding year stock and bond losses which exceed the gains in the taxable year in which they occur.

This program is designed to raise \$220,000,000 in revenue for interest and sinking fund requirements in connection with the public works bond issue.

A compromise was reached on the appointment of the \$400,000,000 to be granted outright to the states for roads, giving the more populous states a slight concession.

Under the compromise the money would be allotted on the basis of seven-eighths on existing law and one-eighth according to population. Existing law apportions federal road funds on the basis of one-third each for area, population and existing road mileage.

This means population will be given a percentage consideration somewhere between the senate one-third and the house one-half basis.

The senate provision authorizing the president to ban interstate commerce in oil produced in violation of state laws was retained.

REORGANIZATION ORDER THREATENS ADJOURNMENT

WASHINGTON, June 10.—(P)—The first of President Roosevelt's government reorganization orders tonight caused such a threat to congressional adjournment that the Democratic leader, Robinson of Arkansas, said he might ask their withdrawal.

The proposals would go into effect within 60 days unless congress disapproves. Senator Borah, Republican, Idaho, asserted he would object to quitting until he had an opportunity to study the plan. He was joined by Senator Johnson, Republican, California.

Robinson replied he would not hesitate to advise the president to withdraw the order if that was necessary to bring adjournment tonight.

"I will get in touch with the president as soon as possible," Robinson told the senate.

In his message transmitting that order, Mr. Roosevelt said the justification for it "at this late hour, is that it will effect a saving of more than \$25,000,000."

The government changes proposed included abolition of the shipping board, virtual abolishment of the bureau of prohibition and many consolidations and new alignments.

Borah said printed copies of the plan were not available "yet we must pass upon it."

"We are going to adjourn tonight," Borah said. "There is no way to pass upon it at all under these circumstances. How can the congress possibly deal with this very important message between now and 12 o'clock?"

"I am not charging the president with taking a disadvantage of congress and realize it probably was delayed by the pressure of other business, but some things in this reorganization plan are vital to the west."

"The fact remains," Senator Johnson intervened, "that it has come at a time when congress cannot act intelligently on it."

Here Robinson broke in to say: "If withdrawal will enable congress to go forward with adjournment I shall not hesitate to advise him (the president) to withdraw it. But if it is the first of a series of moves to prostrate his program I shall not so advise him."

President Roosevelt sent the following message to congress:

"Pursuant to the provisions of section 1, title 3, of the act entitled 'An act to maintain the credit of the United States government,' approved March 29, 1933, I am transmitting herewith an executive order for certain regroupings, consolidations, transfers, and abolitions of executive agencies and functions thereof.

"Please let me tell you very simply and frankly that in transmitting this executive order at this late hour in the special session, I have not thought of taking what might be considered an advantage of the congress.

"The very urgent demands of the public business, both legislative and administrative, during the past few weeks have made it literally impossible to complete the study of consolidations.

"Many other changes are in contemplation and I have selected only those which I believe should be put into effect as quickly as possible. These additional changes I do not feel it right to submit until the regular session of the congress.

"May I suggest that if the changes proposed in the present executive order are not concurred in by the congress they can be restored or otherwise changed at the beginning of the regular session a few months hence.

"The justification for sending this executive order up, even at this late hour, is that it will effect savings of more than \$25,000,000. This is well worthwhile."

The executive orders become effective automatically in 60 days unless disapproved by congress.

Other high points of the reorganization plan are:

Consolidation of all functions of administering public buildings, national parks, national monuments and national cemeteries in the department of interior. This means the abolition of the following commissions:

Arlington memorial bridge commission, public buildings commission, public buildings and public parks of the national capital, national memorial commission and Rock Creek and Potomac parkway commission.

Consolidation of the 2,200 disbursing offices under the treasury department.

Confining to the department of justice the responsibility of prosecuting and defending court actions to which the United States is a party.

Consolidation under the department of justice of the insular courts.

Consolidation in the treasury department of the present bureau of internal revenue and bureau of industrial alcohol.

Abolition of the completion of statistics for cities with a population of less than 100,000.

Abolition of the national screw thread commission.

Consolidation in the department of labor of the bureau of immigration and naturalization.

Transfer to the department of interior of the federal board for vocational education.

Abolition of the coordinating service.

Consolidation in a division of investigation in the department of justice of the investigatory functions of the bureau of prohibition and transfer to the division of internal revenue of the licensing functions of the bureau of prohibition.

Reduction by 25 per cent of the cost of cooperative vocational education and rehabilitation, cooperative agricultural extension work and endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts.

SENATE ADOPTS BONE RESOLUTION

WASHINGTON, June 10.—(P)—The senate tonight adopted a resolution by Bone, Democrat, Washington, requesting Secretary Woodin to call upon holders to exchange outstanding government bonds for a lower interest issue entitled "the new liberty loan of 1933."

The vote was 69 to 1, with Logan, Democrat, Kentucky, casting the only negative ballot.

The resolution is not compulsory upon the treasury head.

It sets forth in "whereases" that the British treasury successfully converted its wartime obligations from 5 per cent to 3 1/2 per cent to effect a \$28,000,000 annual saving in interest charges.

It said also that France accomplished a substantial reduction in the same way and that a reduction in the service costs of United States obligations "is consistent with a program of national economy."

Then the resolution said: "Resolved, that the senate of the United States request, and it hereby does request, the secretary of the treasury of the United States to call immediately upon holders of United States government bonds, particularly

W. Lamont, Morgan partner, had admitted that J. P. Morgan and company controlled Colliers Weekly, magazine which recently published an article criticizing the Louisiana senator.

Lamont denied under questioning by Long at the Morgan hearing that he had any influence in the editorial policy of the publication.

Long said Colliers in 1930 printed an article "lauding me" and that after "I recently assailed the House of Morgan the same writer wrote another article which pictured me as an entirely different man, physically, mentally and morally."

The Louisiana senator then read from a magazine article which he attributed to Bernard Baruch. Written in 1929, Long said the article showed the fallacy of Baruch's economic views "which I have been assailed for criticizing."

WASHINGTON, June 10. — (P) — Shunted aside by the pressure of other business, the question of whether petitions, asking that Senator Long, Democrat, Louisiana, requested, was received by the senate and privileged for publication today, was not acted on by the senate judiciary committee.

Senator King, Democrat, Utah, chairman of a subcommittee assigned to look into the question, told newspapermen the full committee was unable to act on the matter.

It was understood that a report had been prepared for the subcommittee holding that the petition was properly received and could be printed so long as the senate took formal action and no malice was involved.

King hoped that the matter might be disposed of before the day ends and intended to try to get consideration.

CIGARETTES STOLEN

A quantity of cigarettes was obtained by a burglar who entered Green's grocery, Twenty-fourth and DeSiard streets, Friday night, according to a report made Saturday at police headquarters. The intruder was said to have entered through a skylight and to have jumped from it to the top of an icebox. Missing articles were said to include two cartons of Camels, two cartons of Old Gold, three cartons of Lucky Strike, two cartons of 20 Grand, one carton of Chesterfield and two cartons of Wings.

Prisoner in West Monroe Jail Takes Shot at Wall

Persons in the vicinity of the city hall in West Monroe were somewhat startled early Saturday night when they heard a pistol shot in the jail. On investigating, officers found Roy Whitlock, who had been arrested a short time before on charges of driving an automobile while intoxicated, was amusing himself by seeing if he could hit the wall of the jail. In searching Whitlock before he was placed in jail, the traffic officer who made the arrest overlooked a pistol.

PLANS ARE MADE FOR GARDEN FETE

Preparations are being made for the holding of a garden fete on the spacious lawn of Mrs. Henry Bernstein, on Riverside drive, on the night of June 15, starting at 7 o'clock, it was said yesterday. The public is invited to attend as the affair is to be a benefit for the municipal recreation department. Money realized will be devoted to the operation of the playgrounds of the city this summer, and the Monroe Garden club is sponsor of the fete.

The lighting of the grounds and general arrangements of the outdoor setting will be in charge of Capt. G. B. Cooley.

A pleasing, as well as elaborate pageant, is to be presented entitled, "Passing of Night."

There is also to be a musical program and other features, which will insure, state those in charge, one of the most pleasurable evenings possible.

Every member of the Garden club is expected to attend and is asked to be sure to bring 10 other persons if possible.

Pleasant said her character was defamed.

The wife of former Governor Pleasant further said in her supplemental petition that in a newspaper interview Senator Long was quoted as saying he "Went up there (to the supervisor's office) to keep the officers from putting her in jail." And that the assertion was "scandalous and defamatory."

She said Senator Long went to the supervisor's office after receiving a telephone call made or ordered made by Miss Grosjean and that a conspiracy had been entered into to prevent her from making inquiries "in the interest of the taxpayers."

Relieve Blood Pressure

Sends Treatment on FREE TRIAL

Quick Relief, Or You Only Pay When Satisfied

Anyone who suffers from High Blood Pressure, dizziness, ringing in the ears, weak, shaky, nervous feeling; can't sleep at night, has bad taste, pounding of the heart, and who fears a paralytic stroke, write to the Dr. Hayes Association, 2567 Conter House, Kansas City, Mo. To demonstrate the value of Dr. Hayes' Prescription, they will send you a regular one-dollar size of this famous prescription on absolutely FREE TRIAL. While this treatment is non-specific, many cases report remarkably quick relief, saying that Blood Pressure was reduced, the heart pounding stopped, and that normal sleep returned often within three days. Mrs. J. H. Cincinnati, O., says: "My pressure is down 20 points; doctor very pleased." Mrs. E. E. Pasco, Wash., states: "I can now walk a mile to town without tiring." A Texas bank president writes: "I derived more benefit from this treatment than anything I have ever gotten hold of."

A Illinois minister says: "I was near death twice; today I am a new man." Mr. C. C. Gloucester, N. J. reports: "My pressure was reduced 25 points in one week." H. C. H., an old soldier in Washington, says: "Your medicine reduced my pressure 20 points in a short time ago. I was 264, today it registered 180." Dr. Hayes' Prescription contains no salts, physics, opiates or drugs, and is absolutely harmless for people of all ages. You can take it with any diet, or with any other treatment you may be taking, as it will not conflict. Under this free trial offer, you pay nothing for the treatment unless greatly benefited. You are the sole judge. When satisfied with the results, send one dollar, otherwise your report cancels the charge. If you suffer from High Blood Pressure, don't hesitate to write to the Dr. Hayes Association, as this wonderful treatment will come to you, postpaid, by return mail, on absolutely FREE TRIAL.—Adv.

CAMP KI-RO-LI TO OPEN SHORTLY

Oakland Describes Plans for Annual Boy Scout Activities

Camp Ki-Ro-Li is to open on Monday, June 19, for members of the Ouachita Valley Boy Scout council. Barney Oakland, chairman of the camping committee, has issued a folder calling attention to the coming camp and its possibilities. He states that efforts of the camp staff for the season of 1933 will be directed toward increasing the ability of troops to camp well and toward increasing the satisfaction of the campers.

The camp program will be varied, with the mornings given over largely to scoutcraft. It is expected that each troop leader will conduct his own advancement program and classes. However, every help and material will be given to the various leaders. Games and general activities will be held each afternoon.

There will be at least one night in

each period given over to conduct their own troop camp fire. On all other nights, general camp fires will be held. A court of honor will be held near the close of each camp period.

Supervised handicraft periods will be conducted throughout the camping periods. Swimming will be under the direction of a qualified Red Cross life saving instructor. The first camping period is to end at noon, June 26.

country, have only \$17,000,000,000 deposits!

ALSO, THE PEOPLE of the United States, appreciating their own value, carry \$100,000,000,000 of life insurance. Whoever worries about the American dollar, that can buy anything in this kind of a country, is wasting his worry.

A distinguished French banker, deploring "the weakness of the dollar," says "we are all in for a show down of strength," meaning money strength. Uncle Sam, with enough to buy up the rest of the world, is not worrying about that show down.

MR. WOODIN, secretary of the treasury, needed for Uncle Sam \$1,000,000,000 on five-year notes, paying 2-7-8 interest, plus \$400,000,000 of "nine-month certificates," paying less than 1 per cent. These government debts, for the first time, are payable "in lawful money," which means nice paper, not gold.

Nevertheless, Mr. Woodin was offered \$5,000,000,000 when he only asked for \$1,000,000,000. Somebody seems to think our lawful money is sound, and that President Roosevelt knows what he is doing.

PROFESSOR WILLIAM LYON PHELPS, who has been teaching boys at Harvard and Yale for 42 years, retires at "the automatic retirement age of 68."

That retirement age, for a trained mind, is silly. At 68, and at 78, a man should do his best teaching. Pope Leo was hard at work at 90; Gladstone ran the liberal party in England at 80; Titian was painting magnificently when the plague killed him at 90; Michelangelo at 89 was still working. Why retire an American teacher at 68?

CYRUS H. K. CURTIS was buried Friday, forty members of the Portland, Me., men's singing club sang two of Mr. Curtis' favorite hymns. Seventy-five years ago, Mr. Curtis went into business as a newsboy with a total capital of 3 cents, made money, a great deal of it, but devoted his best efforts to building up a good name.

Time has proved his wisdom. Today he has the good name, and it will last. And he has just three cents less than the original capital with which he started business.

INDIANA, THAT WOULD NEVER have believed, has voted to repeal prohibition.

And New York, which would not have believed it, seems quite content with 32 beer. New York state brewers sold last month 13,000 barrels more than in the first month of "legal beer," and beer taxes totalled \$2,000,000. Taxes would be much higher if licenses were granted freely.

Plaster Work Is Begun On Postoffice Building

The work of plastering the interior of the new federal building has been initiated, members of the firm of Landis & Young, general contractors, said Saturday. Inside of the next two weeks' time, the work of placing the marble for the interior will be started and inside of about four or five weeks, this should all be completed.

There has been some delay in the receipt of limestone from Bloomington and three cars are yet to be sent here in order to complete the stone work required.

If no unforeseen delays result, the building will be completed on time, September 15, stated members of the contracting firm. This will enable occupancy of the structure by about October 1, it is believed.

RIALTO
THEATER—WEST MONROE

AT THE RIALTO TODAY

It ascends the heights as few pictures have ever done, swiftly, grandly taking your heart along with it.

TODAY'S AMUSEMENTS

AT THE PARAMOUNT—He gravitated from building contracting to acting, to mechanical engineering—finally to the screen, where he is famous for roles ranging from a portrayal of Abraham Lincoln to the crooked judge in "Night Court."

Infinite variety has therefore been tutor to Walter Huston, who plays the stern submarine commander in "Hell Below," Metro-Goldwyn-Mayer's spectacular thriller of the submarine service, currently playing at the Paramount theater Sunday and Monday.

Huston believes the role one of the best he has ever had, partly because, being an engineer, he was so familiar with the operation of what he had to do, partly because of the unique psychology of the naval officer whose only law was the code of the service. Huston is a good deal like that himself.

Born in Toronto, Canada, he was the son of a builder and planned to follow in his father's footsteps. But though he studied engineering avidly, college drama "got" him in his sophomore year. He finally went on the stage.

He played in many stock companies, in vaudeville, returned to engineering, then back to the stage and was applauded by critics and public alike for his brilliant work in "Kongo," "Elmer the Great," "Mr. Pitt" and other plays.

When a lead was wanted in the picture, "Gentlemen of the Press," Huston was engaged and that began a sequence of amazingly different roles. He played Abraham Lincoln—also the Latin desperado in "The Bad Man." He played the old "sack" in "The Wet Parade," the President in "Gabriel Over the White House."

In "Hell Below" he figured in amazing thrills of submarine warfare—and loved it. "It's action," he insists, "plus a chance to use engineering." He actually performed all the operations of piloting a submarine.

AT THE CAPITOL—Joe E. Brown will be seen on the screen of the Capitol theater Sunday and Monday in his latest First National comedy, "Elmer the Great," which is said to be the most uproariously funny of any picture he has appeared in to date.

"Elmer the Great," written by Ring Lardner and George M. Cohan, was a comedy riot on the stage and is said to be even more hilarious as a screen play, because many of the startling sequences which could be only hinted at before the footlights are actually depicted in the picture.

Some of the funniest as well as most intense scenes in the picture occur during the playing of a world series in a downpour of rain.

The plot concerns a hick town boy who develops into the champion batsman of the big league. He is also the champion eater and long-time sleeper. His cocksureness makes him the butt of innumerable jokes by other members of his team.

Joe, as Elmer the Great, becomes involved in a love tangle which eventually lands him in jail, and very nearly loses the world's series championship for his team. How he extricates himself and finally wins both the game and the girl is one of the most exciting as well as some of the most laughable incidents in a comedy full of riotous situations and fast action.

There is a strong supporting cast, with Patricia Ellis, the new sensation of the screen, playing the leading feminine role opposite Joe. Others include Frank McHugh, Claire Dodd, Preston S. Foster and Russell Hopton. The screen play is by Tom Geraghty and the direction by Mervyn LeRoy.

The Capitol theater announces a new summer policy in the booking of "Smiling" Bob Foster and his Imperial Aces orchestra direct from a sixteen weeks' engagement at the China Lane Night club of New York City. Sunday only matinees and night performance. These splendid musicians and entertainers are here with the Hotel Frances Cherokee Terrace night club for six weeks and then are to go to Fort Worth, Texas. While here they can be seen and heard at no extra increase in prices at the Capitol theater, on Sundays only.

until the limit of the commission's resources has been reached. That is why Mr. Maestri spent in the two years prior to the assembling of the 1932 legislature, the sum of \$1,603,127.79 in operating his department. That was a jump of over \$1,000,000 in six years. In 1925, the records show that W. J. Everett, then conservation commissioner, expended \$175,000 in operating costs and turned back into the state treasury \$190,000. The following year, Conservation Commissioner V. K. Irion spent \$225,000. In two years, therefore, the expenses of the commission were \$415,000, against the Maestri record, six years later, of \$1,603,127.79.

The conservation commission gets \$175,000 per year from the conservation fund, \$100,000 per year from the conservation tax for mineral supervision and \$80,000 per year from the same source for forestry work. It also gets hunting licenses, which amounted last year to \$63,995.29, some gravel and shell fees and an amount from the federal government for forestry work, said to be in excess of \$300,000 per year.

In 1928, under the Long regime, the amount appropriated for the commission out of the conservation fees was \$150,000. In 1932, with Governor Allen in the executive office, this item was raised to \$175,000. This was natural under the liberal treatment given all patronage departments by the legislature at its session of a year ago. The department almost got \$25,000 for boats and \$30,000 for the Lake Bienville fish preserve. The records at Baton Rouge show that the commission spent a trifling more than it collected in conservation fees during the calendar year 1932. Collections amounted to \$140,238.39 and expenditures to \$140,495.96. The department had a balance of 403.76 in this fund at the beginning of the year and a balance of \$136.09 at the end of the year.

Its hunting license balance, however, was increased. That item was \$15,024.52 on January 1 and \$19,353.45 on December 31. Expenditures for the year were \$7,995.29 and expenditures were \$59,634.36. Six years ago there were about 160 employees in the conservation commission. Today, there are over three times that number. However, the chief patronage dispensed by the conservation commission consists not so much of a few hundred jobs for the politically deservng followers of the administration, as it does of distribution of trapping privileges.

This distribution has been made the strongest political asset of the Long-Allean regime. Millions are involved in it—just how many no man can say. Baton Rouge records do not disclose the totals.

An illustration of Mr. Maestri's complete compliance with the laws of the game, as they are now understood in the Long Allen camp, is said to have been supplied by the deferential treatment which he gave the cases of G. B. Grosjean, father of the present supervisor of public accounts, and Davis McConnell, brother-in-law of the senator United States senator from Louisiana. It is said that in the conduct of his department, Mr. Maestri is opposed to the use of state-owned cars. But Messrs. Grosjean and McConnell are said to have state-owned cars, and they are both employees of the conservation commission. Mr. Grosjean was at one time mail tax inspector for his district, and a salary considerably larger than that of any other mail tax inspector; and there he had a state-owned car. Others that he and Mr. McConnell should ride in state-owned cars are said to have come to the conservation commissioner from Senator Long; and, like a good and faithful vassal, Mr. Maestri acquiesced.

There are three lines of public thought concerning the natural resources of the state, which are greater, perhaps, than those of any state of its size in the Union. One is that the marketing of these resources ought to be made so serviceable to that state in a financial way that direct taxation might be lowered. Another is that the conservation commission should be made self-sustaining, like the federal postoffice, for the benefit of those engaged in the business of capitalizing natural deposits. A third is that the conservation commission ought to be abolished altogether, since it has become a powerful arm of the state machine, and the duty of collecting and administering conservation revenues of all kinds be turned over to the state auditor, an elective officer. This last may be done under the provisions of the 1921 constitution.

In view of present conditions with respect to the Louisiana conservation commission, it is interesting to quote from a speech made by Huey P. Long, at Alexandria, on August 3, 1927, in opening his successful campaign for governor:

"I believe in the conservation of the natural resources of the state, but I am opposed to the past system and practices of the conservation commission of the state. All of Louisiana has been combed and pilfered with useless

employees and agents of a department that is expected to conserve the natural resources of Louisiana and to see to enforcement of conservation laws; but such duties have, as a general proposition, been regarded as idle patronage for the aid of political manipulators."

The state banking commissioner conducts his department on examination fees levied against banks, finance companies and building and loan associations. From these sources \$61,841 was received in 1932 and \$80,925 expended. The department had a slight balance to its credit on January 1, 1932, on December 31, it had a heavy overdraft. Of course, the money to cover this overdraft must come from inspection fees. With the passing of a number of state banks into federal institutions, 1933 threatens to be a lean year for Commissioner Brock and his associates. As bank examiner fees for examining state banks are one per cent of the capital stock of the examined institutions, it will readily be seen that changes in the classification of big banks like those of New Orleans which have recently passed to federal supervision, spells large losses for the state banking department; already heavy (and, it is said, illegally) in debt to the state.

Four or five years ago the bank examiners, or assistants to the bank commissioner, numbered seven. Today they number fifteen. Up to five years ago the practice long followed by the department was to assess inspection costs against banks as they were examined. Examinations occurred twice a year. Today, two assessments for examination are levied yearly against the banks, though inspections are made in most instances but once a year. This is especially true of the country banks, who pay for two examinations and receive one.

The power of a bank examiner and, through him, the power of his political overlord, can hardly be overestimated. Not only the condition of the banks themselves, but the banking affairs of borrowers are made familiar to the agency conducting the examinations and the agency authorizing them. This amounts to a power of life or death for many of the institutions. It has made some of them subservient, all of them careful and cautious. For many years, in Louisiana, the office of bank examiner was so thoroughly divorced from politics that there was no thought of political treatment of banking questions by the state. Among those who conducted the

office on a thoroughly non-partisan, non-political basis were R. N. Sims, Will L. Young and L. E. Thomas. The bank examiner selected his own assistants, without suggestion from Baton Rouge, and based his selections on capacity and experience alone. Governors exercised the power of executive control very gingerly and with great caution, so far as the state bank examiner was concerned. Because of the delicate and vital nature of duties and responsibilities attached to the office, it was always regarded, until Governor Long took charge, as being thoroughly divorced from politics.

On the other hand, the office of fire marshal has always been regarded as more or less political. Governors Hall, Pleasant and Parker were disposed to regard the post of fire marshal as personal patronage peculiar to themselves. Each named a personal friend to the place, but the forces serving under these appointees were generally friendly to the administration in power. It is a fact, however, that none of the employees were dictated. Governor Long chose for the office a political follower rather than a personal friend, and gave to the city of New Orleans a department which prior to that time had been regarded as peculiarly the political property of the country.

Although it has expanded in numerical strength, the fire marshal's office has kept within its revenues, though to accomplish this in 1932 it had to almost wipe out a healthy bal-

ance left over from the previous year. Receipts for 1932 were \$40,357.93 and expenditures \$46,000. On December 31, 1932, the balance was \$751.71. The department did not consume more cake than it had, but very few crumbs remain from a generous leftover.

The next article will deal with the liberal, almost extravagant, support given by the state, through the influence of Senator Huey P. Long, to the Louisiana State university, a support greater than that afforded all other higher educational institutions combined, including the schools for the deaf and blind at Baton Rouge. Because of this unusual and extraordinary aid, the university suffered little in comparison with the public schools of the state which, like the university, are primarily supported by direct taxation. The article will reveal some of the ways in which the university funds were expended.

The migration of birds is believed to have started in the latter part of the tertiary period when the ice sheet came down from the north.

CAMP KI-RO-LI TO OPEN SHORTLY

Oakland Describes Plans for Annual Boy Scout Activities

Camp Ki-Ro-Li is to open on Monday, June 19, for members of the Ouachita Valley Boy Scout council. Barney Oakland, chairman of the camping committee, has issued a folder calling attention to the coming encampment and its possibilities. He states that efforts of the camp staff for the season of 1933 will be directed toward increasing the ability of troops to camp well and toward increasing the satisfaction of the campers.

The camp program will be varied, with the mornings given over largely to scoutcraft. It is expected that each troop leader will conduct his own advancement program and classes. However, every help and material will be given to the various leaders. Games and general activities will be held each afternoon.

There will be at least one night in

each period given over to conduct their own troop camp fire. On all other nights, general camp fires will be held. A court of honor will be held near the close of each camp period.

Supervised handicraft periods will be conducted throughout the camping periods.

Swimming will be under the direction of a qualified Red Cross life saving instructor.

The first camping period is to end at noon, June 26.

ALSO, THE PEOPLE of the United States, appreciating their own value, carry \$100,000,000,000 of life insurance. Whoever worries about the American dollar, that can buy anything in this kind of a country, is wasting his worry.

A distinguished French banker, deploring "the weakness of the dollar," says "we are all in for a show down of strength," meaning money strength. Uncle Sam, with enough to buy up the rest of the world, is not worrying about that show down.

MR. WOODIN, secretary of the treasury, needed for Uncle Sam \$1,000,000,000 on five-year notes, paying 2-7-8 interest, plus \$400,000,000 of "nine-month certificates," paying less than 1 per cent. These government debts, for the first time, are payable "in lawful money," which means nice paper, not gold.

Nevertheless, Mr. Woodin was offered \$5,000,000,000 when he only asked for \$1,000,000,000. Somebody seems to think our lawful money is sound, and that President Roosevelt knows what he is doing.

PROFESSOR WILLIAM LYON PHELPS, who has been teaching boys at Harvard and Yale for 42 years, retires at "the automatic retirement age of 68."

That retirement age, for a trained mind, is silly. At 68, and at 78, a man should do his best teaching. Pope Leo was hard at work at 90; Gladstone ran the liberal party in England at 80; Titian was painting magnificently when the plague killed him at 90; Michelangelo at 89 was still working. Why retire an American teacher at 68?

CYRUS H. K. CURTIS was buried Friday, fourth members of the Portland, Me., men's singing club sang two of Mr. Curtis' favorite hymns. Seventy-five years ago, Mr. Curtis went into business as a newsboy with a total capital of 3 cents, made money, a great deal of it, but devoted his best efforts to building up a good name.

Time has proved his wisdom. Today he has the good name, and it will last. And he has just three cents less than the original capital with which he started business.

INDIANA, THAT WOULD NEVER have believed, has voted to repeal prohibition.

And New York, which would not have believed it, seems quite content with 32 beer. New York state brewers sold last month 13,000 barrels more than in the first month of "legal beer" and beer taxes totaled \$2,000,000. Taxes would be much higher if licenses were granted freely.

Plaster Work Is Begun On Postoffice Building

The work of plastering the interior of the new federal building has been initiated, members of the firm of Landis & Young, general contractors, said Saturday. Inside of the next two weeks' time, the work of placing the marble for the interior will be started and inside of about four or five weeks, this should all be completed.

There has been some delay in the receipt of limestone from Bloomington and three cars are yet to be sent here in order to complete the stone work required.

If no unforeseen delays result, the building will be completed on time, September 15, stated members of the contracting firm. This will enable occupancy of the structure by about October 1, it is believed.

RIALTO THEATER—WEST MONROE

AT THE RIALTO TODAY

It ascends the heights as few pictures have ever done, swiftly, grandly taking your heart along with it.

TODAY'S AMUSEMENTS

AT THE PARAMOUNT—He gravitated from building contracting to acting, to mechanical engineering—finally to the screen, where he is famous for roles ranging from a portrayal of Abraham Lincoln to the crooked judge in "Night Court."

Infinite variety has therefore been tutor to Walter Huston, who plays the stern submarine commander in "Hell Below." Metro-Goldwyn-Mayer's spectacular thriller of the submarine service, currently playing at the Paramount theater Sunday and Monday.

Huston believes the role one of the best he has ever had, partly because, being an engineer, he was so familiar with the operation of what he had to do, partly because of the unique psychology of the naval officer whose only law was the code of the service. Huston is a good deal like that himself.

Born in Toronto, Canada, he was the son of a builder and planned to follow in his father's footsteps. But though he studied engineering avidly, college dramatics "got" him in his sophomore year. He finally went on the stage.

He played in many stock companies, in vaudeville, returned to engineering, then back to the stage and was applauded by critics and public alike for his brilliant work in "Kongo," "Elmer the Great," "Mr. Pitt" and other plays.

When a lead was wanted in the picture, "Gentlemen of the Press," Huston was engaged and that began a sequence of amazingly different roles. He played Abraham Lincoln—the Latin desperado in "The Bad Man." He played the old "soak" in "The Wet Parade," the President in "Gabriel Over the White House."

In "Hell Below" he figured in amazing thrills of submarine warfare—and loved it. "It's action," he insists, "plus a chance to use engineering." He actually performed all the operations of piloting a submarine.

AT THE CAPITOL—Joe E. Brown will be seen on the screen of the Capitol theater Sunday and Monday in his latest First National comedy, "Elmer the Great," which is said to be the most uproariously funny of any picture he has appeared in to date.

"Elmer the Great" written by Ring Lardner and George M. Cohan, was a comedy riot on the stage and is said to be even more hilarious as a screen play, because many of the startling sequences which could be only hinted at before the footlights are actually depicted in the picture.

Some of the funniest as well as most intense scenes in the picture occur during the playing of a world series in a downpour of rain.

The plot concerns a hick town boy who develops into the champion batsman of the big league. He is also the champion eater and long-time sleeper. His cocksureness makes him the butt of innumerable jokes by other members of his team.

Joe, as Elmer the Great, becomes involved in a love tangle which eventually lands him in jail, and very nearly loses the world's series championship for his team. How he extricates himself and finally wins both the game and the girl is one of the most exciting as well as the most laughable incidents in a comedy full of riotous situations and fast action.

There is a strong supporting cast, with Patricia Ellis, the new sensation of the screen, playing the leading feminine role opposite Joe. Others include Frank McHugh, Claire Dodd, Preston S. Foster and Russell Hopton. The screen play is by Tom Geraghty and the direction by Mervyn LeRoy.

The Capitol theater announces a new summer policy in the booking of "Smiling" Bob Foster and his Imperial Aces orchestra direct from a sixteen weeks' engagement at the China Lane Night club of New York City. Sunday only matinees and night performance. These splendid musicians and entertainers are here with the Hotel Frances Cherokee Terrace night club for six weeks and then are to go to Fort Worth, Texas. While here they can be seen and heard at no extra increase in prices at the Capitol theater, on Sundays only.

CONSERVATION IS PART OF MACHINE

(Continued from First Page)

until the limit of the commission's resources has been reached. That is why Mr. Maestri spent in the two years prior to the assembling of the 1932 legislature, the sum of \$1,603,127.79 in operating his department. That was a jump of over \$1,000,000 in six years. In 1925, then conservation commissioner, expended \$175,000 in operating costs and turned back into the state treasury \$190,000. The following years Conservation Commissioner V. K. Irion spent \$225,000. In two years, therefore, the expenses of the commission were \$415,000, against the Maestri record, six years later, of \$1,603,127.79.

The conservation commission gets \$175,000 per year from the conservation fund, \$100,000 per year from the conservation tax for mineral supervision and \$80,000 per year from the same source for forestry work. It also gets hunting licenses, which amounted last year to \$63,995.29, some gravel and shell fees and an amount from the federal government for forestry work, said to be in excess of \$30,000 per year.

In 1928, under the Long regime, the amount appropriated to the commission out of the conservation fees was \$150,000. In 1932, with Governor Allen in the executive office, this item was raised to \$175,000. This was natural under the liberal treatment given all patronage departments by the legislature at its session of a year ago. The department almost got \$25,000 for boats and \$30,000 for the Lake Bistonsau fish preserve. The records at Baton Rouge show that the commission spent a trifle more than it collected in conservation fees during the calendar year 1932. Collections amounted to \$140,238.39 and expenditures to \$140,455.96. The department had a balance of 403.76 in this fund at the beginning of the year and a balance of \$146.09 at the end of the year.

Its hunting license balance, however, was increased. That item was \$15,024.52 on January 1 and \$19,385.45 on December 31. Receipts, as stated above, were \$67,995.29 and expenditures were \$59,634.36. Six years ago there were about 160 employees in the conservation commission. Today, there are over three times that number. However, the chief patronage dispensed by the conservation commission consists not so much of a few hundred jobs for the politically deserving followers of the administration, as it does of distribution of trapping privileges.

This distribution has been made the strongest political asset of the Long-Allyn regime. Millions are involved in it—just how many no man can say. Baton Rouge records do not disclose the totals.

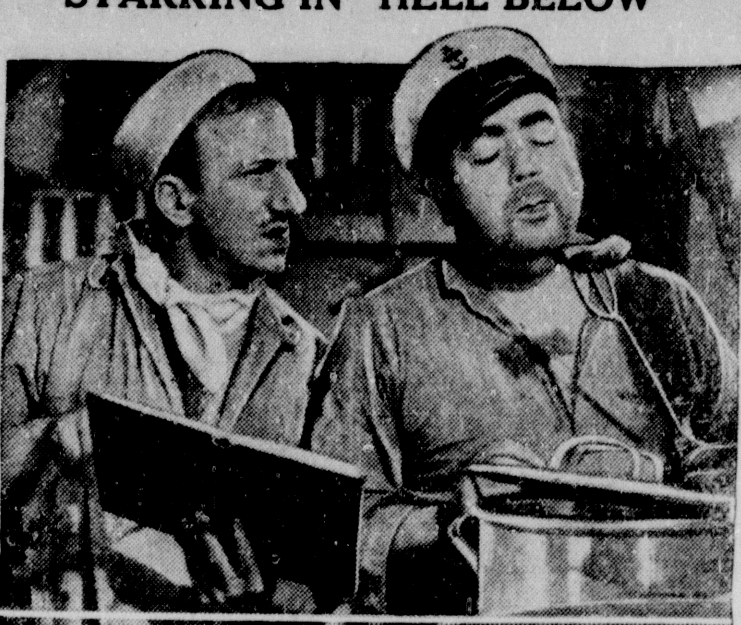

An illustration of Mr. Maestri's complete compliance with the laws of the game, as they are now understood in the Long-Allyn camp, is said to have been supplied by the deferential treatment which he gave the cases of G. B. Grosjean, father of the present supervisor of public accounts, and Davis McConnell, brother-in-law of the senior United States senator from Louisiana. It is said that in the conduct of his department, Mr. Maestri is opposed to the use of state-owned cars. But Messrs. Grosjean and McConnell are said to have state-owned cars, and they are both employees of the conservation commission. Mr. Grosjean was at one time malt tax inspector for his daughter, at a salary considerably larger than that of any other malt tax inspector; and there he had a state-owned car. Orders that he and Mr. McConnell should ride in state-owned cars are said to have come to the conservation commissioner from Senator Long; and, like a good and faithful vassal, Mr. Maestri acquiesced.

There are three lines of public thought concerning the natural resources of the state, which are greater, perhaps, than those of any state of its size in the Union. One is that the marketing of these resources ought to be made so serviceable to that state in a financial way that direct taxation might be lowered. Another is that the conservation commission should be made self-sustaining, like the federal postoffice, for the benefit of those engaged in the business of capitalizing natural deposits. A third is that the conservation commission ought to be abolished altogether, since it has become a powerful arm of the state machine, and the duty of collecting and administering conservation revenues of all kinds be turned over to the state auditor, an elective officer. This last may be done under the provisions of the 1921 constitution.

In view of present conditions with respect to the Louisiana conservation commission, it is interesting to quote from a speech made by Huey P. Long, at Alexandria, on August 3, 1927, in opening his successful campaign for governor.

"I believe in the conservation of the natural resources of the state, but I am opposed to the past system and practices of the conservation commission of the state. All of Louisiana has been combed and pilfered with useless

employees and agents of a department that is expected to conserve the natural resources of Louisiana and to see to enforcement of conservation laws; but such duties have, as a general proposition, been regarded as idle patronage for the aid of political manipulators."

The state banking commissioner conducts his department on examination fees levied against banks, finance companies and building and loan associations. From these sources \$61,841 was received in 1932 and \$80,925 expended. The department had a slight balance to its credit on January 1, 1932, on December 31, it had a heavy overdraft. Of course, the money to cover this overdraft must come from inspection fees. With the passing of a number of state banks into federal institutions, 1933 threatens to be a lean year for Commissioner Brock and his associates. As bank examiner fees for examining state banks are one per cent of the capital stock of the examined institutions, it will readily be seen that changes in the classification of big banks like those of New Orleans which have recently passed to federal supervision, spells large losses for the state banking department; already heavily (and, it is said, illegally) in debt to the state.

Four or five years ago the bank examiners, or assistants to the bank commissioner, numbered seven. Today they number fifteen. Up to five years ago the practice long followed by the department was to assess inspection costs against banks as they were examined. Examinations occurred twice a year. Today, two assessments for examination are levied yearly against the banks, though inspections are made in most instances but once a year. This is especially true of the country banks, who pay for two examinations and receive one.

The power of a bank examiner and, through him, the power of his political overlord, can hardly be overestimated. Not only the condition of the banks themselves, but the banking affairs of borrowers are made familiar to the agency conducting the examinations and the agency authorizing them. This amounts to a power of life or death for many of the institutions. It has made some of them subservient, all of them careful and cautious.

For many years, in Louisiana, the office of bank examiner was so thoroughly divorced from politics that there was no thought of political treatment of banking questions by the state. Among those who conducted the

office on a thoroughly non-partisan, non-political basis were R. N. Sims, Will L. Young and L. E. Thomas. The bank examiner selected his own assistants, without suggestion from Baton Rouge, and based his selections on capacity and experience alone. Governors exercised the power of executive control very gingerly and with great caution, so far as the state bank examiner was concerned. Because of the delicate and vital nature of duties and responsibilities attached to the office, it was always regarded, until Governor Long took charge, as being thoroughly divorced from politics.

On the other hand, the office of fire marshal has always been regarded as more or less political. Governors Hall, Pleasant and Parker were disposed to regard the post of fire marshal as personal patronage peculiar to themselves. Each named a personal friend to the place, but the forces serving under these appointees were generally friendly to the administration in power. It is a fact, however, that none of the employees were dictated. Governor Long chose for the office a political follower rather than a personal friend, and gave to the city of New Orleans a department which prior to that time had been regarded as peculiarly the political property of the country.

Although it has expanded in numerical strength, the fire marshal's office has kept within its revenues, though to accomplish this in 1932 it had to almost wipe out a healthy bal-

ance left over from the previous year. Receipts for 1932 were \$40,337.93 and expenditures \$46,000. On December 31, 1932, the balance was \$751.71. The department did not consume more cake than it had, but very few crumbs remain from a generous leftover.

The next article will deal with the liberal, almost extravagant, support given by the state, through the influence of Senator Huey P. Long, to the Louisiana State university, a support greater than that afforded all other higher educational institutions combined, including the schools for the deaf and blind at Baton Rouge. Because of this unusual and extraordinary aid, the university suffered little in comparison with the public schools of the state which, like the university, are primarily supported by direct taxation. The article will reveal some of the ways in which the university funds were expended.

JUNE MOON! Was ever a moon as silvery as this June moon, mirrored in the pools of countless Monroe gardens. . . Perhaps it seems more beautiful because we are now watching it from our garden spot. . . Yes, indeed, these are nights to commune with. . . a pleasant coolness creeps up from the river dispelling the hot air of the day. . . the voices of the night are heard. . . the lilies floating on the surface of our pools close their petals and slumber serenely in the mellow moonlight. . . the moon sinks behind the trees and the stars twinkle all the more brightly for its absence. . . we study the brilliant constellations from our comfortable garden chair, content to breathe in the fragrance of the night and let our mood slip easily into the spirit of wanderlust. . . the dawning becomes something worth while as our imagination takes the wings of fancy and embarks on a cruise of the "stay-at-home." . . quick as thought, we go humming along to the World fair in Chicago and in fancy we see the dancing waters of Lake Michigan and hear the sirens of the monster ships churning their way through the sparkling water to some distant land. . . we think of those long, golden days on shipboard, lulled to sleep by the assuring vibrations of the ship's powerful turbines. . . It is easy if we love the mountains to glimpse in fancy the snow-capped peaks and bend our ear to the tuneful melody of a mountain brook. . . We recline in our comfortable chair and decide that after all, for speed and economy, the trip we have just taken isn't at all a bad way to travel. . . at least it beats no trip at all. . . the only equipment one needs for this kind of a trip is a mental kitbag well stocked with imagination. . . Jack and Neola Rogers are speeding toward Chicago today. . . when they return you will be able to get first hand information about the World fair as they, we feel sure, will not miss a single important detail. . . Bernice Nichols and her daughter Hazel Wakefield, reached Chicago safely and almost immediately moved out to the Century of Progress where something is going on every minute, day and night. . . We do hope they visit the Brown Derby, a replica of Hollywood's famous restaurant where movie celebrities appeared on Friday night's program. . . Louise Kellogg, back from Chicago two weeks ago, decided she visited the fair too early and contemplates another visit during the summer. . . A card from the W. F. Cummings reminds us that they are once again looking forward to a summer of pure delight in the Wisconsin Dells. . . their summer home in Chetek has long been a mecca for friends who always find the latching on the outside. . . Lily Thompson, so beautiful, so fair and sweet has been chosen sponsor for Phi Kappa Eta chapter for the annual convention in Memphis. . . Her picture on today's social page scarcely does her justice. . . With graduation now ancient history and just one more dance recital on the calendar we are reminded that summer is winging along. . . did it strike you rather queer that not a single graduate said "Beyond the Alps Lies Italy"? . . that old stuff fellow classmates. . . Speaking of splendid addresses, Cary Thompson, valedictorian of St. Matthew's senior class, delivered a perfect gem on commencement night. . . He is following in the footsteps of his illustrious father, who, by the way, possesses a wonderful gift of oratory. . . If speech is the index of the mind then Cary, Jr., has a real future in store for him. . . We caught a glimpse of Mildred Cobb as she was motoring into the city from Baton Rouge. . . it was one of those nasty, hot days that makes your hair stick tight to your head in stray wisps and brings out beads of perspiration on a very shiny nose, yet Mildred was as beautiful and as cool as a woodland flower. . . her hair curled in tendrils around her white forehead and she maintained a freshness from the bath appearance even though she had danced all night, and spent the day motoring over a sun-drenched highway. . . we can only exclaim "how does she do it?" . . The mystery of a mid-summer night will be unfolded Thursday night in the beautiful gardens of Cherry Bernstein's home where the Garden club presents their pageant. . . first the twilight hour with fireflies flitting about the dusk. . . the first stars, and then the moonbeams obscured by fleecy clouds. . . the music of tinkling water dripping into the fountain where water nymphs in gauzy draperies come to life, will be a distinct feature of the evening. . . Regina Armandine and Roberta will appear as the water nymphs. . . This evening, when the shadows

Miss Parrino, Mr. Marsala Are Betrothed

At nine o'clock Wednesday morning, June 7, the marriage of Miss Rosalie Parrino of Bastrop and Mr. Vincent Marsala of this city was solemnized at a nuptial mass in the St. Joseph's Catholic church in Bastrop, the Rev. Father B. A. Scallan officiating.

Miss Earle Esly sang "I Love You Truly" after which the bridal party took their places before the altar to the strains of Lohengrin's Wedding March. The altar was beautifully banked with myriad Easter lilies. Beautiful blue hydrangeas arranged in blue baskets with long fronds of

feather ferns were placed at various points throughout the church.

Miss Matter Parrino, sister of the bride, the only attendant, was beautifully powdered in blue crepe with pink accessories and carried an arm bouquet of pink carnations.

The bride, entering on the arm of her brother, Mr. Frank Parrino, was lovely in white crepe and accessories to match. She carried a sheaf of call lilies.

Mr. Marsala has as his best man, his brother, Mr. Anthony Marsala. Messrs. Anthony Parrino and A. T. Ruzza served as ushers.

Throughout the impressive double rite ceremony a musical accompaniment was given. Miss Alkita Benavente of Houston, Texas, was at the organ.

Following the wedding ceremony the bridal party, Father Scallan and Miss Tina Collins enjoyed a breakfast at the home of the bride's sister, Mrs. A. T. Izuma, after which a reception was held at the home of the bride.

Mr. Marsala is a graduate of the St. Matthews high school and attended the University of Nebraska. Miss Parrino is a graduate of the Bastrop high school and of the Louisiana State Normal college.

After a wedding trip, Mr. and Mrs. Marsala will reside in Monroe.

Lovely Event For June Bride

An interesting event of last week was the announcement party arranged by Mrs. R. G. Odell and Mrs. R. L. Tugart in honor of Miss Jennie Martin of Ruston, La., whose wedding will take place next week.

The guests were welcomed in the reception suite banked with fragrant sweet peas and roses and presented with miniature suitcases to be filled with articles for the trousseau. A distinct feature of this charming affair was the miscellaneous shower arranged in a flower festooned clothes basket, carried aloft on the head of a negro maid. Among the gifts were noted articles of lingerie, silver crystal, china and a beautiful peach-colored satin quilt made by the groom's mother, Mrs. W. N. Reynolds, and a pastel shaded "tulip" quilt, made by Mrs. J. O. Hastings.

During the refreshment hour, luscious canapés, individual cakes and iced punch was served by the hostesses, assisted by Miss Eleona Brinsmade and Miss Louise Culpepper.

Of interest to their many friends will be the announcement of the marriage of Miss Clara Wilhite of West Monroe to Mr. Aubrey Culpepper, of Chatham, La., in the presence of the family and a few intimate friends at the home of the bride's mother, Mrs. Sanders Wilhite. Rev. I. L. Yeager officiated. Mr. and Mrs. Culpepper will reside at Chatham.

Miss Renaud Presents Class In Brilliant Dance Revue At the Neville Auditorium

A mystic garden scene featured the first part of Miss Armadine Renaud's dance revue at the Neville auditorium Thursday night with butterflies, roses, fairies, dew drops, evening shadows, star-light, evening stars and moonbeams all coming to life in the guise of beautiful children in glittering costumes.

Trees laden with blossoms formed the picturesque background for the children who gave perfectly splendid exhibitions of tap, acrobatic and interpretative dancing.

The second part featured the older pupils, all of whom wore beautiful costumes of sequins, pastel shaded chiffons, brocade, taffeta and shimmering beaded embroidery. Two acrobatic numbers, Chinese Jade, featured Margaret Mulhearn and a novelty number featuring Mary Wilba McKee, were without a doubt the best acrobatic work ever witnessed in this city. Both performers responded to repeated curtain calls.

The second part was a triumph of artistry with Irene Quinn Renaud and Theresa Turk as water nymphs in pastel colored draperies. They were the very essence of grace in their interpretative dance number. Miss Armadine Renaud, wearing misty blue chiffon draperies, gave a wonderful exhibition of bare foot dancing. Her appearance was greeted with enthusiastic applause from a most appreciative audience who fully realized that a gigantic task was here in presenting these young students of the dance in a program that would do justice to professionals.

Marriage of Miss Louise Theus and Mr. Frank Cook at home of Judge and Mrs. J. C. Theus, 8 p. m.

Mrs. William R. Cook and Miss Ruth Wilder of Chatham were the charming hostesses on Saturday afternoon honoring Miss Jennie Martin of Ruston, who for the past few years has been an instructor of Latin-English in the Chatham high school.

A delightful feature, "The Man-in-the-Moon," was developed in artistic detail. Golden browns and yellows were also reflected in the exquisite lilies and other blossoms arranged throughout the reception suite, and in the dainty refreshments.

An enjoyable heart game was interrupted by the arrival of a fortune teller who promised the honoree, a bride-to-be of the month, much happiness in the near future. As an immediate fulfillment of the prophecy, chimes called her to untold treasures and such treasures as were found—handsome pewter, silver, crystal, linens, and a beautiful "Mountain Rose" novelty quilt.

Miss Helen Wright assisted the hostesses in the courtesies of the afternoon.

Miss Elizabeth Biedenharn arrived home from King-Smith studio, Washington, D. C., yesterday to spend the summer with her parents, Mr. and Mrs. Henry Biedenharn. Miss Biedenharn enjoyed a week's visit at the close of school as the house guest of Mrs. J. Owens and a classmate in Washington.

Miss Mary Elizabeth Carroll, daughter of C. C. Carroll, who is a student at Louisiana State Normal college, left Monday to attend the Y. W. C. A. convention in Blue Ridge, North Carolina.

Miss Carroll is a senior in the school and a member of the Alpha Sigma Alpha sorority, Dramatic club and the Purple jacket club, an honorary girls' organization. With her are two other students of the college, Miss Beth Ricks of Grand Cane and Miss Mildred Baird of Homer.

Miss Ann Scott continues to be the much feted guest of her sister, Mrs. Henry Biedenharn. Hostesses arranging lovely, informal fairs in her honor were Mrs. Edward Seymour, Mrs. James A. Noe, Mrs. Gordon Wright, Mrs. J. H. Trousdale, Mrs. Elmer Slagle, Mrs. E. T. Lamkin, Mrs. Harold Dixon.

Mrs. Guy Campbell, chairman, is whipping everything into shape for next week's activities of Junior Charity league members at which time they will have charge of sales at the Sherwin-Williams paint company. A most generous percentage will be paid them on all sales during the week, proceeds from which will be devoted to the work carried on in their baby clinic at St. Francis sanitarium. Mrs. James A. Noe, assisted by Mrs. Allan Sholars, will have charge of the city sales.

Sunday School to Hold Picnic for Members

From 100 to 125 persons of all ages enrolled in the Sunday school of the First Christian church, will enjoy the annual picnic today. They are to report with lunch baskets at the church on St. John street at 9:30 a. m., and after a short service, will be conveyed to Drew school, located on the Farmerville highway.

In a grove of trees there will be tables spread and the luncheon enjoyed.

Games will be played and other forms of recreation will be the order of the day. Miss Lucyle Godwin, director of recreation for the city of Monroe, is to be in charge of the recreational program.

News-Star--World Pattern

Kiddies, like posies, blossom out under sunny summer skies. Here are four little tots all dressed up in the cutest togs imaginable... and fully aware of the sensation they are causing. As to the togs... they're fussy and feminine, tailored and masculine, and yet Mother could easily put any one of them together in an afternoon. Capelets, a cape collar and some perky puffed sleeves for broad shoulders, gathers, flounces or pleats for animation... are the fashion tips she must know and wear. Dainty lawn, swiss, voile and dimity, gaily printed, make up beautifully and inexpensively. Sonny's suit is fashioned of broadcloth.

Pattern 2494—sizes 2, 4, 6, 8, 10. Size 4 2 1-4 yards 36 inch fabric. Pattern 2496—sizes 2, 4, 6, 8. Size 4 1 7-8 yards 36 inch fabric. Pattern 2642—sizes 2, 4, 6, 8. Size 4 2 3-4 yards 36 inch fabric 1-2 yard ribbon. Pattern 2643—sizes 2, 4, 6, 8. Size 4 2 1-2 yards 36 inch fabric, 1-4 yard contrasting. Clear, diagrammed cutting and sewing instructions included with each pattern. Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred), for each Anne Adams pattern. Strozzi Predicts Short Peach Crop This Year

That he will produce in his peach orchard this season approximately one-half of a normal crop, was the word Saturday of R. J. Strozzi, who lives on the Arkansas road.

Mr. Strozzi has 70 acres in this fruit of the choicest varieties. The earliest to ripen are Early Rose, of which he has four acres. The various other kinds are arranged so that all through the summer there will be a crop of peaches and even some late ones that will be ready for market in late September.

Mr. Strozzi said that the fact that only a partial crop will be realized is due to the cold weather and frosts that visited this section in February and March.

In all he has 32 varieties of peaches and is regarded as one of the best authorities in his line in northeast Louisiana.

MEDICAL GROUP MEETS

A general discussion by the doctors followed each paper. Proceeding the session a banquet was held.

ADRIAN BREWER ARRIVES HERE

Exhibition of Mr. Brewer's Paintings Attracts Monroe's Lover of Arts and Students

The presence in the city of Adrian Brewer, artist of national reputation, is creating considerable interest in cultural circles and proving a real inspiration to young students.

Mr. Brewer addressed members of the Sketch club on the subject of "Art" last Monday afternoon stating that the ability to draw a thing well is the first requisite for success in any field of art activity, commercial or otherwise. No natural previous training is necessary, he said, for entering an art school. A natural liking for drawing is the chief indication for talent and its development rests with the individual as well as with the instructor.

Mr. Brewer believes that the student's own style of expression should be encouraged along certain broad and general lines and that a teacher's business is to guide and develop rather than to encourage imitation. "Great art," he said, "is above schools or creeds. My aim is to give students technical ability to express their own individuality without undue influence from my instruction."

Mr. Brewer for three years was instructor of drawing and painting at the Art Institute, Minneapolis and St. Paul.

The Biographical director of "Who's Who in Art," published by the American Federation of Art in Washington, D. C., lists his work and awards as follows: "Awards" bronze medal, St. Paul institute, 1917; first medal for oils, Northwest Artists' exhibition, 1918; second prize, Minnesota State Art commission 1919; first Edgar B. Davis prize (\$2,500), national exhibition, White museum, 1928; Waco Cotton Palace prize, Texas, 1929; first prize for oils, San Angelo association, Texas, 1929. Work: "In a Bluebonnet Year," Lotus club, New York; portrait of Senator Joe T. Robinson, state capitol, Little Rock, Ark. "Flood Waters," Alexandria hotel, Chicago, Ill.; "Flower of Texas," Cowan collection, Aurora, Ill.; "Ozark Valley in Autumn," Municipal Art gallery, Little Rock, Ark.; "Sycamore Trees," Beaumont Reading club, Beaumont, Texas.

Murder at Bridge

© 1930 by NEA SERVICE, INC.

CHAPTER VII
"Shame on you, Bonnie Dundee!" cried Penny Crain, her small fists clinched belligerently. "Death hand, indeed! You talk like a New York tabloid! And if you don't understand that all of us have stood pretty near as much as we can without having to play the hand at bridge—the very hand we played while Nita was being murdered, then you haven't the decency and human feelings I've credited you with—and told my friends here you have!"

A murmur of indignant approval accompanied her tirade and buzzed on for a moment after she had finished, but it ceased abruptly as Dundee spoke:

"Who's conducting this investigation, Penny Crain—you or I? You will kindly let me do it in my own fashion, and try to be content when I tell you that, in my humble opinion, what I propose is absolutely necessary to the solution of this case!"

Bickering—Dundee grinned to himself—exactly as if they had known each other always, had quarreled and made up with fierce intensity for years.

"Really," Mr. Dundee, Judge Hugo Marshall began pompously, embracing his young wife protectively, "I must say that I agree with Miss Crain. This is an outrage, sir—an outrage to all of us, and particularly to this frail little wife of mine, already half-hysterical over the ordeal she has endured."

"Take your places!" Dundee ordered curtly. After all, there was a limit to the careful courtesy one must show to Hamilton's inmost circle of society.

Penny led the way to the bridge tables, the very waves of her brown bob seeming to bristle with futile anger. But she obeyed, Dundee exulted. The way to tame this blessed little shrew had been solved by old Bill Shakespeare centuries ago.

As the women took their places at the two places, arguing a bit among themselves, with semi-hysterical edges to their voices, Dundee watched the men, but all of them, with the exception of Dexter Sprague, that typical son of Broadway, as out of place in this company, had managed at least a fine surface control, their lips tight, their eyes hard, narrowed and watchful. Sprague slumped into a vacated chair and closed his eyes, revealing finely-wrinkled, yellowish lids.

"Where shall we begin?" Polly Beale demanded brusquely. "Remember, this table had finished playing when Karen began to deal what you call the 'death hand.' This reminded me scornfully. And Flora wasn't here at all—she had been dunny for our last hand."

"And had lots out to telephone," Dundee interrupted. "Mrs. Miles, will you please leave the room, and return exactly when you deal that return or as nearly so as you can remember."

Dundee was sure that Mrs. Miles' sallow face took on a grayish tinge as she staggered to her feet and wound an uncertain way toward the hall. Tracey Miles sprang to his wife's assistance, but Sergeant Turner took it upon himself to lay a detaining hand on the too-anxious husband's arm, with no more than the grating of an eyebrow. Dundee made Captain Strawn understand that Flora Miles' movements were to be kept under strict observation, and the chief of the homicide squad as unobtrusively conveyed the order to a plainclothesman loitering interestedly in the wide doorway.

"Now," he was answering Polly Beale's question, "I should like the remaining three of you to behave exactly as you did when your last hand was finished. Did you keep individual score, as is customary in contract—or were you playing auction?"

"Contract," Polly Beale answered curtly. "And when we're playing among ourselves like this, one at each table is usually elected to keep score. Janet was score keeper for us this afternoon, but we all waited, after our last hand was played, for Janet to give us the result for our tally cards."

Dundee drew near the table, picked up the three tally cards—ornamental little affairs, and rather expensive—glanced over the points recorded, then asked abruptly:

"Where is Mrs. Miles' tally? I don't see it here."

There was no answer to be had, so he let the matter drop temporarily, though his shorthand notebook received another deeply underlined series of pothooks.

"Go on, please, at both tables," Dundee commanded. "Your table—" he nodded toward Penny, who was already over her flare of temper, "will please select the cards each held at the conclusion of Mrs. Marshall's deal."

"Oooh, I'd never remember all my cards in the world," Carolyn Drake wailed. "I know I had five clubs—ace, king, queen—"

"You had the jack, not the queen, for I held it myself," Penny contradicted her crisply.

"Until this matter of who held which cards after Mrs. Marshall's deal is settled, I shall have to ask you all

to remain as you are now," Dundee said to the players seated at the other table.

At last it was threshed out, largely between Penny Crain and Karen Marshall, the latter proving to have

now! She tucked her head, considered her cards, laughed a little breathless note, then cried triumphantly:

"And I say—five spades! What do you think of that, partner?" Then the girl who was giving an

"Double!" Then, still acting the role she had played in earnest that afternoon, she explained importantly: "I always double a little slam on principle!"

Penny, in the role of Nita, redoubled with an exultant laugh, then as her-

"Let's see your hand, partner," Karen quavered.

a better memory than Dundee had expected. At last even Carolyn Drake's fussiness was satisfied, or trampled down.

Both Judge Marshall and John Drake started forward to inspect the cards, which none of the players was trying to conceal, but Dundee waved them back.

"Please—I want you men, all of you, to take your places outside, and return to this room in the order of your arrival this afternoon. Try to imagine that it is now—if I can trust Mr. Miles' apparently excellent memory—exactly 5:25."

"Pretty hard to do, considering it's now a quarter past seven and there's no dinner in sight," Tracey Miles grumbled, then brightened. "I can come right back in then—at 5:27, can't I?"

That point settled, and the men sent away, to be watched by several pairs of apparently indolent police eyes, Dundee turned to the bridge table. Nita's leaving of which had provided her murderer with opportunity.

"The cards are dealt," Penny reminded him.

"Now I want you other three to scatter exactly as you did before," Dundee commanded, hurry and excitement in his voice.

Low rumbling rose, laid down next tally card, and strolled over to the remaining table. After a moment's hesitation, Polly Beale strode manfully into the room, straight into the hall. Dundee, watching as the bridge players certainly had not been earlier that afternoon, was amazed to see Clive Hammond beckoning to her from the open door of the solarium.

So Clive Hammond had arrived ahead of Tracey Miles! Had some, how entered the solarium unnoticed, and had managed to beckon to his fiancée to join him there! Pearls—? And why had Clive Hammond failed to enter and greet his hostess first? Moreover, how had he entered the solarium?

But things were happening in the living room. Janet Raymond, flushing so that her sunburned face out-did her red hair for vividness, was slowly leaving the room also. Through a window opening upon the wide front porch, Dundee saw the girl take her position against a pillar, then a thing she had not done before this very probably—press her handkerchief to her trembling lips.

But the bidding was going on, Karen Marshall piping up in her treble voice:

"Two spades." Dundee took his place behind her chair, then silently beckoned to Penny to shift from her own chair opposite Carolyn Drake to the chair Nita Selim had left to go to her death. She nodded understandingly.

"Challenge!" quavered Carolyn Drake, next on the left to the dealer and managed to raise her eyebrows meaningfully to Penny, her partner, who had not yet changed places.

Penny, throwing herself into the spirit of the thing, scowled warningly. No exchanging of illicit signals for Penny Crain! But the instant she slipped into Nita Selim's chair her whole face and body took on a different manner, underwent almost a physical change. She was Nita Selim!

TO SPONSOR L. S. U. CONFERENCE SOON

Meeting to Be Held Under Auspices of Political Science Group

BATON ROUGE, La., June 10.—(Special)—For the second time within a year, the American Political Science association is to sponsor a conference on social and civic matters at the Louisiana State university, the second to be held June 25, 26, and 27, it is announced by President Smith of the university. The first of these conferences, held last December, dealt with "Local Government and Taxation"; the one to be held this month is to consider "Citizenship and Civic Study." All expense for the conference, to be participated in by delegates from four states, will be borne by the national political science association, Dr. Smith states.

Outstanding among the speakers who will address the conference is Peter Molyneux of Dallas, Texas, editor of the Texas Weekly and a nationally known economist. Mr. Molyneux is a former Louisianian and was one of the most interesting speakers who addressed the recent meeting of the Louisiana Press association in Monroe.

The conference theme will be "The Teaching of Civics in Public Schools," and the conference aim is to survey the existing conditions with regard to the teaching of civics in Arkansas, Alabama, Mississippi, and Louisiana with a view to improving and strengthening the courses taught in the high schools of the state, according to President Smith.

The conference personnel includes the heads of the four state departments of education in Alabama, Mississippi, Louisiana, and Arkansas; the high school and elementary supervisors of each of the four states; the heads of the teacher-training department of each teachers college in each of the states, all of whom are expected to take an active part in the discussions, it is explained. A number of high school, college and university teachers also will be present.

Invitations have been issued to parish superintendents of education and to high school principals to participate in the conference.

Dean Charles W. Pipkin of the L. S. U. graduate school is secretary of the conference.

Cast of Musical Comedy Is Being Selected Here

Selection of the cast for "42nd Street to Harlem" is being made by Harry English and Mrs. Louise Harberson, directors of this musical comedy which is to be presented in the Ouachita Parish High school auditorium Thursday evening, June 29. Capable local talent is to be used in staging the production, which calls for nearly 100 singers, dancers and actors, and already about half that number has been signed up.

The program, according to press reports from other cities, promises to be a brilliant and entertaining affair and will feature many radio and stage stars from out of town, a chorus of 20 beautiful girls, a quartette, comedians, dancers, vocal ensembles and 15 tiny tots in a wedding scene. The piece is colorful, modern and rhythmic, elaborately costumed and with a 10-piece stage band. The program is being sponsored by the Women's Benefit association of Monroe, which is offering a trip to the World's fair in Chicago as first prize in a "Miss Monroe" contest being held in connection with the production. Headquarters are established at the Royal confectionery.

Senator Noe to Entertain Boy Scouts of 2 Cities

Scouts of Monroe and West Monroe will be entertained by Senator James A. Noe tomorrow evening. Senator Noe has arranged a trip up the Ouachita river for the scouts on his boat, "Noe's Ark," leaving Cooley's landing at 5:30 p. m.

It is expected that approximately 125 scouts will make the trip and Senator Noe will have the assistance of Capt. Cooley, Barney Oakland, Eugene Flournoy and Hugh Lennon, who will have their boats on hand to take care of a part of this group of boys.

The plans include a swim and campfire program at some point along the river. All scout troops will be under the leadership of their scoutmasters.

Strozier Predicts Short Peach Crop This Year

That he will produce in his peach orchard this season approximately one-half of a normal crop, was the word Saturday of R. J. Strozier, who lives on the Arkansas road.

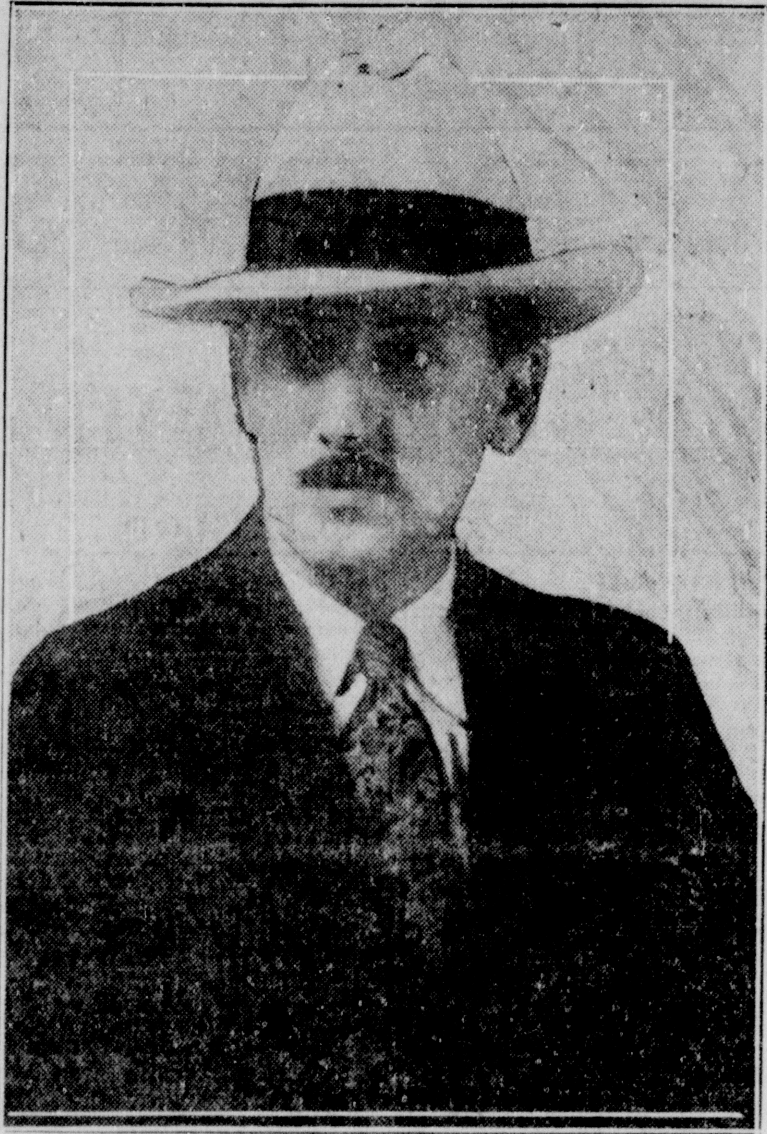

Mr. Strozier has 70 acres in this fruit of the choicest varieties. The earliest to ripen are Early Rose, of which he has four acres. The various other kinds are arranged so that all through the summer there will be a crop of peaches and even some late ones that will be ready for market in late September.

Mr. Strozier said that the fact that only a partial crop will be realized is due to the cold weather and frosts that visited this section in February and March.

In all he has 32 varieties of peaches and is regarded as one of the best authorities in his line in northeast Louisiana.

MEDICAL GROUP MEETS
TALLULAH, La., June 10.—(Special)—The Tri-Parish Medical association, composed of the physicians of East Carroll, West Carroll and Madison parishes, met at the courthouse here this week with the president, Dr. W. H. Hamley of Lake Providence, presiding. Dr. B. F. Ferguson of Tensas read a paper on "Diseases of the Prostate Gland" and Dr. John Kelly of Oak Grove on "Otitis Media." A general discussion by the doctors followed each paper. Preceding the session a banquet was held.

ADRIAN BREWER ARRIVES HERE

Exhibition of Mr. Brewer's Paintings Attracts Monroe's Lover of Arts and Students

The presence in the city of Adrian Brewer, artist of national reputation, is creating considerable interest in cultural circles and proving a real inspiration to young students.

Mr. Brewer addressed members of the Sketch club on the subject of "Art" last Monday afternoon stating that the ability to draw a thing well is the first requisite for success in any field of art activity, commercial or otherwise. No natural previous training is necessary, he said, for entering an art school. A natural liking for drawing is the chief indication for talent and its development rests with the individual as well as with the instructor.

Mr. Brewer believes that the student's own style of expression should be encouraged along certain broad and general lines and that a teacher's business is to guide and develop rather than to encourage imitation. "Great art," he said, "is above schools or creeds. My aim is to give students technical ability to express their own individuality without undue influence from my instruction."

Mr. Brewer for three years was instructor of drawing and painting at the Art Institute, Minneapolis and St. Paul.

The Biographical director of "Who's Who in Art," published by the American Federation of Art in Washington, D. C., lists his work and awards as follows: "Awards; bronze medal, St. Paul institute, 1917; first medal for oils, Northwest Artists' exhibition, 1918; second prize, Minnesota State Art commission, 1919; first Edgar B. Davis prize (\$2,500), national competition, Witte museum, 1928; Waco Cotton Palace prize, Texas, 1929; first prize for oils, San Angelo association, Texas, 1929. Work: "In a Bluebonnet Year," Lotus club, New York; portrait of Senator Joe T. Robinson, state capitol, Little Rock, Ark. "Flood Waters," Alexandria hotel, Chicago, Ill.; "Flower of Texas," Cowan collection, Aurora, Ill.; "Ozark Valley in Autumn," Municipal Art gallery, Little Rock, Ark.; "Sycamore Trees," Beaumont Reading club, Beaumont, Texas.

Work of Dairy Group Is Proving Satisfactory

Satisfaction with the result of the work accomplished by the recently formed Ouachita Dairy Dealers association, which aims at the stabilization of the price of milk and the observance by its members of all sanitary standards required by law in the production of dairy products, was voiced Friday evening at the second meeting of the association, held at the Monroe hotel, at which Dr. Irvin Ward-Steinman of Alexandria, who was instrumental in the formation of the new group, was present.

That the public has responded well to the efforts of the dairymen to standardize this branch of industry locally, was the opinion of Dr. Ward-Steinman and other members attending the meeting. It was pointed out that the association has for its object to insure to the public the highest quality product, and every effort is to be made among the members to meet the requirements as set forth by the local health office and to cooperate with that body.

Dr. Ward-Steinman stated that the charter of the new organization had been approved by the secretary of state for Louisiana and that the association could now carry out its work.

Cast of Musical Comedy Is Being Selected Here

Selection of the cast for "42nd Street to Harlem" is being made by Harry English and Mrs. Louise Harbison, directors of this musical comedy which is to be presented in the Ouachita Parish High school auditorium Thursday evening, June 29. Capable local talent is to be used in staging the production, which calls for nearly 100 singers, dancers and actors, and already about half that number has been signed up.

The program, according to press reports from other cities, promises to be a brilliant and entertaining affair and will feature many radio and stage stars from out of town, a chorus of 20 beautiful girls, a quartette, comedians, dancers, vocal ensembles and 15 tiny tots in a wedding scene. The piece is colorful, modern and rhythmic, elaborately costumed and with a 10-piece stage band. The program is being sponsored by the Women's Benefit association of Monroe, which is offering a trip to the World's fair in Chicago as first prize in a "Miss Monroe" contest being held in connection with the production. Headquarters are established at the Royal confectionery.

Senator Noe to Entertain Boy Scouts of 2 Cities

Scouts of Monroe and West Monroe will be entertained by Senator James A. Noe tomorrow evening. Senator Noe has arranged a trip up the Ouachita river for the scouts on his boat, "Noe's Ark," leaving Cooley's landing at 5:30 p. m.

It is expected that approximately 125 scouts will make the trip and Senator Noe will have the assistance of Capt. Cooley, Barney Oakland, Eugene Flournoy and Hugh Lennon, who will have their boats on hand to take care of a part of this group of boys.

The plans include a swim and campfire program at some point along the river. All scout troops will be under the leadership of their scoutmasters.

Murder at Bridge

CHAPTER VII
"Shame on you, Bonnie Dundee!" cried Penny Crain, her small fists clinched belligerently. "Death hand, indeed! You talk like a New York tabloid! And if you don't understand that all of us have stood pretty near as much as we can without having to play the hand at bridge—the very hand we played while Nita was being murdered, then you haven't the decency and human feelings I've credited you with—and told my friends here you have!"

A murmur of indignant approval accompanied her tirade and buzzed on for a moment after she had finished, but it ceased abruptly as Dundee spoke:

"Who's conducting this investigation, Penny Crain—you or I? You will kindly let me do it in my own fashion, and try to be content when I tell you that, in my humble opinion, what I propose is absolutely necessary to the solution of this case!"

Bickering—Dundee grinned to himself—exactly as if they had known each other always, had quarreled and made up with fierce intensity for years.

"Really," Mr. Dundee, Judge Hugo Marshall began pompously, embracing his young wife protectingly, "I must say that I agree with Miss Crain. This is an outrage, sir—an outrage to all of us, and particularly to this frail little wife of mine, already half-hysterical over the ordeal she has endured."

"Take your places!" Dundee ordered curtly. After all, there was a limit to the careful courtesy one must show to Hamilton's inmost circle of society.

Penny led the way to the bridge tables, the very waves of her brown bob seeming to bristle with futile anger. But she obeyed, Dundee exulted. The way to tame this blessed little shrew had been solved by old Bill Shakespeare centuries ago.

As the women took their places at the two tables, arguing a bit among themselves, with semi-hysterical edges to their voices, Dundee watched the men, but all of them, with the exception of Dexter Sprague, that typical son of Broadway, so out of place in this company, had managed at least a fine surface control, their lips tight, their eyes hard, narrowed and watchful. Sprague slumped into a vacated chair and closed his eyes, revealing finely-wrinkled, yellowish lids.

"Where shall we begin?" Polly Beale demanded brusquely. "Remember, this table had finished playing when Karen began to deal what you call the 'death hand,'" she reminded him scornfully. "And Flora wasn't here at all—she had been dummy for our last hand—"

"And had gone out to telephone," Dundee interrupted. "Mrs. Miles, will you please leave the room, and return exactly when you did return—or as nearly so as you can remember."

Dundee was sure that Mrs. Miles' sallow face took on a grayish tint as she staggered to her feet and wound an uncertain way toward the hall. Tracey Miles sprang to his wife's assistance, but Sergeant Turner took it upon himself to lay a detaining hand on the too-anxious husband's arm.

With no more than the lifting of an eyebrow, Dundee made Captain Strawn understand that Flora Miles' movements were to be kept under strict observation, and the chief of the homicide squad as unobtrusively conveyed the order to a plainclothesman loitering interestedly in the wide doorway.

"Now," he was answering Polly Beale's question, "I should like the remaining three of you to behave exactly as you did when your last hand was finished. Did you keep individual score, as is customary in contract?—or were you playing auction?"

"Contract," Polly Beale answered curtly. "And when we're playing among ourselves like this, one at each table is usually elected to keep score. Janet was score keeper for us this afternoon, but we all waited, after our last hand was played, for Janet to give us the result for our tally cards."

Dundee drew near the table, picked up the three tally cards—ornamental little affairs, and rather expensive—glanced over the points recorded, then asked abruptly:

"Where is Mrs. Miles' tally? I don't see it here."

There was no answer to be had, so he let the matter drop temporarily, though his shorthand notebook received another deeply underlined series of notations.

"Go on, please, at both tables," Dundee commanded. "Your table—" he nodded toward Penny, who was already over her flare of temper, "will please select the cards each held at the conclusion of Mrs. Marshall's deal."

"Oooh, I'd never remember all my cards in the world," Carolyn Drake wailed. "I know I had five clubs—ace, king, queen—"

"You had the jack, not the queen, for I held it myself," Penny cried, dictating her crisply.

"Until this matter of who held which cards after Mrs. Marshall's deal is settled, I shall have to ask you to remain as you are now," Dundee said to the players seated at the other table.

At last it was threshed out, largely between Penny Crain and Karen Marshall, the latter proving to have

now! She tucked her head, considered her cards, laughed a little breathless note, then cried triumphantly:

"And I say—five spades! What do you think of that, partner?"

Then the girl who was giving an amazing imitation of Nita Selim changed as suddenly into her own character as she changed chairs.

"Nita, I don't think it's quite bridge to be so jubilant about the strength of your hand," she said in her firm, husky voice. "I pass."

Karen Marshall pretended to study her hand for a frowning instant, then, under Penny's spell, announced in a firm treble:

"Six spades!"

Carolyn Drake flushed and looked uneasily toward Penny, a bit of hy-play which Dundee could see had not figured in the original game. Then she bridled and shifted her plump body in her chair, as she must have done before.

Three Negroes Held For Prohi Violations

Three negroes were being held in the parish jail Saturday night on charges of violating the national prohibition act, as a result of raids made late Friday and Saturday by federal agents and members of the sheriff's department. Those held were Burrell Johnson, Arthur Parker and George Minneweather.

Johnson was taken into custody Friday when officers raided a whisky still in the woods between the Mill-haven and Winsboro roads. A 50-gallon still was seized and about 600 gallons of mash was destroyed. Bond was fixed at \$750, but had not been provided.

The two other negroes were arrested Saturday when five gallons of whisky was found in their automobile. Officers seized the automobile and probably will sell it at auction, as is customary when vehicles are seized by federal officers for the transportation of whisky.

TO SPONSOR L. S. U. CONFERENCE SOON

Meeting to Be Held Under Auspices of Political Science Group

BATON ROUGE, La., June 10.—(Special)—For the second time within a year, the American Political Science association is to sponsor a conference on social and civic matters at the Louisiana State university, the second to be held June 25, 26, and 27, it is announced by President Smith of the university. The first of these conferences, held last December, dealt with "Local Government and Taxation"; the one to be held this month is to consider "Citizenship and Civic Study." All expense for the conference, to be participated in by delegates from four states, will be borne by the national political science association, Dr. Smith states.

Outstanding among the speakers who will address the conference is Peter Molyneux of Dallas, Texas, editor of the Texas Weekly and nationally known economist. Mr. Molyneux is a former Louisianian and was one of the most interesting speakers who addressed the recent meeting of the Louisiana Press association in Monroe.

The conference theme will be "The Teaching of Civics in Public Schools," and the conference aim is to survey the existing conditions with regard to the teaching of civics in Arkansas, Alabama, Mississippi, and Louisiana with a view to improving and strengthening the courses taught in the high schools of the state, according to President Smith.

The conference personnel includes the heads of the four state departments of education in Alabama, Mississippi, Louisiana, and Arkansas; the high school and elementary supervisors of each of the four states, the heads of the teacher-training department of each teachers college in each of the states, all of whom are expected to take an active part in the discussions, it is explained. A number of high school, college and university teachers also will be present.

Invitations have been issued to parish superintendents of education and to high school principals to participate in the conference.

Dean Charles W. Pipkin of the L. S. U. graduate school is secretary of the conference.

GOODMAN WINS OPEN GOLF TITLE BY ONE STROKE

GULDAHL'S RALLY FAILS TO CATCH OMAHA AMATEUR

Goodman Survives Sudden Slump to Post Winning Score of 287

By Alan Gould
(Associated Press Sports Writer)
NORTH SHORE GOLF CLUB, GLENVIEW, Ill., June 10.—(AP)—By the slim margin of a single stroke and a missed four-foot putt on the home green by his one-time partner, Johnny Goodman, 23-year-old amateur, "giant killer," of Omaha, Neb., today climbed on top of the golfing world as the new open champion of the United States.

After a phenomenal outburst of shot-making skill that at one dazzling juncture this afternoon threatened to explode all existing open championship records, Goodman survived a sudden and dangerous slump with just enough of his previously loopy-sided margin to stave off the closing rush of Ralph Guldaul, sensational 21-year-old professional of the St. Louis Country club.

Goodman finished the 72-hole championship struggle with rounds of 75-66-76 for a total of 287 that fell only one stroke short of the all-time championship record. Guldaul, six strokes behind at the outset of the last 36 holes, and nine behind with only 15 to go, rallied superbly to take second place with 76-71-70-72-288.

Guldaul's dramatic closing challenge was the only thing that saved the tournament from being turned into a rout. He picked up seven strokes on six holes as he reached the last green in 35. He needed another 35 to tie Goodman but he missed a three-foot putt on the 19th to waste the first of his last big opportunities and he failed, finally, to get down a four-foot putt on the 18th green after a remarkable recovery from a trap.

It was a close call for the Nebraska "game cock," after he had all but shot the tournament to pieces by taking a six-stroke lead and then opened fire on the last round with a 4-2-2, including an eagle and a birdie. But he pulled himself together after a six-hole debacle to shoot the closing nine within a single stroke of par. He proved he was as game as they came, under pressure. He emerged with a big grin from a cordon of shrieking spectators, after Guldaul's finish, to accept the championship cup and gold medal, while the top prize money of \$1,000 went to his youthful St. Louis rival.

Today's spectacular victory for Johnny Goodman brought to a climax the career of a struggling youth who set out, the golfing David, to take a few healthy wallops at the Goliaths of the game and finally succeeded, beyond the wildest hopes of his participants, after five months' combat.

Four years ago, at Public Beach, officials debated whether Johnny's amateur standing was jeopardized by his part-time work in a sporting goods store, decided finally in his favor, and then saw him flash to fame by beating Bob Jones in the first round of the national amateur championships. That same year he made his first start on the national tour and finished with 118, at Winged Foot, while Jones' 114, at the same place, was a play-off for the title.

Less than a year ago Goodman's record wasn't considered impressive enough to give him a place on the American Varsity cup team. That was before he finished as low amateur in the open tour for 1931. Subsequently he soundly whipped a field of 26 in the Walker cup, including Capt. Quimet and reached the finals of the national amateur, losing to Ross Somerville of Canada.

Weighing 200 pounds heavier and, by his own frank admission, hitting a much longer ball than ever, Goodman sailed into this tournament cheerful of confidence and primed for the "killing" of his career. They didn't mention his name seriously in the pre-tournament speculation. Professional betting men stamped him a 20-1 shot in a field of 150 of the greatest shot makers in America, led by the double champion, Gene Sarazen.

GIANTS WIN 5-2 AND REGAIN LEAD

Terry's Wrecking Crew
Beats Phils While
Cards Are Losing

GIANTS CONTINUED their winning ways at the expense of the Phillies today and regained first place in the National league, going a half game ahead of the St. Louis Cardinals by defeating the last-place club 5 to 2.

One inning was all Bill Terry's wrecking crew needed to win its ninth triumph in ten starts against the Phils.

Johnny Vergez smacked a drive against the upper deck of the left field stands for a home run in the first inning.

The Phils scored both their runs in the second on singles by Pinky Whitney and Hal Lee, a walk and an error by Critz that let the first two runners score.

LOCAL GOLFERS GO TO CROSSETT

Many Players Meet At Kansas Club in Inter-City Match Today

Approximately 25 players of the Municipal Golf club will go to Crossett, Ark., this morning for an inter-city golf match with members of the Crossett Country club. It will be the first meeting between the two clubs.

The match will start at 1:30 o'clock this afternoon. However, several local players will leave for Crossett early this morning to play a practice round of nine holes before the match proper begins.

In the feature match of the event, Lund Harper and Tilden Austin will play the Crossett pro and the leading amateur, Jimmie Harper will be to have played with the Munro pro but will be unable to complete because of an arm injury suffered in an automobile accident Friday.

Following are the Municipal pairs:
Dr. R. T. Harberson and R. B. Wofford, L. E. Ducote and L. R. McDonald, Fred Majors and E. T. Hance, H. M. Manning and F. V. Allison, D. S. Rick and W. A. Guy, C. C. McAuliffe and C. C. Hensell, Dr. T. A. Brulte and Jordan Barton, J. D. Dillard and R. R. Barfield, Jessie James and H. T. Taylor, and W. C. Johnson. Several other many players also are expected to make the trip.

A return match will be played over the Munro course in the near future, Harper said.

Hughes and Ledsinger Win Mississippi Title

JACKSON, Miss., June 10.—(AP)—Beaten for the chance to defend his singles crown, Billy Hughes of Memphis, today won the doubles title in the Mississippi open tennis tournament in company with a fellow-Memphian, Charles Ledsinger.

The doubles finals were just a breeze for Hughes and Ledsinger, the Blue City pair overwhelming a pair of crack junior players, John Noblin of Jackson and John Graeber, Yazoo City, in straight sets by scores of 6-1, 6-1.

Hughes was eliminated in the singles semi-finals by young Ramsey Potts of Memphis, who clashes Sunday with Clay Miller of Jackson for the championship long worn by Hughes.

FERRIDAY PLAYS WISNER

The Ferriday Black Cats have a contest scheduled for Sunday with the Wisner Senators. The game is set to be played on the local Fisher field.

Ferriday was a close 1 to 0 contest from the Vidalia Tigers at Ferriday last Sunday in one of the best games seen in Concordia parish in years.

JOE E. BROWN opens his MOUTH

By Joe E. Brown
(Movie comedian, ex-ball player and part owner of the Kansas City Blues, "Elmer the Great," plays at the Capitol today and Monday.)

Along about 1909 or 1910 the Cubs took a big raw-boned catcher to the training camp with them. He was Ring Lardner's Elmer come to life.

He had led the South Atlantic League in hitting the previous year and had been given a diamond ring by the league as the most valuable player. He thought every one in the U. S. A. had heard of him.

In an exhibition game in Chattanooga—score tied—he was sitting on the end of the bench eating peanuts. Frank Chance turned to our hero and said: "Get a bat and hit for Lundgren; Archer is up first."

"I'll do her, Frank," the rookie answered as he jumped up and started to paw over the bats.

Archer singled as Elmer started for the plate. Chance called him back and told him to lay it down.

"Whatta yuh say, Frank," he asked when Frank made it clear that he wanted him to punt he could hardly believe Chance wasn't joking, but finally said, "Oh, all right, you're the manager," then walked up to the plate, pushed his bat at the first ball pitched and popped a fly back of second base which was caught by the shortstop.

The big man from the bushes came striding back to the bench, threw his hat on the floor and raising his voice so every one in the park could hear him, cried:

"Never again, never again will I change a three-base hit for a poppy up."

ATHLETICS BEAT YANKEES TWICE

Eight Home Runs Feature A's Twin Victory, 9 to 5 and 8 to 7

PHILADELPHIA, June 10.—(AP)—The Athletics beat a thorough job of shattering the New York Yankees jinx today by winning both games of a double header.

From the world champions, 9 to 5 and 8 to 7, to a capacity crowd of 35,000, largest of the season. The triumph sent the A's into third place ahead of the defeated Chicago White Sox.

Even Babe Ruth's 12th and 14th home runs of the season and Lefty Grove's stunt of fanning five times to equal the major league record of batting futilely couldn't stop the A's in the first game as Pinky Higgins smacked a four-bagger with two on base in the eighth to clinch the game.

Five more homers, including Jimmy Fox's thirteenth of the year and two by Arndt Jorgens, Yankee catcher, marked the second game. Philadelphia won this contest in the ninth when Bing Miller hit Lefty Grove for a pinch single, Roger Cramer walked and Ed Coleman brought them both in with a single after they had advanced on B. J. Johnson's sacrifice. Jorgens' first homer was made with the bases full.

GOODMAN WINS OPEN GOLF TITLE BY ONE STROKE

GULDAHL'S RALLY FAILS TO CATCH OMAHA AMATEUR

Goodman Survives Sudden Slump to Post Winning Score of 287

By Alan Gould
(Associated Press Sports Writer)
NORTH SHORE GOLF CLUB, GLENVIEW, Ill., June 10.—(P)—By the slim margin of a single stroke and a missed four-foot putt on the home green by his one close pursuer, Johnny Goodman, 23-year-old amateur "giant killer," of Omaha, Neb., today climbed on top of the golfing world as the new open champion of the United States.

After a phenomenal outburst of shot-making skill that at one dazzling juncture this afternoon threatened to explode all existing open championship records, Goodman survived a sudden and dangerous slump with just enough of his previously lopsided margin to stave off the closing rush of Ralph Gulda, sensational 21-year-old professional of the St. Louis Country club.

Goodman finished the 72-hole championship struggle with rounds of 75-66-76 for a total of 287 that fell only one stroke short of the all-time championship record. Gulda, six strokes behind at the outset of the last 36 holes, and nine behind with only 15 to go, rallied superbly to take second place with 76-71-70-288.

Gulda's dramatic closing challenge was the only thing that saved the tournament from being turned into a rout. He picked up seven strokes on six holes as he reached the last turn in 35. He needed another 35 to tie Goodman but he missed a three-foot putt on the 18th to waste the first of his last big opportunities and he failed, finally, to get down a four-foot putt on the 18th green after a remarkable recovery from a trap.

It was a close call for the Nebraska "game cock," after he had all but shot the tournament to pieces by taking a six-stroke lead and then opened fire on the last round with a 4-3-2, including an eagle and a birdie. But he pulled himself together after a six-hole debacle to shoot the closing nine within a single stroke of par. He proved he was as game as he came, under pressure. He emerged with a big grin from a cordon of khaki-clad marines, after Gulda's finish, to accept the championship cup and gold medal, while the top prize money of \$1,000 went to his youthful St. Louis rival.

Today's spectacular victory for Johnny Goodman brought to a climax the career of a struggling youth who set out, like a golfing David, to take a few healthy wallops at the Goliaths of the game and finally succeeded, beyond the fondest hopes of his patrons, after five meteoric seasons.

Four years ago, at Pebble Beach, officials debated whether Johnny's amateur standing was jeopardized by his part-time work in a sporting goods store, decided finally in his favor, and then saw him flash to fame by beating Bob Jones in the first round of the national amateur championships. That same year he made his first start in the national open and finished with 118, at Winged Foot, while Jones laughed Al Espinosa in a play-off for the title.

Less than a year ago Goodman's record wasn't considered impressive enough to give him a place on the American Walker cup team. That was before he finished as low amateur in the open, tied for 14th. Subsequently he soundly whipped a good share of the Walker cup stars, including Capt. Quimet and reached the finals of the national amateur, losing to Ross Somerville of Canada.

Weighing 30 pounds heavier and, by his own frank admission, hitting a much longer ball than ever, Goodman sailed into this tournament choofed of confidence and primed for the big "killing" of his career. They didn't mention his name seriously in the pre-tournament speculation. Professional betting men stamped him a 20-1 shot in a field of 150 of the greatest shot makers in America, led by the double champion, Gene Sarazen.

There wasn't in fact, much for Omaha and the Goodman marching and cheering section to root about after Johnny finished the first round in 75, seven strokes back of the seasoned, brilliant Tommy Armour, who had set a course record 68. From there on, the slim, hatless youth from the great American midlands was the whole show.

GIANTS WIN 5-2 AND REGAIN LEAD

Terry's Wrecking Crew
Beats Phils While
Cards Are Losing

NEW YORK, June 10.—(P)—The Giants continued their winning ways at the expense of the Phillies today and regained first place in the National league, going a half game ahead of the St. Louis Cardinals by defeating the last-place club, 5 to 2.

One inning was all Bill Terry's wrecking crew needed to win its ninth triumph in ten starts against the Phils. Johnny Vergez smacked a drive against the upper deck of the left field stands for a home run in the first inning.

The Phils scored both their runs in the second on singles by Pinky Whitney and Hal Lee, a walk and an error by Critz that let the first two runners score.

Muny Players Meet At Kansas Club in Inter-City Match Today

Approximately 25 players of the Municipal Golf club will go to Crossett, Ark., this morning for an inter-city golf match with members of the Crossett Country club. It will be the first meeting between the two clubs.

The match will start at 1:30 o'clock this afternoon. However, several local players will leave for Crossett early this morning to play a practice round of nine holes before the match proper begins.

In the feature match of the event, Lund Harper and Tilden Austin will play the Crossett pro and the leading amateur, Jimmie Harper, to have played with the Muny pro but will be unable to complete because of an arm injury suffered in an automobile accident Friday.

Following are the Municipal players: Dr. R. T. Harberson and R. B. Woford, L. E. Duote and L. R. McDonald, Fred Majors and E. T. Hance, H. M. Manning and F. V. Allison, D. S. Rick and W. A. Guy, C. C. McAllister and C. C. Hensell, Dr. T. A. Brulte and Jordan Barton, J. J. Dillard and R. R. Barfield, Jessie James and H. T. Taylor, and W. C. Johnson. Several other Muny players also are expected to make the trip.

A return match will be played over the Muny course in the near future, Harper said.

Hughes and Ledsinger
Win Mississippi Title

JACKSON, Miss., June 10.—(P)—Beaten for the chance to defend his singles crown, Billy Hughes of Memphis, today won the doubles title in the Mississippi open tennis tournament in company with a fellow-Memphian, Charles Ledsinger.

The doubles finals were just a breeze for Hughes and Ledsinger, the bluff City pair overwhelming a pair of crack junior players, John Noblin of Jackson and John Graeber, Yazoo City, in straight sets by scores of 6-1, 6-1, 6-1.

Hughes was eliminated in the singles semi-finals by young Ramsey Potts of Memphis, who clashes Sunday with Clay Miller of Jackson for the championship long worn by Hughes.

Eight Home Runs Feature A's Twin Victory, 9 to 5 and 8 to 7

PHILADELPHIA, June 10.—(P)—The Athletics did a thorough job of shattering the New York Yankees jinx today by winning both games of a double header.

from the world champions, 9 to 5 and 8 to 7, before a capacity crowd of 35,000, largest of the season. The triumph sent the A's into third place ahead of the defeated Chicago White Sox.

Even Babe Ruth's 13th and 14 home runs of the season and Lefty Grove's stunt of fanning five times to equal the major league record of batting futility couldn't stop the A's in the first game as Pinky Higgins smacked a four-bagger with two on base in the eighth to clinch the game.

Five more homers, including Jimmy Fox's thirteenth of the year and two by Arndt Jorgens, Yankee catcher, marked the second game. Philadelphia won this contest in the ninth when Bill Miller hit Lefty Gomez for a pinch single, Roger Cramer walked and Ed Coleman brought them both in with a single after they had advanced on B. J. Johnson's sacrifice. Jorgens' first homer was made with the bases full.

Cotton
New Orleans
NEW ORLEANS, June 10.—(P)—The cotton market was very active for a short session. At the start prices advanced rather sharply on the late approval of the appropriation of \$100,000,000 to retire cotton acreage, but most of the gain was subsequently lost on realizing and week-end liquidation.
Prices advanced in early trading to 27 for July, 9.55 for October and 9.70 for December, or 14 to 15 points above yesterday's close.
Later in the session the market turned easier as considerable hedge-selling had been attracted by the early advance and there was also profit-taking attributed to liquidation over the weekend. Prices made new lows for the day right at the end with July at 9.17, October at 9.43 and December at 9.57, or 10 to 13 points down from the early highs.
The close was barely steady, showing net advances for the day of 2 to 4 points.
Exports for the day totaled 22,824 bales.
Cotton futures closed barely steady at net advances of 2 to 4 points.

NEW ORLEANS, June 10.—(P)—Spot cotton closed steady 4 points up. Sales 981; good middling 8.67; middling 8.17; good middling 8.57; receipts 1,432; stock 89,497.

New York
NEW YORK, June 10.—(P)—Cotton gained slightly today but closed well under the day's highs.
An early advance of about 17 to 18 points was attributed to trade and commission reports from the overnight reports from Washington concerning additional appropriations for use by the secretary of agriculture in securing reduction in acreage.
The failure of these reports to bring in a more general or aggressive demand was probably a disappointment to holders of contracts which accounted for some liquidation and a decrease in price. Upward movements pending further developments in connection with possible acreage curtailment plans.
Other contracts after selling up to 9.65 or about 45 points above the low level of Friday morning, reacted to 9.47 and closed at 9.49. The general market closed barely steady at net advances of 5 to 8 points.
Cotton futures closed barely steady, 5-8 higher.

NO HARD FEELINGS, PLEASE . . .

This is a "Clearaway"—STORE-WIDE, including our Bargain Basement as well as our regular floors—and in all cases, the quantity is limited. We ask you to take this Sale in the spirit in which it is offered—bearing in mind that the listings on this page are only REPRESENTATIVE. For every "Special" listed here, there are three or four others, equally good, waiting for you. While we can't guarantee ANY "Special" to last during the sale, we DO guarantee "Specials" of similar nature and type and VALUE for EVERYONE. So come in—it's an old-fashioned "bargain festival"—and you won't be disappointed.

NO HARD FEELINGS, PLEASE . . .

This is a "Clearaway"—STORE-WIDE, including our Bargain Basement as well as our regular floors—and in all cases, the quantity is limited. We ask you to take this Sale in the spirit in which it is offered—bearing in mind that the listings on this page are only REPRESENTATIVE. For every "Special" listed here, there are three or four others, equally good, waiting for you. While we can't guarantee ANY "Special" to last during the sale, we DO guarantee "Specials" of similar nature and type and VALUE for EVERYONE. So come in—it's an old-fashioned "bargain festival"—and you won't be disappointed.

HIGH LIGHTS OF HISTORY

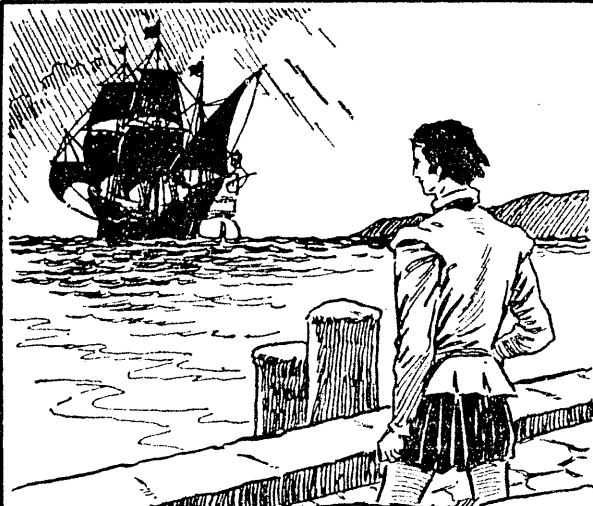

Sir Walter Raleigh—Part I

By J. CARROLL MANSFIELD

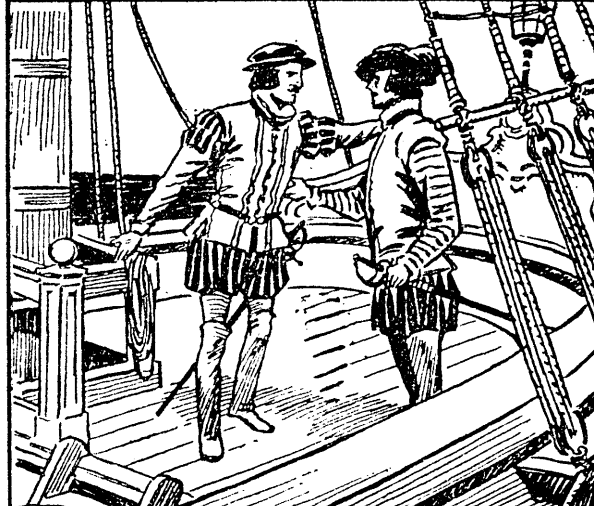

SIR WALTER
RALEIGH,
1552-1618-

SOLDIER, POET AND STATESMAN,
WALTER RALEIGH WAS ONE OF
THE GREATEST AND MOST
ROMANTIC FIGURES OF
ELIZABETHAN ENGLAND. —

RALEIGH WAS BORN IN A SEAPORT
TOWN OF DEVONSHIRE, ENGLAND, IN 1552.
LOVE OF ADVENTURE LED HIM TO
QUIT OXFORD UNIVERSITY AND GO
TO FRANCE TO FIGHT WITH COLIGNY
AND THE HUGUENOTS (1568).

IN 1578, WHEN HIS STEPBROTHER, SIR
HUMPHREY GILBERT, SAILED WITH A
SMALL SQUADRON TO PLANT A
COLONY IN AMERICA, RALEIGH
ACCOMPANIED HIM AND COMMANDED
ONE OF THE SHIPS (THE "FALCON").

THE LITTLE FLEET NEVER REACHED
ITS DESTINATION. ON THE WAY
ACROSS THE ATLANTIC IT RAN INTO
A SUPERIOR SPANISH FORCE AND
WAS OBLIGED TO SCURRY BACK TO
ENGLAND. —

IN 1580 RALEIGH, AS CAPTAIN OF
A COMPANY OF 100 MEN, SERVED
WITH THE ENGLISH ARMY IN A
CAMPAIGN IN IRELAND. LATER, THE
YOUNG SOLDIER ATTRACTED THE
ATTENTION OF QUEEN ELIZABETH
OF ENGLAND IN A STRIKING MANNER.

ONE DAY IN LONDON RALEIGH, WATCH-
ING ELIZABETH AND HER RETINUE
PASS, SAW THE QUEEN PAUSE ON
THE EDGE OF A MUD PUDDLE THAT
BARRED HER WAY. —

WITHOUT HESITATION RALEIGH
DOFFED HIS HANDSOME VELVET
CAPE AND SPREAD IT OVER THE
MUD SO THAT HIS SOVEREIGN
MIGHT CROSS WITHOUT SOILING
HER SHOES.

THIS GALLANT GESTURE OF RALEIGH'S
WAS NOT SO SILLY AFTER ALL.
ELIZABETH WAS PLEASED AND
FLATTERED BY SUCH CHIVALRY,
AND FROM THAT DAY RALEIGH'S
FORTUNES WERE IN THE ASCENDANT.

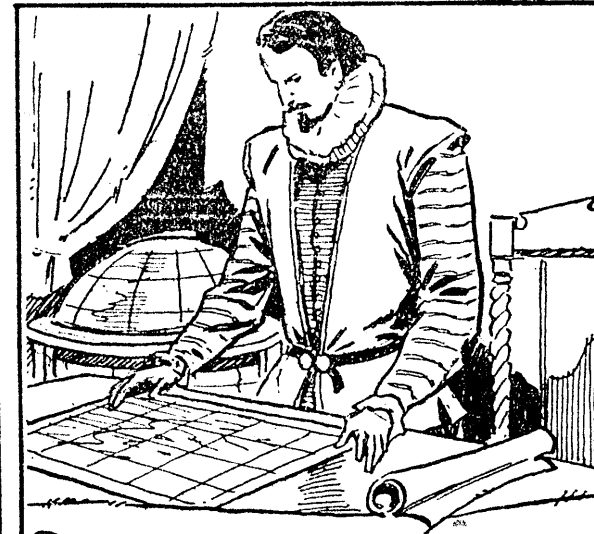

HE BECAME THE SPECIAL PROTEGE OF
THE EARL OF LEICESTER, THE QUEEN'S
FAVORITE, BY WHOM HE WAS
INTRODUCED TO THE INNER CIRCLE
OF COURTIER. —

RALEIGH WAS A POPULAR MEMBER
OF THE COURT AND STOOD HIGH IN
ELIZABETH'S FAVOR. THE QUEEN
PRESENTED HIM WITH LARGE
ESTATES IN ENGLAND AND IRELAND.

RALEIGH WAS ONE OF THE FIRST
ENGLISHMEN TO HARBOR A DREAM
OF DEVELOPING AN ENGLISH COLONIAL
EMPIRE IN THE WILDERNESS OF
NORTH AMERICA. HE FINANCED GILBERT'S
EXPEDITION TO NEWFOUNDLAND (1583)

GILBERT PERISHED ON THIS UNSUCCESS-

ACCESSORIES

BELOW, a striking link bracelet is fashioned of diamonds and sapphires and comes with a matching pair of earrings. The handsome flat vanity case of gold shows a front studded with sparkling diamonds. The capacious evening bag is done in blue and silver checked lame.

A SANDAL

THE most popular evening shoe of the early Summer season. The model above, made of dull red crepe, features braided silver straps and the new very straight high heel. Of course, it is very much cut out.

WHAT'S NEW IN WRAPS

ABOVE, at left, is a three-quarter wrap of antique red velvet, which hangs straight from the shoulders and ties in a large flat bow at the neck. The full sleeves come to just below the elbow and are banded with sable. The wrap in the next sketch is the same length and is made of gleaming stiff white satin. The back flares straight from the narrow scarf collar and the voluminous sleeves are held in at the cuffs by narrow sable bands. The frock of chiffon, printed in yellow, blue and white, reveals a very low décolletage partly covered by a circular capelet. The waistline is swathed and the skirt falls in graceful folds to the floor.

RUFFLES WIN FAVOR

THIS black organza frock has an underslip of taffeta and the blouse consists of a wide bertha edged with two deep ruffles held at the shoulder by a huge red velvet poppy. Three deeper ruffles start at the knee and billow into a graceful train. This sophisticated and effective costume is completed with a tiny red velvet muff.

PRIVATE HOMER HIBBS was not a very good soldier, albeit he did possess a sufficient number of good points to enable his company commanders to tolerate him, even while declaring him a disgrace to the uniform. His most potent saving grace was a sense of humor; he was the sort of fellow who can put an edge on an otherwise dull existence, and talk or lie himself out of a scrape which, in the case of any other man, would be pressed to the limit. Hibbs could always be depended upon to spend his pay-day in riotous living and be a W. O. L. not less than one day a month. Then he would do forty-eight hours in the guardhouse — after which the summary-court officer would try him, fine him from two to five dollars (generally two because Hibbs always confessed error and manifested great contrition) and return him to duty. Thus Hibbs came to be known as a twenty-seven-day soldier.

SHORTLY after the United States declared war on Germany, Hibbs took stock of his military career by the simple process of asking the first sergeant to show him his (Hibbs') military record. It showed twenty-six summary courts-martial and two general courts. "I guess I'd better mind my step," Hibbs said to the top sergeant, after surveying the record. "That is the first sensible thought you have had in twenty years, Private Hibbs," said the troop commander, entering at that moment. "I am pleased to know that your dreadful military record impresses you."

"I been cited three times for gallantry in action, an' I got two certificates o' merit," Hibbs defended. "And you've been getting by on that ever since. Nevertheless, Hibbs, there's such a thing as wearing out one's welcome, and you're perilously close to wearing out yours." The skipper reached for Hibbs' service record: "You were born on January 3, 1878, and at the age of sixteen, with the consent of your parents, you enlisted and have served continuously ever since. Six years of that service was foreign and counts double time toward your retirement." The captain did some figuring. "Hibbs, in November, 1918, you will be entitled to retirement after thirty years of service, and on the day of your retirement you will only be forty years, ten months and two days old, sound in mind and limb, and with thirty or forty years of life before you. You will retire with five fogies or fifty per cent increase over the base pay of your rank at retirement."

"But suppose," pursued the officer, "you should retire as a first sergeant. Three-quarters retirement pay is fifty-eight dollars and fifty cents per month. As a veteran of the Spanish-American War, the Filipino Insurrection, the Boxer campaign and innumerable little campaigns in the southern islands, you will have no difficulty in securing a pension of thirty dollars a month, which would insure you an income of eighty-eight dollars and fifty cents a month. While still in the prime of life, with three citations for bravery and an honorable discharge as a top sergeant, you could undoubtedly secure a job as special policeman in a bank and earn a hundred and twenty-five dollars additional."

"I thank the Captain for his kindly advice," murmured Hibbs. Then he saluted — the easy, graceful, devil-may-care salute of the old soldier, made a correct about-face and stalked majestically out of the orderly room.

PRESENTLY a sorrow descended upon the regiment. An order from the War Department "reorganized" it from cavalry to field artillery, and chaos reigned. Hibbs had to become expert at gun-drill and be interchangeable in all five positions on the gun-crew, and he had to surrender his grand troop horse to a gun corporal and sit a horse in a gun-team. From a free, bold, dashing, independent cavalryman to a boob driver of a gun-team! Horrible! The fact that it was the lead team on No. 1 gun gave him no solace. In despair Hibbs went A. W. O. L. for a week and got very drunk, and when he returned the skipper took the lead team away from him and staked him to a fourgon wagon and four mules — which was terrible, because Hibbs did not like mules.

In France the officers had to learn an entirely new brand of field artillery practice, and the enlisted men had to be trained all over again in the service of French seventy-fives. Life was terrible. Finally they went up to the target range for three weeks, and at the end of that time the regiment was adjudged fit to go to the front.

But the animals were terrible. They were green, soft, half-broken and of all shapes, sizes and breeds. They commenced to waste on the fourth day of the march, and Hibbs, in common decency, dismounted, walked between his lead team and led it. The skipper passed him and pulled up. "I notice a she-goat on top of the load of forage on your wagon, Hibbs. Whose goat is she, and what is she doing there?"

"She's my goat, and she's riding there, sir."

"She's adding a hundred pounds to the load. I object to pampering a goat, and you will remove her from the top of that load, tie her to the rear of the wagon and make her walk."

THE GOAT OF PRIVATE HIBBS

by Peter B. Kyne

"All right, sir; but if I do, she'll get tired and nervous and won't let down her milk."

"Oh, is she a milk-goat?"

"Yes, sir. She's got two kids. They're asleep in the box of the wagon under the seat."

"I suppose you've brought this she-goat along as a mascot," the skipper suggested, "but in my opinion a buck goat makes the best mascot."

"A buck goat don't give no milk," Hibbs reminded him patiently. "Sarah's lousy with milk. She's pretty near a full-bred Toggenburg."

"Where did you get her?"

"I give a Frog fifty francs for her, an' five francs each for the kids, sir."

"What do you expect to do with all this livestock?"

"Well, sir, when the kids are about six weeks old, my section'll kill 'em an' barbecue 'em an' eat 'em. After that Sarah'll give us milk for our coffee."

"You don't like mules, do you, Private Hibbs?"

"I hate mules, sir."

"I think I'd enjoy goat's milk in such an arduous campaign, Hibbs. In fact, I think the officers' mess would enjoy it also."

"Uh-huh," murmured Hibbs. "I suppose you realize, Hibbs, that it is in my power to banish Sarah and her kids. I think I ought to do so. It is illegal to have any animal not in the service subsisting on army forage."

"Sarah'll clean up what the horses and mules would only waste, sir. Mostly she'll graze on Frog pasture. Still, sir, if I could have horses instead of mules, and a job around the echelon instead of up at the firin' battery, me an' the Captain might be able to come to some understandin' on a division of Sarah's milk."

The captain was, undoubtedly, a brute. "How about throwing in one of the kids when it's ripe for eating?"

"I got five francs capital tied up in each kid, an' after all the enterprise I've showed buyin' 'em, and the extra duty I'll be put to lookin' after them, I'd ought to have a profit, sir. In time o' war a fine fat six-weeks-old kid at the front had ought to be worth five dollars in American money."

"Sold! The supply sergeant will need a good experienced man to help him with the forage, so you'll stick around the forage tent. You'll probably get your share of shell-fire there. Anyhow, Hibbs, with less than six months to go before your retirement, you're entitled to special consideration."

He smiled at Hibbs and rode off.

A staff car pulled up alongside the fourgon wagon, and a brigadier general stuck his head out. "What do you mean by blocking traffic, soldier?" he rasped.

The general was about to say something nasty when he noted the array of ribbons on Hibbs' blouse, observed that for all the dirty job on which he was engaged, Hibbs was neat and had shaved that morning. And the fellow had won the D.S.C. twice.

"What's that nanny-goat doin' on top of your load, soldier?"

"Ridin' free an' sight-seein', sir."

"To whom does she belong?"

"To my battery commander, sir. She furnishes fresh milk to the battery officers' mess."

"Take the name, rank, regiment and battery of this goat-owning artillery officer, Major," the general ordered his adjutant. "It is my opinion that this goat has been stolen."

So Hibbs gave the adjutant a meticulous lot of entirely fictitious information, and the general proceeded.

They came to a shell-riddled town that night, and found a little stone church which the supply sergeant appropriated as a forage depot, and they unloaded the wagons.

HIBBS extracted a quart of milk from Sarah and carried it over to the officers' mess; then he found a place in the ruined sacristy for the goat and her progeny, opened a bale of hay and turned in.

Hibbs lived the life of Reilly. He dutifully slew one of Sarah's kids and delivered the body to the skipper; the other kid he and half a dozen other old soldiers devoured. Presently he took Sarah with him on a journey in a motor-truck down to the railroad, where, after diligent search, he found a billy-goat. Hibbs knew that in the nature of things Sarah would go dry, and until she could reproduce her species, would remain dry. And a dry goat was no asset to Private Hibbs.

Hibbs' pride of possession of the goat was slightly clouded, however. Seemingly, in taking on the A. E. F. Sarah had taken on also something of his belligerent character. Also, she was a one-man goat — and that man was Hibbs. To him only would she let down her milk, which peculiarity further operated to induce the Captain to keep Hibbs always in the wagon lines where he could milk her night and morning.

ONE day Hibbs was horrified to see a brigadier general prowling around the arena of his activities, making an inspection. Hibbs knew that brigadier, having met him once before; so he hurriedly sought to hide Sarah in the basement of a ruined house hard by.

"Come, Sarah," he said, and held out his hand with a small

plug of eating tobacco in it, he having no other tidbit handy to stimulate her curiosity and abnormal appetite at the time. Other soldiers had fed it to her before, however, and it had made her ill. Hibbs advanced upon her; and as he advanced, Sarah retreated; he made a rush to grasp her by the collar, and she evaded him and fled to the horse lines, where the brigadier was busy inspecting.

Hibbs decided not to pursue her, since pursuit would indicate possession and draw upon him the attention of the brigadier. He retreated to the forage tent to watch developments.

They came with terrific suddenness. Sarah had never seen a brigadier before, and she resented strangers. Fairly and squarely she took the brigadier right under the six-inch split in the tail of his blouse and catapulted him forward on his face into a pool of filthy mud, water and stable refuse.

The brigadier rose. A moment before, he had been an extraordinarily neat brigadier, but now he was something to write home about. He had a heavy leather riding-crop in his hand, and he cursed aloud and flew at Sarah and struck her across the neck. Instantly Sarah charged and got home a direct hit on the brigadier's solar plexus; he went over backward, and the ruin and disgrace to his uniform was completed. Before Sarah could dance upon his midriff, however, the stable sergeant captured her. Lieutenant Holly assisted the

have I seen you before?" the brigadier demanded.

"I must respectfully decline to answer on the ground that I might incriminate myself."

"I believe this is your goat."

"Yes, sir, that's my nanny; and oh, I'm so proud of her. Any goat that knows how to put a brigadier general in his place ought to be made a corporal."

The general choked with rage. "Where did you acquire this goat?"

"That's my private business, sir, and I respectfully decline to answer the question on the ground that to do so might tend to scandalize me."

"I knew she was stolen. Take her out in that field and shoot her. Shoot her dead," the general ordered. "Yes, sir," Hibbs saluted. Then he got a piece of rope, tied it to Sarah's neck and jerked her savagely across the field. He passed out of sight going down-hill; the moment he knew himself to be unseen he threw Sarah, bound her swiftly and expertly, stuffed his dirty handkerchief in her mouth so she could not bleat, and dropped her kindly enough into a new shell-hole. Then he pulled his pistol and fired a shot into the shell-hole as, out of the tail of his eye, he saw the brigadier appear on the hill above him. He commenced scuffling into the hole with his feet quantities of the loose dirt on the lip of the crater. He worked very industriously at this for five minutes and then went sadiy up-hill again.

"Now that you've killed that

brooch-blocks with them; the Germans pursued and came down on the echelon; Hibbs and his fellows cast the horses and mules off the picket line and stampeded them toward the rear before following — and in the excitement Sarah was left behind.

THE Germans contented themselves with burning the dump and retreating off on the flank whence they had come. And they took Sarah with them.

When the fire in the dump died down and the shells had ceased to explode, the survivors of the battery returned with the breech-blocks and went into action again with the reserve ammunition in the limbers and caissons. Hibbs went prowling around amidst exploding shells from a German battery. Not a fragment of Sarah could Hibbs find, so at length he came to the conclusion that she was, indeed, part and parcel of the spoils of war.

He made his way up to the firing battery to break the sad news to the captain.

"Of course they've got our goat," the skipper agreed bitterly. "That retreating bunch of goat-thieves are holed up in that patch of woods yonder. They're lost, I think — can't get back

"Am I your prisoner or are you mine?" Hibbs waved his hand grenade carelessly. "All I want is that goat."

brigadier to rise; when the latter could get his breath he said:

"Who owns that hell-anointed goat?"

Lieutenant Holly, being an officer and a gentleman, and hence, debarr'd from lying to his superior officer, cast a dead-fish eye at the stable sergeant. "Sergeant," he said severely, "who owns this goat?"

"She belongs to some infantry mob that was in rest billets here yesterday, sir. She's their major's goat, and he keeps her to get fresh milk. Seems like he can't stand the army field ration, sir, on account he's got ulcers of the stomach an' fresh milk's about all he can hold down."

"This is all," said the brigadier, "a damnable lie, calculated to deceive me and safeguard the possession of this — this capris harricannus. I have seen this goat before, riding on the top of a load of forage on a fourgon wagon, and the artillery soldier driving that wagon was pert almost to the point of impudence. I remember the fellow well. He wore half a dozen campaign ribbons and the D.S.C. with oak-leaves. I ordered him to give my adjutant the name, rank, battery and regiment of the officer who owned the goat, and he lied to me. I hate a liar."

"Sergeant," said Lieutenant Holly, "you have been in this battery ever since it came to France. Have we a soldier who answers the description the General has just given?"

THE sergeant decided that it would be very unsafe to tell any more lies.

"Hibbs might be the man, sir," he said.

"Send for him at once," said the general.

Arrived where Hibbs was lurking, the stable sergeant acquainted the latter with the situation, and Hibbs agreed with him that it might be better to face the music. He met the brigadier's penetrating scowl with a look of serene innocence and profound respect. "Where

goat," said the brigadier, "and partially buried her, go down, dig her up, skin her, dress her and have your battery cook make a stew of the carcass. There's no sense wasting her."

"Nobody would eat her. She was due to kid in a week, sir, and the men would rather feed on iron rations than eat a pet."

"I shall send a communication to your battery commander, requesting that he discipline you," the brigadier roared.

The brigadier choked. His face grew turkey red. "Forward! Double-time! March!" he ground out, and Hibbs fled like a roebuck. Indeed, he wished he had a swift horse. The brigadier followed back to the horse lines, where the sympathetic Lieutenant Holly wiped the fool off and suggested that he stand around the rolling kitchen until he dried. When at length he climbed into his car and departed, Hibbs went down into the shell-hole, released Sarah and led her proudly back to his forage tent.

Under Hibbs' loving care and heavy feeding, Sarah was dry only three weeks. Then she presented Hibbs with two kids, which in due course were eaten by the officers' mess. This being her second adventure in maternity, Sarah had an abundance of milk this time, and out of the excess Hibbs got sufficient cream to make one good brick of fresh butter weekly, much to his captain's delight.

He was a gold-brick unashamed, until the morning the Germans stole his goat. During the night a battalion of German infantry infiltrated through a gap in the flank and got into dead ground in front of the battalion of which Hibbs' outfit was a part. As the gray light was showing in the east, they attacked, and although the batteries employed shrapnel, with the fuses cut to zero, sweeping the terrain through open sights as one sweeps with a giant shotgun, the charge got home. The gun-crews fled, carrying the

through the hole in our flank where they came through. And they have Sarah."

"For God's sake, sir," Hibbs pleaded, "don't plaster them woods. You might ruin Sarah."

"I'm putting down interdiction fire beyond the woods, my boy. They'll stay where they are if they're not disturbed. We'll have to get up more ammunition before I can wipe out those woods, and I'm in hopes the enemy will begin to realize presently the jam he's in, come out and surrender."

"It takes a long time for a German to get an idea into his head," Hibbs complained.

Hibbs crawled away from the observation post, down-hill. He found dozens of German dead in the field he had to cross, so he frisked a number of them and found hand-grenades.

"Good," Hibbs murmured, trudged back to the desolated dump, and presently found a nose-bag. When the nose-bag was filled with hand-grenades, he slipped himself next to a late model Mauser rifle from another dead German, filled two belts with ammunition, put fifty rounds additional in various pockets, and sneaked away through the shattered trees.

PRESENTLY Hibbs found a gap of about a hundred yards between his battalion and the next; in front of him and extending down the slope and thence across a level stretch for half a mile, a dry old watercourse, lined with a low growth of willows, wound its way to the little patch of woods in which the raiders had taken shelter.

Suddenly a burst of machine-gun bullets whined over him. "They got some machine-guns down in them woods," Hibbs decided. "An' they're shootin' at me. This is dangerous."

He crawled along until he knew he was abreast the light machine-gun and not more than thirty yards from it; so he set down his nose-bag filled with hand-grenades, poked his head up a few inches above the rim

of the watercourse and studied the terrain. He saw little puffs of dust rising in a small open space in the woods and knew them for the dust tossed up by the blast of a machine-gun set low on the ground. So Hibbs took three bombs and crept up and out to within twenty-five or thirty feet of the hidden machine-gun. He could not see the crew because of the foliage, but he knew it was there; he lobbed over three grenades from behind a huge oak tree, then drew his pistol and charged.

There wasn't much left to charge, but Hibbs finished that and then looked about him for Sarah. She was not in sight, so he went back to get his nose-bag of bombs and the Mauser rifle. Then he stripped a blouse and a cap off a dead German, donned them and proceeded boldly through the woods in the direction of the heavy machine-gun firing. He picked the crew off briskly and efficiently with the Mauser rifle, for was he not the champion rifle shot of the old Regular Army?

STRAIGHT through the trees Hibbs went, and performed a similar service on another machine-gun. Then he went wandering through the woods very boldly. He saw plenty of the enemy, who mistook him for one of their own. He was seeking Sarah — and presently he found her. Two Germans were holding her; a third was milking her, and an officer was looking on. So Hibbs slid out of his large German blouse, replaced the German cap with his own overseas cap, got out a hand-grenade and announced himself.

"Any o' you Krauts speak English?"

The officer whirled, reached for his Lager and then thought better of it. "My dear fellow," he demanded coolly, "how the devil did you get here intact? Consider yourself a prisoner."

"Sure," said Hibbs. "I'm a prisoner but that don't stop me from prowlin' around with this sack o' bombs and usin' 'em. Still, I ain't lookin' for any argument. All I want is that goat. She's my goat, an' you dirty scuts stole her this mornin'."

"You have come for your goat?"

"You are here alone?"

"Also-doggone-lutely."

"What do you propose?" the German parried.

"I propose that you boys get onto yourselves and save funeral expenses," Hibbs replied. "The only reason my battery hasn't sprayed these here woods is because the old man just didn't have the heart to do it; and besides, he might kill my goat. Your people can't get back through the hole in our infantry flank where you sneaked in. We've reestablished contact, and I've cleaned out three of your machine-gun crews. There ain't no water in these woods that I can see, an' you're short o' rations. Bet you was going to milk my goat first, an' then kill her and eat her."

As the German officer nodded, Hibbs went on: "I always heard you guys was efficient. Boy, if I was you, I'd get my gang together an' surrender!"

"And if I refuse?"

Hibbs stepped back behind a tree. "If you refuse, I'll lob this egg over on you. Then I'll touch off a rocket, an' my battery commander will know I've put the buck up to you and you wouldn't listen to reason, so right away there'll be sixteen shells lightin' in these here woods every three seconds."

"Your battery commander sent you here to demand my surrender?"

"Sure. He's that kind. He don't relish killin' Germans that ain't got a Chinaman's chance to fight back. However, don't let me influence you. Think it over calm an' deliberate, an' if you decide to surrender, just pass the word through the woods for all hands to form up in column o' twos. Then I'll walk out into the open with this here goat, and you and your gang follow me. I'll ask you to have your men bring along with them the three machine-guns I put out of action. If you decide not to surrender, that's jake with me, and we'll go to it and may the best man win."

On the evening of November 18th, 1918, Hibbs felt unusually sad, for he had made formal application to be honorably discharged from the service, following thirty years of continuous service, and on the morrow the battery commander was going to give him his sheepskin. He would go from the battery as a stray dog leaves a house where he has not been made welcome; the regiment was going up to the Rhine, and Hibbs had heard that the beer was good on the Rhine — and cheap.

He wondered what was going to become of him — poor homeless, futile wretch! He had never even been a corporal. He was retiring on the three-quarters pay of a private with five fogies — about thirty-five dollars a month. For the first time it dawned on him that he was unfit for the competition of civil life, for of civil life he knew nothing. He shuddered as he thought of saying farewell to his old comrades. . . . No, he wouldn't do that. He'd just sneak away and hide his shame and his full heart.

The first sergeant was speaking:

"Attention to orders!" he

barked. "Regimental Order Number empty-bump. At his own request Sergeant Donald Campbell is hereby reduced to the rank of corporal. Upon the recommendation of his battery commander, Private Homer Hibbs is promoted to the rank of sergeant, vice Campbell, resigned. He will be obeyed and respected accordingly."

Hibbs was quite certain he had gone insane and was hearing strange voices. But the top droned on:

"Battery Order number blah-blah. First sergeant Slattery's resignation as first sergeant of this battery is hereby accepted. By order of the battery commander, Sergeant Homer Hibbs is hereby promoted to the rank of first sergeant, vice Slattery resigned. By order of, etc., etc."

HIBBS' world was falling about his ears. There had been a vacant corporalship, and Campbell had kindly stepped down into it to leave a vacancy as sergeant for Hibbs! Then the top had resigned, and the old man had made Hibbs top cutter. He was going to be discharged a top sergeant — with three quarters of the pay of that rank — the rank he would hold the day he retired! Oh, they were so good to him — and he had been so good to him — and he had been so unworthy! He commenced to blink; through his tears he saw Slattery, no longer top sergeant, walk down the battery front and take post as chief of the first section. Somebody in the rear rank gave Hibbs a gentle shove, and he walked out front, saluted the battery commander, about-faced, and in a trembling voice commanded:

"Call rolls!"

Hibbs about-faced and reported: "C Battery present and accounted for, sir."

"Post!" said the old man, and Hibbs walked down and took his place as right guide, while the skipper drew a paper from his pocket and read:

"Excerpt from General Orders Number —

"Citation. Upon the recommendation of the Commanding General, A. E. F., the President is pleased to award to Private Homer Hibbs, C. Battery, Steenth Field Artillery, the Congressional Medal of Honor for distinguished gallantry in action over and beyond the call of duty. Private Hibbs, on his own initiative, crawled half a mile to a wood in which the enemy had taken shelter. With surpassing coolness, courage and judgment he stalked and bombed and put out of action three machine-guns which for more than an hour had been inflicting casualties upon our forces. Private Hibbs next boldly presented himself before the German officer commanding, convinced the latter of the hopelessness of escaping capture or annihilation and induced the surrender to him of seventy-three of the enemy. Private Hibbs also brought back with him the three captured machine-guns."

"Continuation of citation. Private Hibbs has set for the army an example unprecedented of unselfishness, heroic courage and devotion to duty."

The skipper folded the order and read another.

"First Sergeant Homer Hibbs will, on the 15th inst. report to the chief of staff, at General Headquarters, Chaumont, to receive the Congressional Medal of Honor, the Distinguished Service Order of the British Empire and the Medal of the Legion d'Honneur of the French Republic. The quartermaster will furnish transportation and subsistence to this distinguished soldier."

FROM his post as right guide Hibbs spoke up very rudely: "That's all plain damn' nonsense, sir. Every man in the battery knows I only went after them Heinies to get my goat back."

And then the bugles sounded retreat. Somewhere the flag came fluttering down, and Hibbs' last day of soldiering was done. He stepped out front and dismissed the battery. . . . When he had shaken hands with them all, he turned and found the old man waiting to speak with him.

"What's left of the regiment will be paraded for you tomorrow afternoon, Hibbs, old son," he announced. "You'll take the review alone. The colonel swears he'll not be there."

Hibbs' usually merry eyes were sad.

"I-I can't leave, sir; I just can't! The army's home to me now, sir. I'd die alone—in civil life—no friends, you know, sir, no pride in the job. I want to withdraw my application to be discharged upon completion of thirty years' service. I—I want another chance to be a good soldier. We'll go back to cavalry again — and you'll be left, sir, with just a handful of us old men. We'll be recruiting heavily — and I'd like to help the captain tell the rookies where to head in. Sir, I never thought it would happen, but—I got non-commissioned forever."

"I hope it's a bad case, Hibbs."

"Bad enough to put me on the water-wagon and keep me out of the guardhouse, sir."

"Very well, Hibbs. I'll discharge you tomorrow, but don't bother to remove the diamond. Slattery's going to. Some political pull at home, and he's to be demobilized here, so I'll need you almost immediately to help me run the outfit. With the let-down of discipline following the armistice, they'll be going hog-wild on me."

"Hum-m-m!" Hibbs grunted.

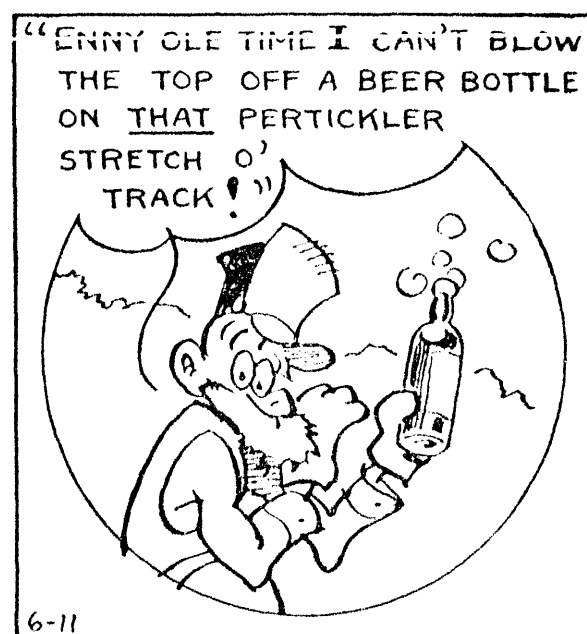

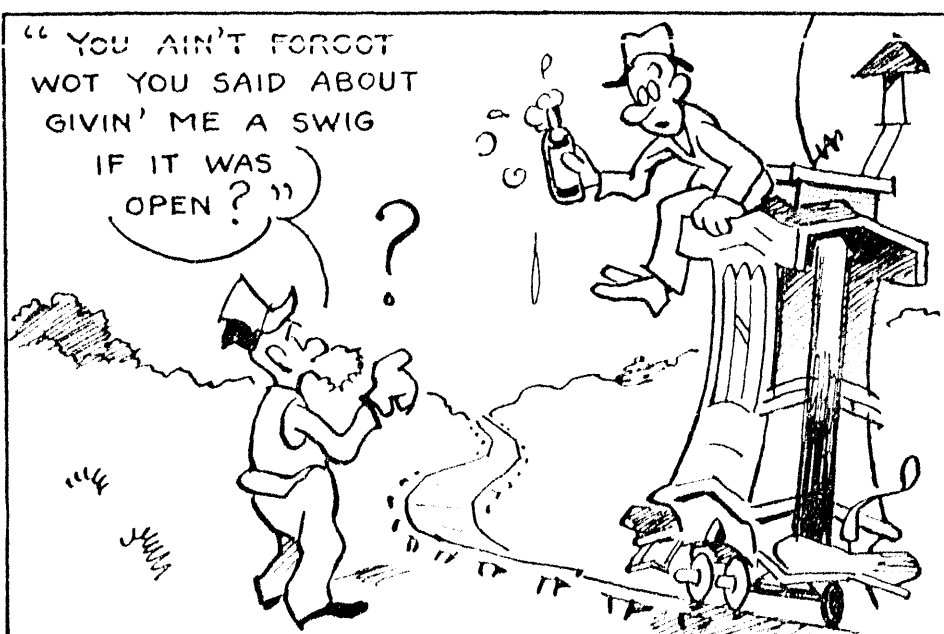

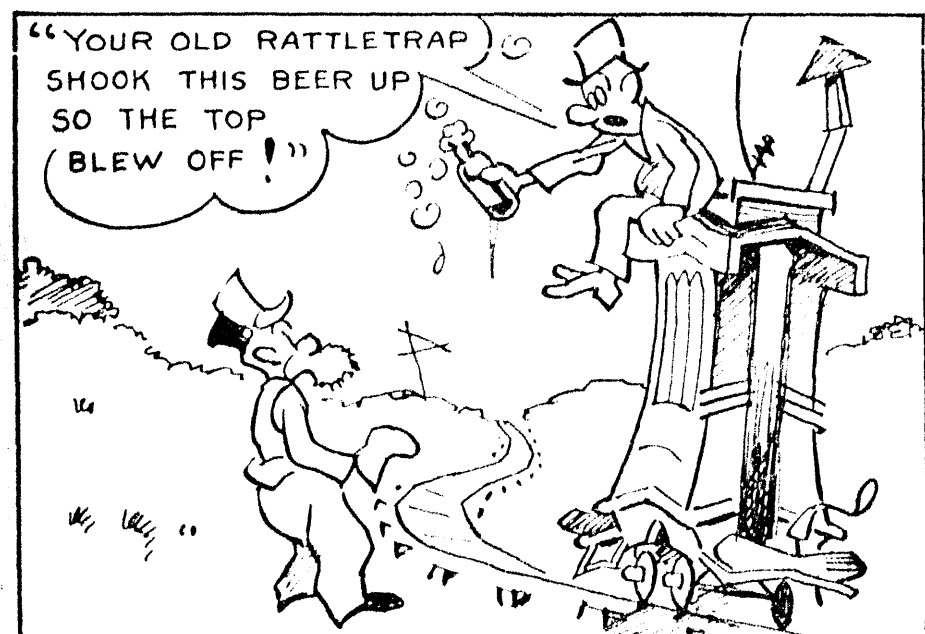

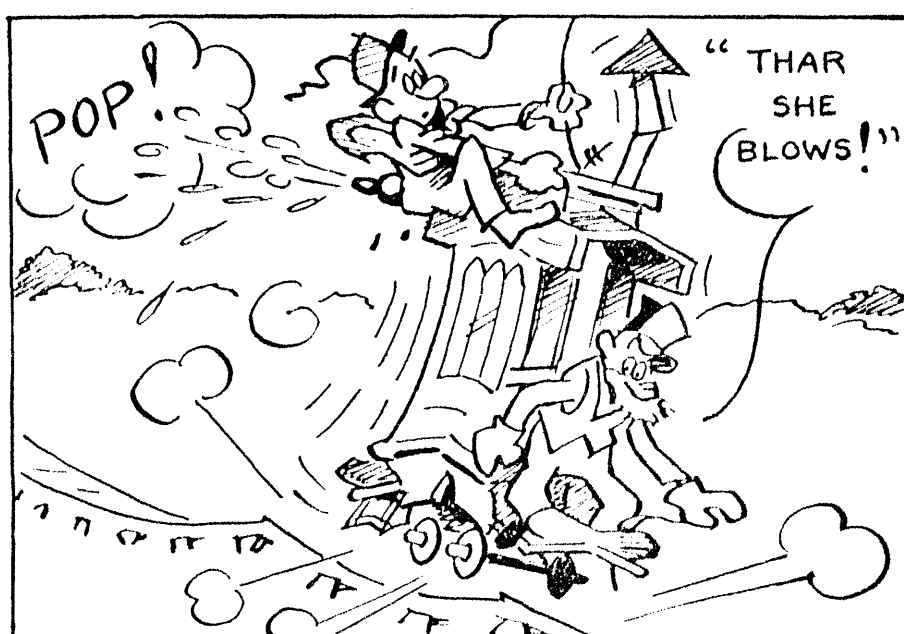

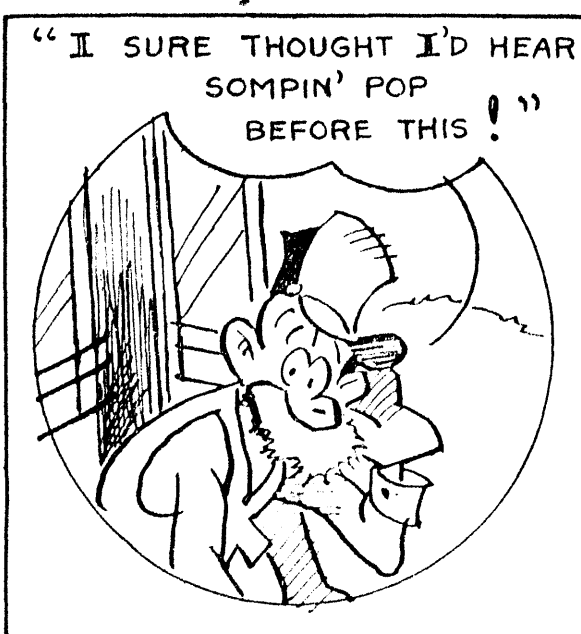

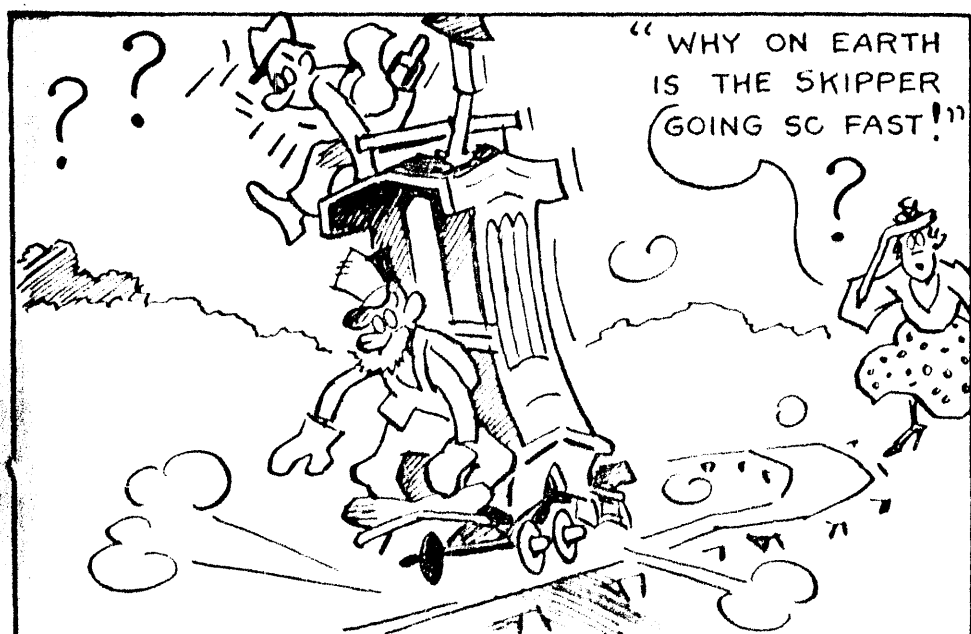

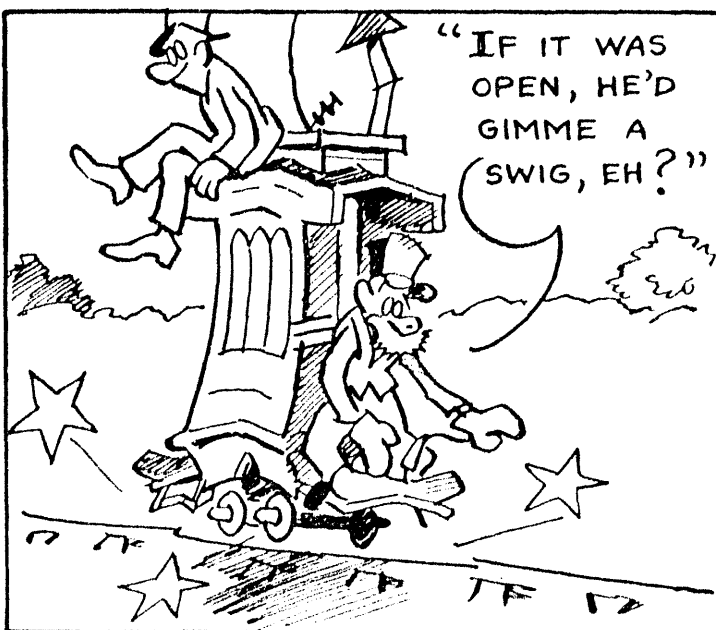

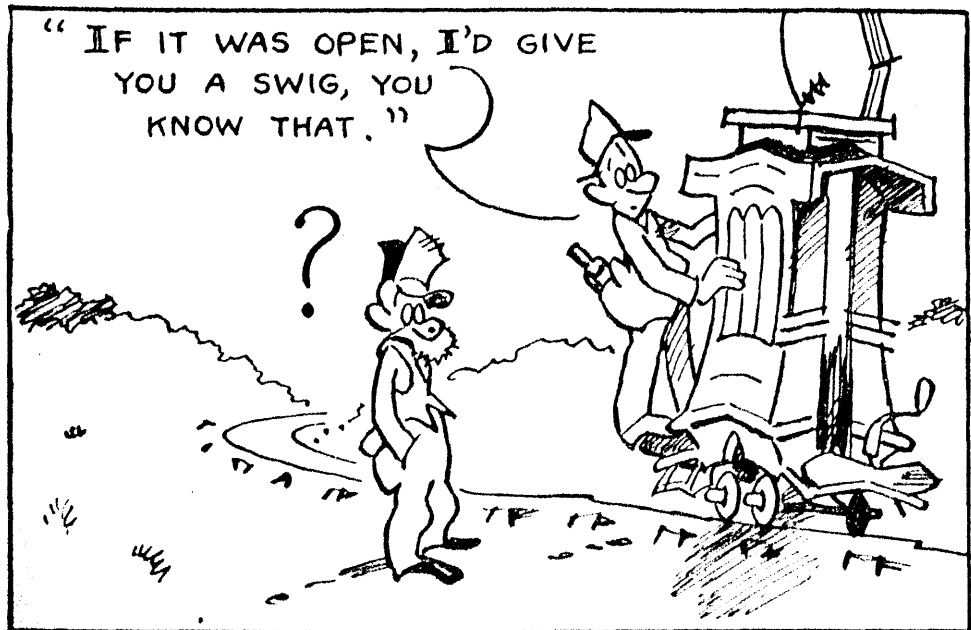

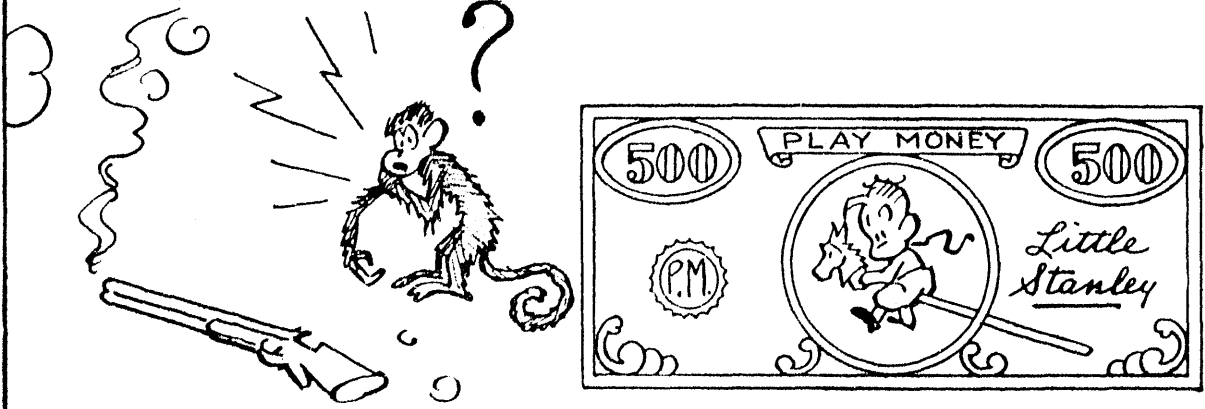

"They ain't seen nothin' yet!"
